CATALOGUE

of the „N. Zubowsky entomological collection”

CHISINAU – 2016

The work was discussed and recommended to edit at the session of of the Scientific Council of the Institute of Zoology, protocol no. 03 of February 8, 2016

The authors: Derjanschi Valeriu, Baban Elena, Calestru Livia, Stahi Nadejda, Țugulea Cristina

Scientific reviewer: Leonid VOLOȘCIUC, Dr habilitate, professor, Institute of the Genetic,

Fisiologie and Plant Protection of AȘM

Scientific editor in: Alexei ANDREEV, Dr habilitate, docent

This catalog has been realized within the Project 15.817.02.12F and published with the financial support of the SCSTD of Academy of Sciences of Moldova (Project 16.220.02.03/M).

Descrierea CIP a Camerei Naționale a Cărții

Catalogul colecției entomologice “N. Zubowsky” / Derjanschi Valeriu, Baban Elena, Calestru Livia [et al.] ; Acad. de Științe a Moldovei, Muzeul Național de Etnografie și Istorie Naturală, Institutul de Zoologie. – Ch. : , 2016 (Tipogr.). – 2... p.

ISBN

594.795(478)

<https://doi.org/10.53937/9789975871488>

Catalogue of the oldest entomological collection of the Republic of Moldova – the material was collected during the period of 1900-1940 years in the territory of Bessarabia. Are cited the data on collection points of 1774 species mostly from order Coleoptera (beetles), Lepidoptera (butterflies), and Orthoptera (grasshoppers and crickets). The catalog is intended for specialists-entomologists, biologists, as well as for a broad range of nature lovers of his native land.

Foreword

During of 125 years of activity of the first public Museum in Bessarabia has gathered numerous collections with a heritage of over 150 thousand pieces, which served as a basis for plating of museum exhibitions, developing and publishing in various areas of many papers. Nevertheless, the greatest important form of scientific valorisation of museum collections are the catalogues which highlights and turn to account of scientific research results in the museum. Along the time have been developed and accepted several types of catalogues: signaletic, summary or selective, collection and exhaustive.

The first catalogue of any public museum in our cultural space has emerged in 1912 – „Explanatory Catalogue of the Zoological Museum of Agricultural and Handicraft of Bessarabia” (“Объяснительный каталог Зоологического Сельско-хозяйственного и Кустарного музея Бессарабского Земства”) which reflect the pieces placed in the museum’s permanent exhibition. In the same year was edited “The Album of the ornaments of Moldavian carpets” that reproduces images of 25 carpets from the patrimony of the Museum. In the 1913 Guberniya’s Zemstvo desiring to arouse the interest for the popular art from Bessarabia, has prepared an album of towels ornaments from the Museum collections, but the beginning of the First World War made impossible to edit it.

In 1936 was prepared a guide of the collections of history and numismatics, of prehistory and ethnography, but and this paper has not published. Only just in 1959 appeared two publications, that includes pieces from the collections of the Museum: the guide “Section of folk creation and artistic crafts” and the catalogue “Exhibition of the republican folk creation”. In 1969 was published an album about woven towels.

A good part of the pieces what constitute the patrimony of the Museum pieces have been reproduced in various papers, guidance reflecting museum exhibitions, albums, magazines, leaflets. However, development and publishing of catalogues consecrated entirely to museum collections began with increasing research within the institution at the end of the twentieth century – beginning of XXI. In 1994 was published a numismatic catalogue

“Thesauruses of the city’s museums of Chisinau of XVI-XVIII century”. This catalogue was developed by researchers from Iasi V. Butnariu in collaboration with curators from the National Museum of Ethnography and Natural History, National Museum of History of Moldova, Museum of Archaeology and Ethnography of the Academy of Sciences and researcher Eugen Nicolae from Institute of Archaeology “Vasile Parvan” in Bucharest. This publication is a selective numismatics Catalogue in which were included 2716 pieces that belong to 12 thesauruses with ornaments, clothing accessories and two clay pots from the patrimony of National Museum of Ethnography and Natural History (NMENH). In 2003 was published catalogue “The Moldavian Towels (end of XIX century – beginning of XX century) from the collections of NMENH “ elaborated by researcher Maria Ciocanu. This catalogue comprises 477 of the most ancient towels, identified as the most representative. Also, is described the history of creation of these collections, the process of making towels, morphological and ornamental structure, being presented the towels list with scientific description and their image. During with the reorganization of the National Museum of Ethnography and Natural History of science in an institution from sciences and innovation domain, the creation activity of these catalogues collections became a part of the institutional projects, conducted by researchers of Museum. Within the institutional project “Scientific interpretation of museum heritage in the context of increasing interest in the identity and authenticity”, carried out in 2011-2014 and through publications, was intensified the scientific description and valorisation of cultural property of the Museum. In 2013, with contribution of the Romanian Cultural Institute from Bucharest was published catalogue “Bessarabian carpets” developed by researcher Varvara Buzilă. This work is a selective catalogue that includes 100 carpets of the most ancient and most expressive pieces from the patrimony of National Museum of Ethnography and Natural History of Moldova. This catalogue presents all kinds of carpet, specific to Bessarabian tradition; each piece is representative for the group to which it belongs also and for tradition as a whole. In 2014, was published in French an important catalogue of numismatic collection of the museum heritage – “Monnaies et parures du Musee National d’Ethnographie et d’Histoire Naturelle de Chişinău” vol. I from „Numismatic collections of Museum of historic Moldova” series. This is a Catalogue of collection and includes exclusively numismatic treasures from the NMENH heritage. Coordinator of the work is researcher of the

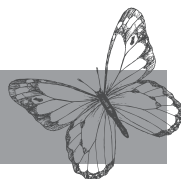

Institute of History „A. D. Xenopol” V. Butnariu from Iasi. Catalogue with 196 pages volume, complete with CD, reproduce all pieces from 17 treasure discovered on the territory of the Republic of Moldova, which lists 1716 gold, silver, metal coins and receptacles; also isolated discoveries and acquisitions – 353 units. The work has three colour maps.

In 2014, with the occasion of one hundred and twenty-five years jubilee since the founding of NMENH, was published the catalogue „National Museum of Ethnography and Natural History and Philately in deltiology and philately (authors – C. Ciobanu, M. Ursu and M. Godorozea). This catalogue includes illustrated postcards, philately-stamp pieces, (postmarks, occasional stamps), which reproduce museum building or pieces from the heritage of the institution, issued in Russia (1905-1917), in Romania (1918-1940), in USSR (1945-1991) and Republic of Moldova (1992-2014). Catalogue comprises all the pieces in cartophily and postal from museum collection and collection of deltiologist A. Ciobanu, where are represents the building of institution or aspects of history and activity of its. In order to simplify to understanding the message of this catalogue by uninformed reader description of philatelic items it was performed on sections: postal stationery cards, postage, and maximaphily and macrophily. Catalogue includes and a study that reflects the history of foundation and activation of the first public museum from the Prut and Dniester space expressed by philatelic and deltiology means.

Nowadays, concurrently with the development of the database of the museum heritage the work of researchers is directed to creation of specialized catalogues of paleontological, zoological and entomological collections, which will allow their introduction into the scientific circulation. The first Catalogue of the collections of natural science collection created by Nicholas Zubowsky was dedicated to insects, which is the oldest entomological collection in the Republic of Moldova.

Mihai URSU
General director of the National Museum of
Ethnography and Natural History

Cuvînt înainte

Pe parcursul a 125 de ani de activitate primul muzeu public din Basarabia a adunat numeroase colecții cu un patrimoniu de peste 150 mii de piese, care a servit drept bază pentru etalarea expozițiilor muzeale, elaborarea și publicarea mai multor lucrări în diverse domenii. Însă cea mai importantă formă de valorificare științifică a colecțiilor muzeale sunt cataloagele, ele constituind o formă de evidență și de valorificare a rezultatelor cercetării științifice în Muzeu. Pe parcursul timpului au fost elaborate și acceptate mai multe tipuri de cataloage: signaletice, sumare sau selective, de colecție și exhaustive.

Primul catalog al unui muzeu public din spațiul nostru cultural a apărut în 1912 – „Объяснительный каталог Зоологического Сельскохозяйственного и Кустарного музея Бессарабского Земства”, el reflectînd piesele amplasate în expoziția permanentă a muzeului. În același an a fost editat „Albumul ornamentelor de covoare moldovenești”, care reproduce imaginile a 25 de covoare din patrimoniul Muzeului.

În anul 1913 Zemstva Gubernială, dorind să trezească interesul față de arta populară din Basarabia, a pregătit un album de ornamente de ștergere din colecțiile Muzeului, însă începutul Primului Războiului Mondial a făcut imposibilă editarea acestuia. În anul 1936 a fost pregătită o călăuză a colecțiilor de istorie și numismatică, de preistorie și etnografie, dar nici această lucrare nu a văzut lumina tiparului. Și abia în anul 1959 au apărut două publicații ce cuprindeau piese din colecțiile Muzeului: Ghidul-îndrumar „Secția de Creație Populară și Meșteșuguri Artistice” și catalogul „Expoziția Republicană de Creație Populară”. În anul 1969 s-a publicat un album despre ștergere.

O bună parte din piesele ce constituie patrimoniul Muzeului au fost reproduse în diverse lucrări de specialitate, îndrumare ce reflectau expozițiile muzeale, albume, reviste, pliante. Însă elaborarea și editarea cataloagelor consacrate în exclusivitate colecțiilor Muzeului s-a început odată cu intensificarea activității de cercetare în cadrul instituției la sfârșitul sec. al XX-lea – începutul sec. XXI. În anul 1994 a fost publicat catalogul de numismatică „Tezaure din muzeele orașului Chișinău, sec. XVI-XVIII”,

elaborat de cercetătorul din Iași V. Butnariu în colaborare cu muzeograful de la Muzeul Național de Etnografie și Istorie Naturală, Muzeul Național de Istorie a Moldovei, Muzeul de Arheologie și Etnografie al Academiei de Științe a Moldovei și cercetătorul Eugen Nicolae de la Institutul de Arheologie „Vasile Pârvan” din București. Această publicație este un catalog selectiv de numismatică în care au fost incluse 2716 piese intrate în 12 tezaure, împreună cu obiecte de podoabă, accesorii vestimentare și două vase de lut din patrimoniul Muzeului Național de Etnografie și Istorie Naturală (MNEIN). În anul 2003 a fost publicat catalogul „Ștergare moldovenești (sf. sec. XIX – înc. sec. XX) din colecțiile MNEIN”, elaborat de cercetătoarea Maria Ciocanu. Acest catalog cuprinde 477 ștergare dintre cele mai vechi, identificate drept cele mai reprezentative. Este descrisă istoria constituirii colecțiilor, procesul de confecționare a ștergarelor, structura morfologică și structura ornamentală, fiind prezentată lista ștergarelor cu descrierea științifică și imaginea lor.

Odată cu reorganizarea Muzeului Național de Etnografie și Istorie Naturală în instituție din domeniul științei și inovării, activitatea de creare a cataloagelor colecțiilor devine parte componentă a proiectelor instituționale, realizate de cercetătorii muzeului. În cadrul proiectului instituțional „Interpretarea științifică a patrimoniului muzeal în contextul sporirii interesului față de identitate și autenticitate”, derulat între anii 2011-2014, s-a intensificat descrierea științifică și valorificarea prin publicații a bunurilor culturale păstrate în Muzeu. În anul 2013, cu contribuția Institutului Cultural Român, la București a văzut lumina tiparului catalogul „Covoare basarabene” elaborat de cercetătoarea Varvara Buzilă. Această lucrare este un catalog selectiv și cuprinde 100 de covoare dintre cele mai vechi și mai expresive piese din patrimoniul Muzeului Național de Etnografie și Istorie Naturală din Republica Moldova. Catalogul prezintă toate tipurile de covoare, specifice tradiției basarabene, fiecare piesă fiind reprezentativă pentru grupul din care face parte și pentru tradiție în ansamblu.

Un important catalog al colecției de numismatică din patrimoniul Muzeului a fost publicat în anul 2014 în limba franceză – „Monnaies et parures du Musee National d’Ethnographie et d’Histoire Naturelle de Chișinău”, vol. I din seria „Colecțiile numismatice ale muzeelor Moldovei istorice”. Este un catalog de colecție și cuprinde în exclusivitate tezaure numismatice din patrimoniul MNEIN. Coordonatorul lucrării este cercetătorul Institutului

de Istorie „A. D. Xenopol” din Iași V. Butnariu. Catalogul cu un volum de 196 pagini, completat și cu CD, reproduce toate piesele din 17 tezaure descoperite pe teritoriul Republicii Moldova, ce enumeră 1716 monede de aur, argint, metal comun și recipiente, dar și descoperiri izolate și achiziții – 353 unități. Lucrarea are 3 hărți color.

În anul 2014, cu ocazia jubileului de 125 ani de la fondarea MNEIN, a fost editat catalogul „Muzeul Național de Etnografie și Istorie Naturală în cartofilie și filatelie” (autori – C. Ciobanu, M. Ursu și M. Godorozea), care este un catalog ce cuprinde cărțile poștale ilustrate, piese filatelico-poștale (mărci, întreguri poștale și ștampile ocazionale), ce reproduc clădirea muzeului sau piese din patrimoniul instituției, emise în Rusia (1905-1917), România (1918-1940), URSS (1945-1991) și Republica Moldova (1992-2014). Catalogul cuprinde toate piesele cartofilie și poștale din colecția muzeului și colecția cartofilului A. Ciobanu, care reprezintă clădirea sau aspecte din istoria și activitatea instituției. În scopul simplificării înțelegerii mesajului acestui catalog de către cititorul neavizat, descrierea pieselor filatelice a fost realizată pe compartimente: întreguri poștale, mărci poștale, marcofilie și maximafilie. Catalogul cuprinde și un studiu, care reflectă istoria fondării și activității primului muzeu public din spațiul pruto-nistean, exprimată prin mijloace filatelice și cartofilie.

Actualmente, odată cu elaborarea bazei de date a patrimoniului Muzeului, activitatea cercetătorilor este direcționată spre crearea unor cataloage specializate ale colecțiilor paleontologice, zoologice, entomologice, ceea ce va permite introducerea lor în circuitul științific. Primul catalog al colecțiilor din domeniul științelor naturii este consacrat colecției de insecte, create de Nicolae Zubowsky, care este cea mai veche colecție entomologică din Republica Moldova.

Mihai URSU

*Director general al Muzeului Național de
Etnografie și Istorie Naturală*

Nicolai Zubowsky

the founder of the oldest entomological collections
from Bessarabia

Among the outstanding personalities who contributed to the creation research and exploitation of collections, which entered in the first public museum heritage of Bessarabia, is included and the naturalist Nicolae Zubowsky. About life and work of this passionate researcher and curator, we can know from various entomological publications of the modern era and various documents of the National Archives of the Republic of Moldova, in the funds of the National Museum of History of Moldova, National Museum of Ethnography and Natural History.

N. Zubowsky was born on November 13, 1867 in the Moghiliov city. After high school graduation in the village, he continued his studies at the University of St.- Petersburg, at the Faculty of Physics and Mathematics, Department of Natural Sciences, at the Chemistry and then at the Biology specialty. On October 7, 1891, he obtained the degree of I grade no. 9055. In the same year, he was engaged in the Zoological Museum of the Academy of Sciences in St.- Petersburg, where he has performed his research activity. In 1896, he published his first articles: "Notes on egg layings of orthopterans and grasshoppers".

In 1898 N. Zubowsky is established with residence in Bessarabia. He was employed as assistant at the Department of Chemistry of Secondary School of Viticulture in Chisinau, and in 1904 being named professor of chemistry, soil science and physics at the same institution. In the same time, he conducted works in wines and soil analysis in the same school, being preoccupied by the scientific work with naturalists and professors in the same institution like A. Bernicov, M. Pautinski, N. Chissa, M. Corceviski and I. Popa.

In 1904, N. Zubowsky participated at the creation of Bessarabian Society of Naturalists and amateurs of Natural History, being one of the 26 founding members. The main goal of this structure has been conducting

of research activity of natural province and of natural scientific knowledge popularization. Elected member of the Management Board of the Society and together with the baron A. Stuart, N. Goronovici, E. Miller, F. Miller, M. Corceveski, I. Popa is framed in the research activity of achievement of the tasks burden faced by the Society. Being a passionate since student years by the insect's world N. Zubowsky is concerned by entomological researches, organized various lectures for the general public and young students. During this time, he is elected as member of the Commission for research of the causes of drying process in wooden plants from Bessarabia.

The results of research conducted with entomologist E. Miller are published in German language in Proceedings of the Bessarabian Society of Naturalists and amateurs of Natural History (vol. I, fasc. 1, vol. I, fasc. 2, vol. I, fasc. 3, vol. II, fasc. 1, vol. II, fasc. 2, vol. IV and VI) with main titles "Materials on the entomological fauna of Bessarabia». Some of these articles have an applicative character and are established to combating pest of vineyards and orchards. This research laid the foundation of entomology from Bessarabia and became known both in Russia and in many countries from Europe, being spread with yearbooks of the Bessarabian Society of Naturalists and amateurs of Natural History.

A new direction in the activity N. Zubowsky in the Society of Naturalists becomes the problem in nature protection in Bessarabia. He supports the initiative of dr. E. Miller, which on 30 October 1912 presented at the annual meeting of the Society in the report "About Protection of Natural Monuments". In this report dr. E. Miller have entered the necessity to protect of nature, speaking to those present at the meeting that "We need to talk with pain not about material nature charming but only about her remains, about its monuments. If we do not take immediately drastic measures, these too are threatened to disappear, quickly and irreversibly".

In this context, dr. E. Miller tackles the problem of natural protection in Bessarabia and addresses a call to organize in the framework of a Council for Nature Protection Society. Those present at that meeting approved this proposal unanimously. In 1913 was created the Nature Protection Council under the chairmanship of dr. E. Miller, the goal of which was to promote the translation of ideas into life of protection and conservation of nature, creation of sectors of protection of them in Bessarabia. N. Zubowsky elected

as Secretary of the Council framed in this activity, but the outbreak of World War baffled the realization of these intentions. At the 1 March of 1919, N. Zubowsky undertakes as professor of chemistry, physics and merceologie in Commercial Lyceum from Chisinau. In this position, he has activated until September of 1924. Meanwhile, he has occupied the position of chemist in the Department of Agricultural Directorate from Bessarabia.

A new stage in the activity of N. Zubowsky begins in the 1922. Through the Order No. 15690 from 5 July of 1922 elaborated by the General Directorate of Public Instruction, he was appointed to the post of chemist in the Laboratory of National Museum from Chisinau. The director of its became Professor dr. N. Florov, author of a development program of the Museum as a “research institution” where “all branches of natural sciences should find their place” and the collection activities of museum pieces “to be built on a scientific concept”. N. Zubowsky supported the program, by obliging himself through the oath at 12 November of 1922” to fulfil scrupulously debts that impose the chemist function of the National Museum”. In this context, in 1922 takes place a return to issues of natural protection in Bessarabia with the contest of the National Museum from Chisinau. The process was accelerated also by the land reform, which occurred in Bessarabia, in result of which the majority of land began to be cultivated, thus under threat of disappearance of “virgin steppe” sectors. The same could be said about the woods, although those were in more favourable provisions for conservation, suffered because of human intervention. Due to these considerations was imposed the need in to conserve these natural monuments, because the forest and the steppe “determined the Bessarabian vegetation, soil and her agricultural and economic physiognomy”. According to these circumstances, the Museum submit to the General Directorate of Agrarian Reform from Bessarabia and then to the Romanian Government, a proposal for separation of several parcels of forest and steppe and organizing “of national parks for the protection of natural monuments”. The Society of Naturalists from Chisinau, which constituted a Committee to conserve of natural monuments, supported the proposals of Museum. This, in turn has presented a report regarding on the matter signed by the Chairman of Comitte E. Miller and N. Zubowsky – secretary. The report mentioned that as a agrarian reform “Is very favourable for the realization of large cultural enterprises: creating in our country of certain parcels inviolable, called

“National Parks”, which will target conservation of natural monuments also if this project will be made definitive. If Romania will make it, then she will be the first country in Europe, which will bring for science and human culture a tremendous service”.

Proposals of the Society have been supported by the state structures and were taken concrete actions in this direction. So, in the approach signed in 6 April of 1925 by the Ministry of Agriculture where asked to make available a series of steppe and forest plots, for to organize these parcels – “National Parks for conservation of Natural Monuments”.

Being accepted this proposal at 15 April of 1925 the Museum established a list of steppe and forest parcels necessary for the organization of national parks in Bessarabia. In 19 March of 1926, the Ministry of Agriculture approved the proposals put forward and gave the order to execute that decision. Thus were made the first steps in the direction of natural protection in Bessarabia where has contributed also N. Zubowsky as a member of the Society of Naturalists and as a museum researcher. A diverse and successful activity realized by N. Zubowsky at the Museum throughout the years 1922-1934 was his directly participating to the achievement in transformation of Museum in a scientific institution, developed by professor N. Florov. One of the tasks for that program envisaged the transformation of the garden near the museum into a “Botanical garden of local flora”. Thus, between the years 1922-1929 under the leadership and directly participation of N. Zubowsky, took place staving works, were planted different species of trees and shrubs, herbaceous, steppe and forest plants with a view” in this garden must to find all plants characteristic for Bessarabian vegetation associations”. The plants were planted in different plots “according to the natural association.” The plan of the Botanical Garden was drafted by N. Zubowsky in 1929. This plan had the following plots: 1) steppe; 2) of transition towards to silvosteppe; 3) silvosteppe; 4) woods; 5) floodplain forests (floodable region); 6) plots with transition flora from the silvosteppe to the woods; 7) northern Bessarabian forests with beech, hornbeam and birch tree; 8) plots with hydrophilic flora and the last one with rocky flora. For successful activity in the educational field and science, N. Zubowsky was mentioned with “Saint Anne” and “Saint Stanislav” second and third class orders; the bronze medal dedicated to “300 years of the Romanov dynasty”; with Honorary Sign “Reward for 25 years of work in the service of the

State". Continuing his entomological researches, N. Zubowsky completed, annotates and systematises of insect's collection of the Museum, which was created at the end of nineteenth century – beginning of twentieth century by the F. Ostermann, P. Zabarânskii, I. Taranin and other members of the Bessarabian Society of Naturalists and amateurs of Natural History. In this activity are attracted entomologists like E. Miller, B. Miller, A. Alexinsky, A. Ruscinsky etc., with which he has collaborated for many years. E. Miller, N. Zubowsky and A. Ruscinski sign the results of these researches. These works were published in Romanian and German languages in 2, 3, 4 and 8 fascicle of 1929, 1932 and 1937 years in the Bulletin of the National Museum of Natural History of Chisinau entitled "Materials of the entomological fauna of Bessarabia". These articles are a continuation of publications from Proceedings of the Bessarabian Society of Naturalists and amateurs of Natural History in 1906-1915. In publications are described new species of entomofauna of Bessarabia, which were collected by the authors during the years 1922-1932. In these works are specified all localities and researchers who collected insects from Hotin county to Ismail county. They present even today a great interest for the researchers concerned with the study of entomofauna of Moldova, systematization and description of collections, which are managed by the Institute of Zoology of the ASM, the State Agrarian University of Moldova and the National Museum of Ethnography and Natural History.

Besides these achievements during his life, N. Zubowsky has created a private entomological collection, which includes more than 10,000 insects, more than 5,800 beetles and 3600 butterflies. This collection was elaborated during 1900-1940 years in Bessarabia and has a considerable scientific interest.

In 1943 N. Zubowsky has been died.

After a while, in 1945, his family proposed this collection to purchase to the Museum of land studies of Moldovan Soviet Socialist Republic. According the documents of purchase of 10 December of 1945 in the museum funds have entered:

1. Collection of butterflies from Bessarabia, studied and systematized by N. Zubowsky in 63 entomological boxes.

2. Collection of beetles from Bessarabia in 20 boxes, but definitely not studied.
3. Material entomological (beetles and butterflies) in eight cases, processed but unorganized.

Thanks to the efforts of Museum staff during more than one decades this collection has been preserved until our days, becoming the oldest entomological and valuable collection in the Republic of Moldova.

For these reasons, it became necessary to publish a catalogue of the collection. Elaborating the catalog of N. Zubowsky collection is a work carried out thanks to the collaboration of the National Museum of Ethnography and Natural History with the Department of Entomology and Apiculture of the Institute Zoology of the ASM. This is a major scientific work that will contribute to highlighting, promotion and appreciation of the collection at the national and internationally level.

Mihai URSU

Nicolai Zubowsky

fondatorul celei mai vechi colecții entomologice
din Basarabia

Printre personalitățile marcante, care au contribuit la crearea, cercetarea și valorificarea colecțiilor, ce au intrat în patrimoniul primului muzeu public din Basarabia, se înscrie și naturalistul Nicolae Zubowsky. În arhiva Națională a Republicii Moldova, în fondurile Muzeului Național de Istorie a Moldovei, Muzeului Național de Etnografie și Istorie Naturală și în diverse publicații din epoca modernă se întâlnesc mai multe lucrări științifice din domeniul entomologiei și diverse documente de epocă, care vorbesc despre viața și activitatea acestui pasionat cercetător și muzeograf.

N. Zubowsky s-a născut la 13 noiembrie 1867 în or. Moghiliov. După absolvirea liceului din localitate își continuă studiile la Universitatea din St.-Petersburg, la Facultatea de Fizică și Matematică, secția Științele Naturii, la specialitatea Chimie, apoi cea de Biologie. La 7 octombrie 1891 obține Diploma de gradul I cu nr. 9055. În același an este angajat în cadrul Muzeului Zoologic al Academiei de Științe din St.-Petersburg, unde desfășoară activitatea de cercetare. În anul 1896 publică primul articol: „Notițe privind depunerea oușoarelor de lăcustă și ortopterele”.

În 1898 N. Zubowsky se stabilește cu traiul în Basarabia. Este angajat ca asistent la Catedra de Chimie a Școlii Secundare de Viticultură din Chișinău, în anul 1904 fiind numit profesor titular de chimie, pedologie și fizică la aceeași instituție. Concomitent el a condus lucrările de analiză a vinului și a solului la aceeași școală, fiind preocupat și de activitatea științifică împreună cu naturaliștii A. Bernicov, M. Pautinski, N. Chissa, M. Corcevski și I. Popa, profesori la aceeași instituție.

În anul 1904 N. Zubowsky participă la crearea Societății Naturaliștilor și Amatorilor de Științe ale Naturii din Basarabia, fiind unul dintre cei 26 membri fondatori. Scopul acestei structuri a fost desfășurarea activității de cercetare a naturii ținutului și de popularizare a cunoștințelor științifico-naturale. Este ales membru al Consiliului de Conducere a Societății și

împreună cu baronul A. Stuart, N. Goronovici, E. Miller, F. Miller, M. Corcevschi, I. Popa se încadrează în activitatea de realizarea a sarcinilor puse în fața Societății. Fiind pasionat încă din anii de studenție de lumea insectelor, N. Zubowsky este preocupat de cercetările entomologice, organizează diverse lecții pentru publicul larg și tineretul studios. În acea perioadă este ales membru al Comisiei pentru cercetarea cauzelor uscării plantelor lemnoase din Basarabia. Rezultatele cercetărilor realizate împreună cu entomologul E. Miller sunt publicate în limba germană în anuarele Societății Naturaliștilor și Amatorilor de Științe ale Naturii din Basarabia (vol. I, fasc. 1, vol. I, fasc. 2, vol. I, fasc. 3, vol. II, fasc. 1, vol. II, fasc. 2, vol. IV și VI) cu genericul „Materiale despre fauna entomologică din Basarabia”. Unele din aceste articole au un caracter aplicativ și sunt consacrate luptei cu dăunătorii viilor și ai livezilor. Aceste cercetări au pus bazele entomologiei din Basarabia și au devenit cunoscute atât în Rusia, cât și în multe țări din Europa, fiind răspândite împreună cu anuarele Societății Naturaliștilor și Amatorilor de Științe ale Naturii din Basarabia.

O nouă direcție în activitatea lui N. Zubowsky în cadrul Societății Naturaliștilor devine problema ocrotirii naturii în Basarabia. El susține inițiativa dr. E. Miller, care la 30 octombrie 1912 a prezentat în cadrul ședinței anuale a Societății raportul „Despre ocrotirea monumentelor naturii”, în care formulează necesitatea protejării naturii, adresându-se celor prezenți la întrunire că „trebuie să vorbim cu durere nu despre natura materială, fermecătoare, ci numai despre rămășițele ei, despre monumentele ei, dar și acestea, dacă nu vor fi luate imediat măsuri energice, sunt amenințate să dispară repede și ireversibil”. În acest context E. Miller abordează problema ocrotirii naturii în Basarabia și se adresează cu chemarea de a organiza în cadrul Societății un Consiliu pentru protecția naturii. Această propunere a fost aprobată unanim de cei prezenți la adunare. În anul 1913 a fost creat Consiliul de Ocrotire a Naturii sub președinția dr. E. Miller, scopul căreia era promovarea și traducerea în viață a ideilor de ocrotire a naturii și crearea unor sectoare de protecție a ei în Basarabia. N. Zubowsky este ales secretar al Consiliului, el încadrându-se în această activitate, însă declanșarea Primului Război Mondial a zădărnicit realizarea acestor intenții.

La 1 martie 1919 N. Zubowsky se angajează ca profesor de chimie, merceologie și fizică la Liceul Comercial din Chișinău, calitate în care a

activat până în luna septembrie 1924. În același timp a ocupat și postul de chimist în Laboratorul Directoratului Agricol din Basarabia.

O nouă etapă în activitatea lui N. Zubowsky începe în anul 1922. Prin Ordinul Directoratului general al Instrucțiunii Publice nr. 15690 din 5 iulie 1922, el a fost numit în postul de chimist al Laboratorului Muzeului Național din Chișinău. Director al acestuia devenise profesorul dr. N. Florov, autorul unui program de dezvoltare a Muzeului ca „instituție de cercetare”, unde „toate ramurile științelor naturale trebuie să-și găsească locul”, iar activitatea de colectare a pieselor muzeale „să se bazeze pe o concepție științifică”. Programul a fost susținut de N. Zubowsky, el obligându-se în Jurământul depus la 12 noiembrie 1922 „de a împlini cu sfințenie datoriile ce-mi impune funcția mea de chimist al Muzeului Național”. În acest context în anul 1922 are loc o revenire la problemele ocrotirii naturii din Basarabia cu concursul Muzeului Național din Chișinău. Procesul a fost accelerat și de reforma agrară, care a avut loc în Basarabia, în rezultatul căreia majoritatea pământurilor au început să fie cultivate, punând astfel sub pericol dispariția sectoarelor de ”stepă virgină”. Același lucru se putea spune și despre pădure, care deși se găsea în condiții mai favorabile pentru conservare, suferea mult din cauza intervenției omului. Din aceste considerente se impunea necesitatea de a conserva aceste monumente ale naturii, deoarece pădurea și stepa „determină vegetația Basarabiei, solul și fizionomia ei agricolă și economică”. Reieșind din aceste împrejurări, Muzeul înaintează la început Direcției Generale a Reformei Agrare din Basarabia, iar apoi și Guvernului României, propunerea de separare a mai multor parcele de stepă și de pădure și organizarea „parcurilor naționale pentru conservarea monumentelor naturii”. Propunerile Muzeului au fost susținute și de Societatea Naturaliștilor din Chișinău, care a constituit un Comitet de conservare a monumentelor naturii. Acesta, la rândul său, a prezentat un raport privind chestiunea în cauză, semnat de președintele Comitetului E. Miller și secretarul N. Zubowsky. În raport se menționa ca reforma agrară „este foarte favorabilă pentru înfăptuirea unei mari întreprinderi culturale: crearea în țara noastră a unor parcele inviolabile, numite „Parcuri Naționale”, care vor avea ca scop conservarea monumentelor naturii și dacă acest proiect va fi realizat definitiv, atunci România va fi prima țară din Europa, care va aduce atât științei, cât și culturii omenirii un serviciu enorm”.

Propunerile Muzeului și Societății au fost susținute de structurile statului și s-au întreprins acțiuni concrete în această direcție. În demersul Muzeului din 6 aprilie 1925 către Ministerul Agriculturii s-a cerut să se pună la dispoziție o serie de loturi de stepă și de pădure spre a organiza în aceste parcele „Parcuri Naționale pentru conservarea Monumentelor Naturii”. Fiind acceptată această propunere, la 15 aprilie 1925 Muzeul a întocmit lista parcelor de stepă și de pădure, necesare pentru organizarea parcurilor naționale în Basarabia. La 19 martie 1926 Ministerul Agriculturii a aprobat propunerile înaintate și a dat ordin pentru executarea acestei decizii. Astfel au fost întreprinși primii pași în direcția ocrotirii naturii în Basarabia la care și-a adus aportul și N. Zubowsky, ca membru al Societății Naturaliștilor și ca cercetător al Muzeului.

O activitate rodnică și diversă a realizat N. Zubowsky în cadrul Muzeului pe parcursul anilor 1922-1934, participând nemijlocit la realizarea programului de transformare a acestuia într-o instituție științifică, elaborat de către profesorul N. Florov. Una dintre sarcinile respectivului program prevedea transformarea grădinii din preajma Muzeului într-o „Grădină Botanică a florei locale”. Astfel, între anii 1922-1929 sub conducerea și cu participarea nemijlocită a lui N. Zubowsky, s-au desfășurat lucrări de defrișare și desfundare, s-au sădit diferite specii de arbori și arbuști, plante ierboase de stepă și de pădure cu scopul „ca în această grădină să se găsească toate plantele caracteristice asociațiilor de vegetație basarabeană”. Plantele au fost sădite în diferite parcele „după asociațiunile naturale”. Planul Grădinii Botanice, elaborat de N. Zubowsky către anul 1929, avea următoarele parcele: 1) stepă; 2) de trecere spre silvostepă; 3) silvostepă; 4) pădure de codri; 5); 6) pădure de luncă (de regiune inundabilă); 7) trecere de la silvostepă spre pădure de codri; 8) pădure din nordul Basarabiei cu fag, carpen și mesteacăn; 9) flora hidrofilă; 10) flora de stâncă.

În sectorul de stepă a fost amenajată o stațiune meteorologică, deoarece începând cu anul 1924 în cadrul Muzeului se făceau cercetări în acest domeniu. Printre parcele au fost amenajate cărări, conturul cărora, cu mici modificări, s-a păstrat până în prezent. Pe lângă activitatea în cadrul Grădinii Botanice N. Zubowsky exercită funcția de șef al Laboratorului de chimie. Fiind responsabil de Biblioteca Muzeului, contribuie la întocmirea bibliografiei Basarabiei, a început completarea și reorganizarea bibliotecii. Dar nu uită de completarea colecțiilor. O parte din colecția pedologică a

fost recoltată împreună cu inginerul Gr. Vrabie, dar cel mai mult a fost pasionat de studierea insectelor.

Pentru activitate rodnică în domeniul învățămîntului și științei N. Zubowsky a fost menționat cu ordinele „Sf. Ana”, „Sf. Stanislav” cl. II și III, Medalia de bronz „300 de ani ai dinastiei Romanovilor” și cu Semnul Onorific „Răsplata muncii pentru 25 de ani în serviciul Statului”.

Continuând cercetările entomologice, N. Zubowsky completează, adnotează și sistematizează colecția de insecte a Muzeului, creată la sfârșitul sec. XIX – înc. sec. XX de F. Ostermann, P. Zabarânskii, I. Taranin și alți membri ai Societății Naturaliștilor și Amatorilor de Științe ale Naturii din Basarabia. În această activitate sunt atrași entomologii E. Miller, B. Miller, A. Alexinsky, A. Rușcinsky ș.a., cu care colaborează de mulți ani.

Rezultatele acestor cercetări sunt semnate de E. Miller, N. Zubowsky și A. Ruscinski și publicate în limbile română și germană în Buletinul Muzeului Național de Istorie Naturală din Chișinău, în fasciculele 2, 3, 4 și 8 din anii 1929, 1932 și 1937 cu titlul „Materiale pentru fauna entomologică din Basarabia”. Aceste articole sunt o continuare a publicațiilor din anuarele Societății Naturaliștilor și Amatorilor de Științe ale Naturii din anii 1906-1915. În publicațiile respective sunt descrise specii noi din entomofauna Basarabiei, care au fost colectate de autori în anii 1922-1932. În aceste lucrări se specifică toate localitățile și cercetătorii care au colectat insectele începând cu județul Hotin și până în județul Ismail. Ele prezintă și astăzi un interes deosebit pentru cercetătorii preocupați de studierea entomofaunei Republicii Moldova, de sistematizarea și descrierea colecțiilor care sunt în gestiunea Institutului de Zoologie al AȘM, a Universității Agrare de Stat din Moldova și Muzeului Național de Etnografie și Istorie Naturală.

În afară de aceste realizări pe parcursul vieții sale N. Zubowsky a creat o colecție entomologică privată, care numără peste 10000 de insecte, dintre care peste 5800 de gândaci și 3600 de fluturi. Această colecție a fost elaborată în anii 1900-1940 pe teritoriul Basarabiei și prezintă un interes științific considerabil.

În anul 1943 N. Zubowsky s-a stins din viață.

Peste un timp, în anul 1945, familia lui a propus această colecție spre achiziționare Muzeului de Studiere a Ținutului din RSSM. Conform actelor de achiziție din 10 decembrie 1945 în fondurile muzeului au intrat:

1. Colecția de fluturi din Basarabia, studiată și sistematizată de N. Zubowsky în 63 de cutii entomologice.
2. Colecția de gândaci din Basarabia în 20 de cutii, dar nestudiate definitiv.
3. Material entomologic (gândaci și fluturi) în 8 cutii, prelucrat, dar nesistematizat.

Grație eforturilor depuse de colaboratorii Muzeului pe parcursul mai multor decenii această colecție s-a păstrat până-n zilele noastre, devenind cea mai veche și valoroasă colecție entomologică din Republica Moldova. Din aceste considerente a devenit necesară publicarea catalogului colecției. Elaborarea catalogului colecției lui N. Zubowsky este o lucrare, realizată grație colaborării Muzeului Național de Etnografie și Istorie Naturală cu Laboratorul de Entomologie și Apicultură al Institutului de Zoologie al AȘM. Este o lucrare științifică de amploare, care va contribui la punerea în valoare, promovarea și aprecierea colecției atât în plan național, cât și internațional.

Mihai URSU

The collection starts with 10 boxes of Orthoptera (grasshoppers, locusts, si.a.), followed by Coleoptera (beetles) with 16 complete collection boxes and Lepidoptera (butterflies) deployed in 60 boxes. Total collection «N. Zubowsky» contains 86 boxes (numbering is the original) are held 10 752 specimens of insects. By order of taxonomic specimens stored number is allocated as follows: Orthoptera (sensu old) – 1293 specimens, Lepidoptera – 3609 and Coleoptera – 5850 specimens (see table).

This Catalog includes 1774 species from 107 families and 5 orders. For each species are listed: contemporary name [in brackets – the name in collection], box storage number, contemporary name of the village [in brackets – the old name or specification] and collection date information on the number of specimens.

Colecția începe cu 10 cutii de Orthoptera (cosașii, lăcustele, ș.a.), apoi urmează ordinul Coleoptera (gândacii) cu 16 cutii și finalizează colecția ordinul Lepidoptera (fluturii) dislocat în 60 cutii. În total colecția „N. Zubowsky” conține 86 cutii (numerotarea este cea inițială) în care sunt păstrate 10 752 exemplare de insecte. După ordine taxonomice numărul exemplarelor depozitate se repartizează în felul următor: Orthoptera (sensu vechi) – 1293 exemplare, Lepidoptera – 3609 și Coleoptera – 5850 exemplare (vezi tabelul).

Prezentul Catalog include 1774 specii din 107 familii și 5 ordine. Pentru fiecare specie sunt menționate: denumirea contemporană [în paranteze – denumirea în colecție], numărul cutiei de depozitare, denumirea contemporană a localității [în paranteze – denumirea veche sau precizare] și data colectării, informația cu privire la numărul de exemplare.

Dișcova, 8.07.1939, 8 specs.

***Stenobothrus stigmaticus* (Rambur 1838)** (box nr. 1)

[*Stenobothrus stigmaticus*], Bularda, 4.08.1927, 1 spec.; 28.07.1932,
1 spec.; 20.06, 2, 18.07.1939, 5 specs.; Cornești [Pereval], 31.07,
1.08.1938, 4 specs.; Dișcova, 20.07.1939, 3 specs.

***Stethophyma grossum* (Linnaeus 1758)** (box nr. 4)

[*Mecostethus grossus*], Bularda, years 1921, 1 spec.; years 1923,
1 spec.; years 1927, 1 spec.; 16, 17, 18, 19, 21, 22, 23.07, 15.08.1939,
14 specs.; Voinova, 14.08.1932, 1 spec.; Cornești [Pereval] ,
31.07.1938, 1 spec.

Catantopinae sp. (box nr. 5)

[Catantopinae sp.], Dănceni, 06.10.1924, 13 specs.; 25.05.1930,
1 spec.; Sergheevka [Ucraina], 27, 28.07.1927, 8 specs.; 20,
26.08.1930, 5 specs.; Lebediovka, Ucraina [Bad-Burnas], 08.1937,
3 specs.

Family Bradyporidae

***Ephippiger ephippiger* (Fiebig 1784)** (box nr. 8)

[*Ephippiger ephippiger*], Chișinău [Durlești], 24.09.1924, 2 specs.;
Sculeni, 27.10.1925, 1 spec.

Family Conocephalidae

***Conocephalus dorsalis* (Latreille 1804)** (box nr. 9)

[*Xiphidium dorsale*], Chișinău, 23.06, 11.07.1930, 8 specs.; 4.08.1939,
1 spec.; Bularda, 17, 19, 21, 23, 27, 30.07.1939, 20 specs.

***Conocephalus fuscus* (Fabricius 1793)** (box nr. 6)

[*Xiphidium fuscum*], Bender, 1-14.07.1923, 2 specs.; 8, 12.07.1924, 5 specs.; Chişinău [Durleşti], 31.08.1924, 1 spec.; Chişinău, 29.06, 13.07.1930, 3 specs.; 11.10.1938, 2 specs.; 4.08.1939, 1 spec.; Chişinău [Petricani], 25.09.1938, 1 spec.; Corneşti [Pereval], 21, 26, 31.07.1938, 3 specs.; Bularda, 6.07, 19, 27.08.1939, 3 specs.

***Ruspolia nitidula* (Scopoli 1786)** (box nr. 6)

[*Conocephalus nitidulus*], Bender, 8.07.1924, 2 specs.; Chişinău, 4.08.1939, 4 specs.

Family Gryllidae

***Acheta domesticus* (Linnaeus 1758)** (box nr. 10)

[*Gryllus domestica*], Chişinău, 7.06.1925, 1 spec.

***Gryllus campestris* Linnaeus 1758** (box nr. 10)

[*Gryllus campestris*], Corneşti [Pereval], 18-20.07.1933, 1 spec.; Bularda, 26.08.1933, 1 spec.

***Eumodicogryllus bordigalensis* (Latreille 1804)** (box nr. 10)

[*Gryllus bordigalensis*], Hruşova, 27.07.1930, 1 spec.; Chişinău, 22.08.1939, 1 spec.

***Melanogryllus desertus* (Pallas 1771)** (box nr. 10)

[*Gryllus desertus*], Chişinău, V.1910, 1 spec.; 3.06.1922, 4 specs.; Chişinău [Durleşti], 23.06.1933, 1 spec.; Bender, 23.05.1925, 1 spec.; Corneşti, 11.06.1937, 1 spec.

[*Gryllus frontalis*], Ialoveni, 20.07.1924, 1 spec.; Chişinău, 19.06.1930, 1 spec.; Chişinău [Durleşti], 23.06.1933, 1 spec.; Corneşti [Pereval], 1.08.1938, 1 spec.; Dănceni, 8.07.1939, 1 spec.

***Oecanthus pellucens* (Scopoli 1763)** (box nr. 10)

[*Oecanthus pellucens*], Chişinău, 31.08.1924, 1 spec.; Goian, 21.09.1924, 1 spec.; Bularda, 15.08.1939, 1 spec.; Cozmeşti [Romania], 21.07.1938, 4 specs.

Family Meconematidae

***Meconema thalassinum* (De Geer 1773)** (box nr. 6)

[*Meconema thalassinum*], Cojușna, 3.08.1927, 1 spec.; Bularda, 20.08.1928, 1 spec.; 26.07.1939, 1 spec.; Chișinău [Durlești], 6.07.1930, 2 specs.; 10.08.1931, 1 spec.; 26.10.1937, 4 specs.; Cornești, 18.07.1936, 1 spec.; Cornești [Pereval], 26.08.1938, 1 spec.

Family Myrmecophilidae

***Myrmecophilus acervorum* (Panzer 1799)** (box nr. 10)

[*Myrmecophila acervorum*], Bender, 06.1906, 1 spec.

Family Phaneropteridae

***Barbitistes yersini* Brunner von Wattenwyl 1878** (box nr. 6)

[*Barbitistes yersini*], Chișinău [Durlești], 1, 29.06.1930, 8 specs.; Cornești [Pereval], 21.07, 1.08.1938, 3 specs.

***Isophya modesta* (Frivaldszky 1867)** (box nr. 6)

[*Isophya modesta*], Chișinău, 8-30.06.1924, 3 specs.; Chișinău [Durlești], 1.06.1930, 1 spec.; Hîrbovăț, 13.06.1927, 7 specs.; Bularda, 15.08.1930, 1 spec.; 18-20.07.1933, 1 spec.; 26.07.1939, 1 spec.; Cornești [Pereval], 18.07.1933, 2 specs.; Cornești, 12, 14, 20.06.1937, 6 specs.

***Poecilimon affinis* (Frivaldszky 1867)** (box nr. 10)

[*Isophya affinis*], Cornești [Pereval], 28.08.1930, 1 spec.

***Poecilimon brunneri* (Frivaldszky 1867)** (box nr. 6)

[*Poecilimon brunneri*], Chișinău, 4.07.1924, 5 specs.; Goian, 4.07.1924, 4 specs.; Cornești [Pereval], 18-20.07.1937, 6 specs.

***Poecilimon fussii* Brunner von Wattenwyl 1878** (box nr. 6)

[*Poecilimon* sp.], Hîrbovăț, 13.06.1927, 3 specs.

***Poecilimon ornatus* (Schmidt 1849)** (box nr. 6)

[*Poecilimon ornatus*], Chișinău [Durlești], 1.06.1930, 1 spec.; Cornești, 12, 14.06.1937, 15 specs.; Bukovik [Macedonia], [no date], 4 specs.

***Poecilimon thoracicus* (Fieber 1853)** (box nr. 6)

[*Poecilimon thoracicus*], Chițcani, 23.07.1929, 1 spec.; 14.06.1937, 2 specs.; Macedonia, [no date], 4 specs.
[*Poecilimon brunneri*], Chișinău, 4.07.1924, 1 spec.

***Phaneroptera falcata* (Poda 1761)** (box nr. 6)

[*Phaneroptera falcata*], Chișinău [Durlești], 31.08.1924, 3 specs.; 10.09.1930, 1 spec.; 26.10.1937, 1 spec.; Chișinău, 2.10.1938, 1 spec.; Bularda, 16.08.1928, 1 spec.

Family Tetrigidae

***Tetrix bipunctata* (Linnaeus 1758)** (box nr. 5)

[*Acridium bipunctatum*], Onișcani, 19.09.1917, 1 spec.; Chișinău, 2.05, 18-15.06.1922, 2 specs.; 23.04-1.06.1923, 3 specs.; 7-20.06.1929, 1 spec.; Chișinău [Durlești], 29.09.1924, 1 spec.; 10.04.1927, 2 specs.; 23.06.1933, 1 spec.; 23.04.1939, 1 spec.; Bender, 12.07.1924, 2 specs.; 20.04, 21.05.1925, 2 specs.; Dănceni, 22.05.1932, 1 spec.; Bularda, 31.07.1932, 1 spec.

***Tetrix subulata* (Linnaeus 1758)** (box nr. 5)

[*Acridium subulatum* (*Tetrix*)], Onișcani, 19.09.1917, 3 specs.; Chișinău [Durlești], 12-25.03.1923, 1 spec.; 17.06.1929, 1 spec.; Chișinău, 2.05.1927, 1 spec.; Bender, 18-31.03.1924, 1 spec.; 12.07.1924, 1 spec.; 20.04, 24.05.1925, 3 specs.; 27.10.1929, 2 specs.

Family Tettigoniidae

***Decticus verrucivorus* (Linnaeus 1758)** (box nr. 8)

[*Decticus verrucivorus*], Bularda, 20.06.1927, 3 specs.

***Gampsocleis glabra* (Herbst 1786)** (box nr. 7)

[*Gampsocleis glabra*], Zloți, 18.09.1929, 1 spec.; Cricova, 6.08.1933, 1 spec.; Belgorod-Dnestrovsky, Ucraina [Akkerman], 30.07.1928, 1 spec.

***Onconotus laxmanni* (Pallas 1771)** (box nr. 8)

[*Onconotus laxmanni*], Goian, 4.07.1924, 1 spec.; Dănceni, 6.10.1924, 2 specs.; Lebediovka, Ucraina [Bad-Burnas], 11.08.1929, 1 spec.

***Pachytrachis gracilis* (Brunner von Wattenwyl 1861)** (box nr. 8)

[*Pachytrachelus gracilis*], Cornești, 27.07.1938, 1 spec.

***Pholidoptera fallax* (Fischer 1853)** (box nr. 7)

[*Pholidoptera fallax*], Macedonia, [no date], 1 spec.

***Pholidoptera griseoptera* (De Geer 1773)** (box nr. 7)

[*Pholidoptera cinerea*], Chișinău [Durlești], 1.06.1930, 1 spec.; 1.10.1932, 1 spec.; Ivancea, 20.07.1930, 1 spec.; Cornești [Pereval], 20.07, 15.08.1933, 3 specs.; Cornești, 14.07.1936, 1 spec.; Bularda, 28.07.1933, 2 specs.; 21, 22.07.1939, 7 specs.

***Platycleis affinis* Fieber 1853** (box nr. 7)

[*Platycleis affinis*], Chișinău, 25.07.1926, 1 spec.; Bularda, 16, 17, 19, 20, 22.07.1939, 8 specs.

***Platycleis albopunctata* (Goeze 1778)** (box nr. 7)

[*Platycleis grisea*], Dănceni, 10.07.1925, 5 specs.; 8.07.1939, 2 specs.; Chișinău, 25.07.1926, 2 specs.; 19.09.1933, 2 specs.; Chișinău [Durlești], 29.09.1929, 1 spec.; 06.10.1929, 2 specs.; Chișinău [Petricani], 10.09.1939, 2 specs.; Cornești, 6, 17, 21.07.1938, 3 specs.; Palanca, 2.07.1939, 1 spec.; Bularda, 24.07, 5.08, 29.09.1939, 3 specs.; Sergheevka [Ucraina], 28.07.1927, 1 spec.

***Platycleis intermedia* (Serville 1839)** (box nr. 7)

[*Platycleis intermedia*], Chișinău, 15.08.1926, 1 spec.; Bularda, 26.07.1927, 1 spec.; 19.07, 24.08.1939, 2 specs.; Jevreni, 10.08.1927, 1 spec.; Zloți, 18.09.1929, 2 specs.; Cornești, 6.08.1938, 1 spec.; Dănceni, 8.07.1939, 1 spec.

***Pterolepis germanica* (Herrich-Schäffer 1840)** (box nr. 7)

[*Rhacocleis germanica*], Dănceni, 6.10.1929, 4 specs.; 5.09.1937, 1 spec.; Chișinău [Durlești], 6.10.1929, 1 spec.; 4.10.1931, 1 spec.; Chișinău, 2.10.1938, 2 specs.; Hîrbovăț, 11.10.1929, 2 specs.

***Roeseliana roeselii* (Hagenbach 1822)** (box nr. 7)

[*Platycleis roeselii*], Bender, 1-17.06, 8, 9, 12.07.1924, 8 specs.; 20, 22.06.1927, 2 specs.; Chișinău, 3 23.06.1930, specs.; Cornești [Pereval], 25.07.1938, 1 spec.; Bularda, 3, 6, 16, 18, 19.07.1939, 8 specs.

***Tessellana tessellata* (Charpentier 1825)** (box nr. 8)

[*Metrioptera tessellata*], Chişinău, 16-24.06.1924, 1 spec.; 11.08.1937, 1 spec.; Ialoveni, 16.07.1924, 1 spec.

***Tettigonia caudata* (Charpentier 1845)** (box nr. 7)

[*Tettigonia caudata*], Corneşti [Pereval], 2.08.1935, 1 spec.; 22.07.1938, 1 spec.; Bularda, 17.07.1939, 2 specs.; 1 spec. – label absent.

***Tettigonia viridissima* (Linnaeus 1758)** (box nr. 7)

[*Tettigonia viridissima*], Chişinău [Durleşti], 24.09.1929, 1 spec.; Corneşti [Pereval], 2.08.1935, 1 spec.; Corneşti, 18.07.1938, 1 spec.; Bularda, 17.07.1939, 2 specs.

Tettigoniinae sp. (box nr. 8)

[Tettigoniinae sp.], Dănceni, 8.07.1919, 1 spec.; Chişinău, 12.06-4.07.1924, 19 specs.; 25.07.1926, 1 spec.; 11.07.1930, 1 spec.; 14, 19.09.1938, 4 specs.; Chişinău [Durleşti], 22.06.1924, 3 specs.; Goian, 4.07.1924, 2 specs.; Ialoveni, 20.07.1924, 4 specs.; Suruceni, 10.07.1925, 1 spec.; Zloţi, 18.09.1929, 2 specs.; Bularda, 6, 22, 26.08.1933, 3 specs.; 3, 4, 6, 17, 21, 22, 25.07.1939, 16 specs.; Corneşti [Pereval], 18-20.07.1933, 1 spec.; Dănceni, 5.09.1937, 1 spec.; Starokazacie [Ucraina], 4.08.1929, 1 spec.

Family Tridactylidae

***Xya verrucivorus* (Linnaeus 1758)** (box nr. 10)

[*Tridactylus variegatus*], Chişinău, 10.05.1938, 2 specs.; Belen'koe, Ucraina [Akembet], 27.07.1927, 1 spec.; Bolgrad [Ucraina], 18.08.1938, 1 spec.

Order COLEOPTERA

Family Agyrtidae

***Agyrtes castaneus* (Fabricius 1792)** (box nr. 4)

[*Agyrtes castaneus*], Chişinău, 9.04.1925, 1 spec.

Family Anobiidae

Ptinus raptor Sturm 1837 (box nr. 7)

[*Ptinus raptor*], Chişinău, 21.04-4.05.1923, 2 specs.

Ptinus fur (Linnaeus 1758) (box nr. 7)

[*Ptinus fur*], Chişinău, 27.4-9.06.1924, 1 spec.; 2.09.1926, 1 spec.; 21.05.1928, 1 spec.

Ptinus rufipes Olivier 1790 (box nr. 7)

[*Ptinus rufipes*], Chişinău, 20.05.1925, 1 spec.

Anobiidae sp. (box nr. 7)

[Anobiidae sp.], Chişinău, 11.05.1923, 2 specs.; 4, 27.04.1925, 2 specs.; 30.05.1931, 2 specs.;

Chişinău [Durleşti], 14.05.1939, 2 specs.; Bularda, 24.05.1927, 1 spec.; Bucovăţ, 6.06.1935, 2 specs.; Cricova, 26.04.1936, 6 specs.; Corneşti, 12, 18.07.1936, 4 specs.; Lozova, 14.07.1938, 6 specs.

Family Anthicidae

Anthelephila pedestris (Rossi 1790) (box nr. 9)

[*Formicomus pedestris*], Chişinău, 18.04.1922, 1 spec.; 30.04-15.05.1923, 3 specs.;

20.05.1926, 1 spec.; 10, 20.06.1928, 2 specs.; Bender, 31.03.1924, 1 spec.

Anthicus antherinus (Linnaeus 1761) (box nr. 9)

[*Anthicus antherinus*], Onişcani, 23.09.1907, 1 spec.; 17.09.1917, 1 spec.; Răciula, 7.06.1908, 1 spec.

Anthicus sp. (box nr. 9)

[*Anthicus* sp.], Chişinău, 21.05.1928, 1 spec.; 16.06.1933, 1 spec.

Cyclodinus minutus (La Ferte-Senectere 1842) (box nr. 9)

[*Anthicus minutus*], Butovca [Ucraina], 1.08.1929, 1 spec.

Hirticomus hispidus (Rossi 1792) (box nr. 9)

[*Anthicus hispidus*], Chişinău, 25.05.1923, 1 spec.; 12.05.1929, 1 spec.; 12.07.1930, 1 spec.

***Notoxus trifasciatus* Rossi 1792** (box nr. 9)

[*Notoxus cornutus*], Chişinău, 10.08.1927, 1 spec.

***Notoxus monoceros* (Linnaeus 1760)** (box nr. 9)

[*Notoxus monoceros*], Corneşti, 17.07.1936, 1 spec.

***Omonadus floralis* (Linnaeus 1758)** (box nr. 9)

[*Anthicus floralis*], Chişinău [Durleşti], 4.05.1924, 1 spec.; Chişinău, 10.05.1926, 1 spec.

Family Anthribidae

***Anthribus nebulosus* Forster 1770** (box nr. 14)

[*Athribus nebulosus*], Chişinău, 17.05.1924, 2 specs.

***Anthribus scapularis* (Gebler 1833)** (box nr. 14)

[*Brachytarsus scapularis*], Chişinău [Durleşti], 10.06.1925, 1 spec.

***Bruchela suturalis* (Fabricius 1792)** (box nr. 14)

[*Urodon suturalis*], Dănceni, 21.05- 3.06.1922, 1 spec.; 10.06.1929, 1 spec.; Hruşova, 12, 26.06.1928, 2 specs.; Chişinău, 16.06.1933, 5 specs.; 7.07.1938, 1 spec.; Corneşti [Pereval], 24.07.1933, 1 spec.

***Tropideres albirostris* (Schaller 1783)** (box nr. 14)

[*Tropideres albirostris*], Chişinău, 8.05.1908, 2 specs.; 22.04.1930, 3 specs.

Family Aphodiidae

***Acrossus depressus* (Kugelann 1792)** (box nr. 5)

[*Aphodius depressus*], Chişinău, 4.05-21.06.1924, 2 specs.; Chişinău [Durleşti], 4.05.1924, 4 specs.; Hruşova, 8.05.1928, 1 spec.; Dănceni, 26.04.1930, 1 spec.

[*Aphodius depressus* ab. *atramentarius*], Bender, 15.04.1908, 1 spec.; Hînceşti, 26.03- 11.04.1923, 1 spec.; Chişinău, 29.03-20.04.1924, 2 specs.

- Acrossus luridus* (Fabricius 1775)** (box nr. 5)
[*Aphodius luridus*], Hîncești, 29.03-11.04.1923, 7 specs.; Chișinău, 1.05.1925, 1 spec.; Bender, 6.05.1927, 1 spec.; Dănceni, 20.04.1928, 1 spec.
- Acrossus rufipes* (Linnaeus 1758)** (box nr. 5)
[*Aphodius rufipes*], Bender, 13.08.1927, 7 specs.; Chișinău, 20.03.1936, 2 specs.
- Agrilinus ater* (De Geer 1774)** (box nr. 5)
[*Aphodius obscurus*], Bender, 7.05.1927, 1 spec.
- Agrilinus constans* (Duftschmid 1805)** (box nr. 5)
[*Aphodius constans*], Bularda, 21.04.1929, 3 specs.
- Agrilinus rufus* (Moll 1782)** (box nr. 5)
[*Aphodius rufus*], Chișinău [Durlești], 29.09.1919, 1 spec.; Chișinău, 5.09.1926, 1 spec.; Bender, 13.05.1927, 1 spec.; 13.09.1931, 1 spec.; Dănceni, 6.10.1929, 1 spec.
- Alocoderus hydrochaeris* (Fabricius 1798)** (box nr. 5)
[*Aphodius hydrochaeris*], Chișinău, 8.10.1926, 3 specs.; 30.10.1927, 1 spec.; 26.08.1929, 1 spec.; Hîncești, 16.10.1926, 1 spec.; Chișinău [Durlești], 27.10.1928, 1 spec.; Căinari, 10.09.1929, 1 spec.
- Ammoecius brevis* Erichson 1848** (box nr. 5)
[*Aphodius brevis*], Bularda, 8.05.1928, 1 spec.
- Aphodius coniugatus* (Panzer 1795)** (box nr. 5)
[*Aphodius conjugens*], Chișinău [Durlești], 30.10.1924, 7 specs.
- Aphodius fimetarius* (Linnaeus 1758)** (box nr. 5)
[*Aphodius fimetarius*], Chișinău [Durlești], 28.03-10.04.1923, 3 specs.; 30.10.1924, 3 specs.
- Aphodius foetens* (Fabricius 1787)** (box nr. 5)
[*Aphodius foetens*], Dănceni, 22.06.1928, 1 spec.

***Biralus satellitius* (Herbst 1789)** (box nr. 5)

[*Aphodius satellitus*], Chişinău, 20.04-5.05.1924, 2 specs.; Chişinău [Durleşti], 16.05.1929, 2 specs.

***Bodilus ictericus* (Laicharting 1781)** (box nr. 5)

[*Aphodius nitidulus*], Chişinău, 5.09, 8.10.1926, 3 specs.; 5.08.1928, 1 spec.; 9.05.1930, 1 spec.; Chişinău [Durleşti], 24.10.1928, 1 spec.; 16.06.1929, 1 spec.; Dănceni, 14.06.1929, 1 spec.; Clişcouţi [Ucraina], 30.04.1928, 1 spec.; Dist. Chilia, Ucraina [Cara-Mahmed], 6.07.1929, 1 spec.

***Bodilus lugens* (Creutzer 1799)** (box nr. 5)

[*Aphodius lugens*], Chişinău, 1.04.1924, 1 spec.; 14.10.1926, 1 spec.; 5, 26.08.1928, 3 specs.; Bularda, 24.07.1928, 2 specs.; Hruşova, 16.05.1929, 1 spec.; Chişinău [Durleşti], 16.06.1929, 1 spec.; Corneşti [Pereval], 19.07.1933, 1 spec.; Bucovăţ, 6.06.1935, 3 specs., Dist. Chilia, Ucraina [Cara-Mahmed], 3.08.1927, 1 spec.; 14.04, 6, 25.07.1929, 4 specs.; 19.07.1931, 1 spec.

***Bodilus punctipennis* (Erichson 1848)** (box nr. 5)

[*Aphodius punctipennis*], Chişinău, 2.08.1927, 4 specs.; Dist. Chilia, Ucraina [Cara-Mahmed], 8, 16.07.1929, 2 specs.; Butovca [Ucraina], 31.07.1929, 2 specs.

***Calamosternus granarius* (Linnaeus 1767)** (box nr. 6)

[*Aphodius granarius*], Chişinău, 2.04.1900, 1 spec.; 15.03.1906, 1 spec.; 6-14.04.1923, 1 spec.; 1.05.1926, 1 spec.; 25.04.1929, 6 specs.; Chişinău [Durleşti], 20.04.1924, 4 specs.; 10.04.1927, 1 spec.; 6.05.1928, 1 spec.; 4.05.1929, 1 spec.; 16.06.1933, 1 spec.; Hînceşti, 13.04.1923, 2 specs.; Bender, 7.05.1927, 1 spec.; Hruşova, 16.05.1929, 1 spec.

***Chilo thorax distinctus* (Müller 1776)** (box nr. 5)

[*Aphodius melanostictus*], Chişinău, 29.05.1904, 1 spec.; 24.03.1924, 4 specs.; 8.10.1926, 3 specs.; Chişinău [Durleşti], 20.04.1908, 1 spec.; 12-29.03.1923, 2 specs.; 14.04, 27.10.1928, 2 specs.

[*Aphodius distinctus* (= *inquinatus*)], Chişinău, 7.04, 11.11.1925, 3 specs.; 11.10.1926, 5 specs.

***Colobopterus erraticus* (Linnaeus 1758)** (box nr. 5)

[*Aphodius erraticus*], Chişinău [Durleşti], 20.04.1908, 1 spec.; Răciula, 15.06.1910, 1 spec.; Chişinău, 20.04-5.06, 14.10.1924, 3 specs.; 17.06.1928, 1 spec.; Bender, 6.05.1927, 1 spec.

***Esymus merdarius* (Fabricius 1775)** (box nr. 5)

[*Aphodius merdarius*], Chişinău [Durleşti], 1.04.1923, 1 spec.; Chişinău, 29.03-11.04.1924, 7 specs.; 4.04.1929, 4 specs.; Hînceşti, 29.04-11.05.1923, 1 spec.

***Eudolus quadriguttatus* (Herbst 1783)** (box nr. 5)

[*Aphodius 4-guttatus*], Chişinău, 7, 9.04.1925, 12 ex; Chişinău [Durleşti], 6.05.1925, 1 spec.

***Euheptaulacus sus* (Herbst 1783)** (box nr. 5)

[*Heptaulacus sus*], Chişinău, 2.08.1927, 3 specs.; Belen'koe, Ucraina [Achembet], 28.07.1927, 2 specs.; Lebediovka, Ucraina [Bad-Burnas], 3.08.1929, 6 specs.

***Eupleurus subterraneus* (Linnaeus 1758)** (box nr. 5)

[*Aphodius subterraneus*], Hînceşti, 31.03-13.04.1923, 1 spec.; 3.05, 5.06.1925, 2 specs.; 27.05.1927, 1 spec.; 26.04.1931, 1 spec.; Dist. Chilia, Ucraina [Cara-Mahmed], 15.07.1928, 1 spec.

***Heptaulacus testudinarius* (Fabricius 1775)** (box nr. 5)

[*Heptaulacus testudinarius*], Chişinău, 25.04.1929, 1 spec.; Bender, 10.05.1930, 1 spec.

***Labarrus lividus* (Olivier 1789)** (box nr. 5)

[*Aphodius lividus*], Chişinău, 14-27.05.1925, 2 specs.; 29.05, 17.06.1930, 8 specs.

***Melinopterus prodromus* (Brahm 1790)** (box nr. 5)

[*Aphodius prodromus*], Chişinău, 3.02, 21.03.1904, 2 specs.; 29.03-11.04.1924, 5 specs.; 20.10.1929, 3 specs.; Hînceşti, 10-23.03.1923, 1 spec.; Chişinău [Durleşti], 12-25.03.1923, 1 spec.; Bender, 18-31.03.1923, 3 specs.; 18-31.03.1924, 1 spec.; Bularda, 21.04.1929, 1 spec.

***Melinopterus punctatosulcatus* (Sturm 1805)** (box nr. 5)

[*Aphodius punctatosulca*], Hîncești, 10.03-11.04.1923, 2 specs.; Bender, 18-31.03.1924, 1 spec.; Chișinău, 29.03-11.04.1924, 2 specs.; 10.10.1926, 1 spec.; 28.10.1929, 2 specs.; Chișinău [Durlești], 27.10.1928, 1 spec.

***Nialus varians* (Duftschmid 1805)** (box nr. 5)

[*Aphodius varians*], Chișinău, 7.04-27.05.1923, 3 specs.; 20.05.1926, 1 spec.; 12.05.1929, 2 specs.; Chișinău [Durlești], 6.05.1928, 1 spec. [*Aphodius varians* ab. *ambiguus*], Chișinău, 8.05.1908, 1 spec.; 10-23.04.1923, 1 spec.; 20.04-3.05.1924, 3 specs.; Chișinău [Durlești], 6.05.1928, 1 spec.

***Nimbus affinis* (Panzer 1823)** (box nr. 5)

[*Aphodius affinis*], Chișinău, 5.09.1926, 1 spec.; Bender, 13.08.1927, 1 spec.; 13.09.1931, 1 spec.; Chișinău [Durlești], 29.09.1929, 1 spec.; Dănceni, 6.10.1929, 1 spec.

***Nobius serotinus* (Panzer 1799)** (box nr. 5)

[*Aphodius serotinus*], Chișinău, 11.11.1925, 5 specs.; Chișinău [Durlești], 27.10.1928, 6 specs.; 29.09.1929, 9 specs.

***Otophorus haemorrhoidalis* (Linnaeus 1758)** (box nr. 6)

[*Aphodius haemorrhoidalis*], Lozova, 29.05.1927, 1 spec.; Bender, 13.08.1927, 2 specs.

***Oxyomus sylvestris* (Scopoli 1763)** (box nr. 5)

[*Oxyomus sylvestris*], Chișinău [Durlești], 1-14.04.1923, 1 spec.; Chișinău, 10-23.04.1923, 1 spec.; Bender, 18-31.03.1924, 1 spec.

***Parammoecius corvinus* (Erichson 1848)** (box nr. 5)

[*Aphodius corvinus*], Chișinău [Durlești], 9.05.1929, 1 spec.

***Phalacrothous biguttatus* (Germar 1824)** (box nr. 5)

[*Aphodius biguttatus*], Chișinău, 22.04.1924, 1 spec.

***Platytomus tibialis* (Fabricius 1798)** (box nr. 5)

[*Pleurophorus sabulosus*], Chișinău, 10.04-2.05.1923, 2 specs.; 3-16.05.1924, 2 specs.; 14-27.05.1925, 5 specs.

***Pubinus tomentosus* (Müller 1776)** (box nr. 5)

[*Aphodius tomentosus*], Chişinău, 14-27.04.1927, 1 spec.

***Pubinus* sp.** (box nr. 5)

[*Aphodius* sp.], Chişinău, 20.05.1902, 1 spec.; 7.03, 24.04.1906, 2 specs.; 14.08.1928, 1 spec.; 20.10.1929, 3 specs.; 29.05.1930, 14 specs.; Chişinău [Durleşti], 28.03-10.04.1923, 1 spec.; Bularda, 14.05.1929, 1 spec.

***Rhyssemus germanus* (Linnaeus 1767)** (box nr. 5)

[*Rhyssemus asper*], Chişinău [Durleşti], 4.05.1924, 2 specs.

***Sigorus porcus* (Fabricius 1792)** (box nr. 5)

[*Aphodius porcus*], Chişinău [Durleşti], 27.10.1928, 1 spec.

***Teuchestes fossor* (Linnaeus 1758)** (box nr. 5)

[*Aphodius fossor*], Chişinău [Durleşti], 4.05.1924, 2 specs.; 26.04.1930, 1 spec.

***Trichonotulus scrofa* (Fabricius 1787)** (box nr. 5)

[*Aphodius scrofa*], Bender, 7.05.1927, 1 spec.

***Volinus sticticus* (Panzer 1798)** (box nr. 5)

[*Aphodius stictus*], Hînceşti, 13.05.1923, 1 spec.; Chişinău [Durleşti], 31.05.1927, 8 specs.; 7.05.1933, 5 specs.

***Aphodiinae* sp.** (box nr. 5)

[*Aphodiinae* sp.], Chişinău, 1.06.1926, 1 spec.; 29.05.1930, 1 spec.; 16.06.1933, 7 specs.; 10.05.1938, 1 spec.

Family Apionidae

***Apion frumentarium* (Linnaeus 1758)** (box nr. 16)

[*Apion miniatum*], Chişinău, 25.04-13.05.1923, 7 specs.; Bender, 10.05.1930, 1 spec.

***Aspidapion radiolus* (Marsham 1802)** (box nr. 16)

[*Apion radiolus*], Onişcani, 23.09.1917, 2 specs.; Chişinău, 29.07.1928, 1 spec.; Chişinău [Durleşti], 29.09.1929, 1 spec.; Bender, 10.05.1930, 1 spec.

***Ceratapion onopordi* (Kirby 1808)** (box nr. 16)

[*Apion onopordi*], Chişinău, 19.04.1910, 1 spec.; 21.04-4.06.1923, 1 spec.

***Eutrichapion viciae* (Paykull 1800)** (box nr. 16)

[*Apion viciae*], Chişinău, 14.05.1908, 1 spec.; 19.04-2.05.1923, 1 spec.

***Rhopalapion longirostre* (Olivier 1807)** (box nr. 16)

[*Apion longirostre*], Chişinău, 25.05.1910, 1 spec.; 5.07.1928, 1 spec.; 10.06.1929, 6 specs.

Family Attelabidae

***Apoderus coryli* (Linnaeus 1758)** (box nr. 14)

[*Apoderus coryli*], Chişinău, 23.04-06.05.1923, 1 spec.; Chişinău [Durleşti], 3.05.1936, 1 spec.; Corneşti [Pereval], 24, 26.07.1933, 2 specs.; Corneşti, 22.06.1937, 1 spec.

***Attelabus nitens* (Scopoli 1763)** (box nr. 14)

[*Attelabus nitens*], Răciula, 5.06.1908, 1 spec.; Chişinău [Durleşti], 14.04.1922, 1 spec.; 24, 25.05.1924, 2 specs.; 24.05-28.06.1928, 2 specs.; Dănceni, 14.06.1928, 1 spec.

***Attelabidae* sp.** (box nr. 14)

[*Attelabidae* sp.], Chişinău [Durleşti], 9.05.1924, 2 specs.

Family Bostrichidae

***Bostrychus capucinus* (Linnaeus 1758)** (box nr. 7)

[*Bostrychus capucinus*], Chişinău, 21-30.05, 3.06.1922, 4 specs.; 30.04-13.05.1923, 1 spec.; 21.05.1928, 1 spec.

***Lichenophanes varius* (Illiger 1801)** (box nr. 7)

[*Lichenophanes varius*], Bender, 30.06.1902, 1 spec.; Chişinău, 25.06.1927, 1 spec.; Corneşti, 11.06.1937, 1 spec.

***Psoa viennensis* Herbst 1797** (box nr. 7)

[*Psoa viennensis*], Chişinău, 20.05.1926, 1 spec.; Bularda, 6.05.1930, 4 specs.

***Sinoxylon perforans* (Schrank 1798)** (box nr. 7)

[*Sinoxylon perforans*], Chişinău, 29.09.1902, 1 spec.; 7-20.04.1924, 1 spec.

Family Brachyceridae

***Brachycerus foveicollis* Gyllenhal 1833** (box nr. 14)

[*Brachycerus foveicollis*], Chişinău [Durleşti], 12.04.1909, 1 spec.; 16.07.1920, 3 specs.; 9.05, 17.06.1929, 4 specs.

***Brachycerus junix* Lichtenstein 1796** (box nr. 14)

[*Brachycerus junix*], Bender, 28.05.1925, 1 spec.; 15.04.1928, 1 spec.; Dănceni, 11.05.1929, 1 spec.

Family Buprestidae

***Acmaeoderella flavofasciata* (Piller & Mitterpacher 1783)** (box nr. 8)

[*Ptosima flavofasciata*], Răciula, 3.07.1909, 1 spec.; Chişinău, 4-17.06.1923, 1 spec.; 1-18.06, 1.07.1924, 3 specs.; 19.06.1925, 3 specs.; 15.06.1926, 1 spec.; 16.06, 24.07.1928, 3 specs.; Zloţi, 25.06.1927, 2 specs.; Corneşti [Pereval], 22.07.1938, 1 spec.; Corneşti, 25.07.1938, 1 spec.

***Agrilus angustulus* (Illiger 1803)** (box nr. 8)

[*Agrilus angustulus*], Chişinău, 3.04-21.05.1922, 1 spec.; 25.05.1924, 1 spec.; Goian, 11-24.06.1923, 1 spec.; Chişinău [Durleşti], 2-19.05.1923, 1 spec.; Dănceni, 30.05.1924, 1 spec.; 24.06.1928, 5 specs.; Corneşti [Pereval], 23.07.1933, 3 specs.

***Agrilus ater* (Linnaeus 1767)** (box nr. 8)

[*Agrilus 6-guttatus*], Bender, 7.06.1926, 1 spec.; Chişinău, 20.06.1929, 1 spec.; 25.06.1930, 1 spec.

***Agrilus aurilaterus* Waterhouse 1889** (box nr. 8)

[*Agrilus aurilaterus*], Chişinău, 6.06.1926, 1 spec.

***Agrilus biguttatus* (Fabricius 1776)** (box nr. 8)

[*Agrilus biguttatus*], Goian, 21.05.1922, 2 specs.; Chişinău, 1.06.1924, 1 spec.; Dănceni, 28.06.1928, 1 spec.; Corneşti [Pereval], 24.07.1933, 1 spec.

***Agrilus cinctus* (Olivier 1790)** (box nr. 8)

[*Agrilus cinctus*], Chişinău, 15.06.1924, 1 spec.; Chişinău [Durleşti], 12.07.1931, 1 spec.; Dănceni, 4, 24, 28.06.1928, 5 specs.

***Agrilus hyperici* (Creutzer 1799)** (box nr. 8)

[*Agrilus hyperici*], Bender, 7.06.1926, 1 spec.

***Agrilus olivicolor* Kiesenwetter 1857** (box nr. 8)

[*Agrilus olivicolor*], Zloţi, 29.06.1927, 1 spec.

***Agrilus pratensis* Ratzeburg 1837** (box nr. 8)

[*Agrilus pratensis*], Zloţi, 29.06.1927, 3 specs.; Bender, 02.06.1926, 1 spec.; 10.05.1930, 1 spec.

***Agrilus sulcicollis* Boisduval & Lacordaire 1835** (box nr. 8)

[*Agrilus elongatus*], Dănceni, 28.06.1928, 1 spec.

***Agrilus viridis* Linnaeus 1758** (box nr. 8)

[*Agrilus viridis*], Răciula, 14.06.1901, 1 spec.; 7.06.1908, 1 spec.; Chişinău, 8, 29.06.1924, 2 specs.; 22.05.1925, 1 spec.; 01.08.1926, 1 spec.; 17.06.1928, 1 spec.; Chişinău [Durleşti], 24.05.1928, 1 spec.; Bender, 24.05.1925, 1 spec.

Agrilus sp. (box nr. 8)

[*Agrilus sp.*], Chişinău, 28.05-10.06.1923, 1 spec.; 15.06.1924, 1 spec.; 29.05.1936, 1 spec.; Chişinău [Durleşti], 24.05.1928, 1 spec.; 28.06.1930, 1 spec.; Bender, 5.06.1931, 6 specs.; Corneşti [Pereval], 24.07.1933, 1 spec.; Corneşti, 8, 11.06.1937, 53 specs.

***Anthaxia cichorii* (Olivier 1790)** (box nr. 8)

[*Anthaxia cichorii*], Chişinău, 18.07.1913, 1 spec.; 4, 25.06.1924, 3 specs.; 29.08.1926, 1 spec.; Bender, 1-14.06.1924, 1 spec.; 7.06.1926, 1 spec.

***Anthaxia deaurata* (Gmelin 1790)** (box nr. 8)

[*Cratomerus aurulentus*], Bender, 14.05.1924, 1 spec.; Chişinău, 9.05.1936, 2 specs.

***Anthaxia fulgurans* (Schrank 1789)** (box nr. 8)

[*Anthaxia fulgurans*], Răciula, 7.06.1908, 2 specs.; Chişinău, 15.06.1910, 2 specs.

***Anthaxia hungarica* (Scopoli 1772)** (box nr. 8)

[*Cratomerus hungaricus*], Răciula, 19.05.1911, 1 spec.; Chişinău, 22.05, 10.06.1926, 2 specs.; Chişinău [Durleşti], 24.05.1928, 1 spec.; Dănceni, 4.06.1928, 3 specs.; 15.05.1938, 1 spec.

***Anthaxia manca* (Linnaeus 1767)** (box nr. 8)

[*Cratomerus mancus*], Chişinău, 20.04.1910, 2 specs.; 11.05.1922, 1 spec.; 23.04-6.05.1923, 1 spec.; 1.05.1925, 2 specs.; Chişinău [Durleşti], 14.05.1922, 1 spec.; 25.05.1924, 1 spec.; Corneşti [Pereval], 24.07.1933, 2 specs.; Bularda, 2.05.1938, 1 spec.

***Anthaxia morio* (Fabricius 1792)** (box nr. 8)

[*Anthaxia morio*], Chişinău, 2.04.1910, 4 specs.; 27.04.1929, 1 spec.

***Anthaxia nitidula* (Linnaeus 1758)** (box nr. 8)

[*Anthaxia nitidula*], Bender, 1.05.1909, 1 spec.; Răciula, 15.06.1910, 1 spec.; Chişinău, 5.06.1922, 1 spec.; 30.04-15.05.1923, 2 specs.; 16.05.1924, 1 spec.; 17, 29.04.1925, 2 specs.; 13.05.1930, 3 specs.; Bender, 7.06.1926, 1 spec.

***Anthaxia quadripunctata* (Linnaeus 1758)** (box nr. 8)

[*Anthaxia 4-punctata*], Dănceni, 25.05.1930, 1 spec.

***Anthaxia salicis* (Fabricius 1776)** (box nr. 8)

[*Anthaxia salicis*], Bender, 6.05.1927, 1 spec.

***Capnodis tenebrionis* (Linnaeus 1758)** (box nr. 8)

[*Capnodis tenebrionis*], Chişinău, 25.04.1904, 1 spec.; 12.08.1906, 1 spec.; Bender, 19.06.1904, 1 spec.; Izvoare, 30.06.1924, 1 spec.

***Chrysobothris affinis* (Fabricius 1794)** (box nr. 8)

[*Chrysobothris affinis*], Chişinău, 29.06.1931, 1 spec.

***Coraebus elatus* (Fabricius 1787)** (box nr. 8)

[*Coraebus elatus*], Bender, 23.06.1914, 1 spec.; 29.05.1928, 1 spec.;
Chişinău, 12.07.1924, 1 spec.

[*Coraebus lampsanae*], Răciula, 14.06.1910, 1 spec.

***Coraebus rubi* (Linnaeus 1767)** (box nr. 8)

[*Coraebus rubi*], Bender, 23.06.1914, 1 spec.; 12.07.1924, 1 spec.;
Hruşova, 29.05.1928, 1 spec.

***Cylindromorphus filum* (Gyllenhal 1817)** (box nr. 8)

[*Cylindromorphus filum*], Goian, 20.06-3.07.1924, 1 spec.

***Dicerca aenea* (Linnaeus 1766)** (box nr. 8)

[*Dicerca aenea*], Bender, 7.06.1926, 4 specs.

***Dicerca alni* (Fischer 1824)** (box nr. 8)

[*Dicerca alni*], Chişinău, 2.06.1924, 1 spec.; Dănceni, 24.06.1928,
1 spec.; 22.05.1932, 3 specs.

***Dicerca berolinensis* (Herbst 1779)** (box nr. 8)

[*Dicerca berolinensis*], Suruceni, 28.05.1923, 1 spec.; Chişinău
[Durleşti], 26.05.1925, 1 spec.

***Meliboeus graminis* (Panzer 1799)** (box nr. 8)

[*Meliboeus graminis*], Răciula, 6.06.1908, 1 spec.; Chişinău, 10.05,
24.06.1924, 3 specs.; 5, 24.07.1928, 2 specs.; Bender, 9.06.1920,
1 spec.; 7.06.1926, 2 specs.; Izvoare, 15.06.1926, 1 spec.

***Ovalisia rutilans* (Fabricius 1777)** (box nr. 8)

[*Lampra rutilans*], Bender, 1-14.07.1923, 1 spec.; Chişinău [Durleşti],
12.07.1931, 1 spec.

***Perotis lugubris* (Fabricius 1777)** (box nr. 8)

[*Perotis lugubris*], Răciula, 15.06.1910, 2 specs.; Chişinău, 20.06.1924,
1 spec.; Dănceni, 9.06.1925, 1 spec.; 14.06.1929, 1 spec.

***Ptosima undecimmaculata* (Herbst 1784)** (box nr. 8)

[*Ptosima 11-maculata*], Chişinău, 24.06.1912, 1 spec.; 2.05.1914, 1 spec.; 13.05.1923, 4 specs.; 20.05.1925, 1 spec.; 22.05.1926, 3 specs.; 17.07.1927, 1 spec.; Bender, 24.05.1925, 1 spec.; Chişinău [Durleşti], 16.06.1925, 1 spec.

***Trachypteris picta decostigma* (Fabricius 1787)** (box nr. 8)

[*Melanophila decastigma*], Bender, 7.06.1924, 4 specs.; 10.05.1930, 2 specs.

***Trachys minutus* (Linnaeus 1758)** (box nr. 8)

[*Trachys minuta*], Chişinău [Durleşti], 14.05.1922, 3 specs.; 25.05.1924, 2 specs.; Bender, 6.05.1925, 1 spec.; Dănceni, 24.06.1928, 1 spec.; Corneşti [Pereval], 24.07.1933, 1 spec.; Corneşti, 16.06.1937, 1 spec.

Buprestidae sp. (box nr. 8)

[Buprestidae sp.], Dănceni, 10.06.1924, 1 spec.; 25.05.1930, 1 spec.

Family Byrrhidae

***Byrrhus* sp.** (box nr. 7)

[*Byrrhus* sp.], Cricova, 10.04.1938, 1 spec.

***Lamprobyrrhulus nitidus* (Schaller 1783)** (box nr. 7)

[*Lamprobyrrhulus nitidus*], Chişinău, 20.04-3.06.1924, 1 spec.

Family Cantharidae

***Cantharis lateralis* Linnaeus 1758** (box nr. 7)

[*Cantharis lateralis*], Bender, 24.06.1925, 2 specs.; 6.05, 7.06.1926, 2 specs.; 9.05.1927, 1 spec.; Chişinău, 22.05.1929, 1 spec.; Corneşti [Pereval], 2.08.1939, 1 spec.

***Cantharis livida* Linnaeus 1758** (box nr. 7)

[*Cantharis livida* ab. *dispar*], Bender, 24.05.1925, 4 specs.; 7.06.1926, 4 specs.; Chişinău, 8.06.1931, 1 spec.

***Cantharis obscura* Linnaeus 1758** (box nr. 7)

[*Cantharis obscura*], Chişinău, 8-23.05.1922, 1 spec.; 23.04-13.05.1923, 2 specs.; 20.04-3.06.1924, 3 specs.; 1.05.1925, 3 specs.; 6, 16.05.1928, 2 specs.

***Cantharis pulicaria* Fabricius 1781** (box nr. 7)

[*Cantharis pulicaria*], Chişinău, 18.04-1.05.1923, 1 spec.; Dănceni, 15.05.1938, 1 spec.

***Cantharis rustica* Fallen 1807** (box nr. 7)

[*Cantharis rustica*], Chişinău [Durleşti], 14.04.1922, 1 spec.; Chişinău, 19.04-13.05.1923, 3 specs.; Bender, 7.05.1927, 2 specs.

***Malthinus flaveolus* (Herbst 1786)** (box nr. 7)

[*Malthinus flaveolus*], Bender, 7.06.1926, 1 spec.

***Malthodes fuscus* (Waltl 1838)** (box nr. 7)

[*Malthodes pellucidus*], Bender, 24.05.1929, 1 spec.

***Metacantharis clypeata* (Illiger 1798)** (box nr. 7)

[*Cantharis haemorrhoidalis*], Chişinău, 30.04-13.06.1923, 1 spec.; 11.05.1924, 1 spec.; 4.05.1939, 1 spec.; Bender, 6.05.1926, 4 specs.; 5, 6, 9.05.1927, 6 specs.

***Rhagonycha atra* (Linnaeus 1767)** (box nr. 7)

[*Rhagonycha atra*], Chişinău, 13, 15, 26.05.1923, 6 specs.; 1 19.05.192, 4 specs.; 10.05.1926, 1 spec.; 29.05.1930, 1 spec.; Bender, 6.05.1926, 1 spec.; Corneşti, 21.05.1936, 1 spec.

***Rhagonycha fulva* (Scopoli 1763)** (box nr. 7)

[*Rhagonycha fulva*], Vadul-lui-Vodă, 24.06.1923, 4 specs.; Bender, 1-14.07.1923, 1 spec.; Chişinău, 2-22.06.1924, 2 specs.; Corneşti, 25.07.1938, 1 spec.

***Rhagonycha lignosa* (Müller 1764)** (box nr. 7)

[*Rhagonycha lignosa* ab. *pallipes*], Dănceni, 15.05.1938, 1 spec.; 14.05.1939, 2 specs.

***Rhagonycha lutea* (Müller 1764)** (box nr. 7)
[*Rhagonycha banatica*], Bularda, 29.06.1928, 1 spec.

***Rhagonycha nigriventris* Motschulsky 1860** (box nr. 7)
[*Rhagonycha limbata*], Bender, 5.05.1927, 1 spec.

***Rhagonycha nigripes* Redtenbacher 1842** (box nr. 7)
[*Rhagonycha nigripes*], Chişinău [Durleşti], 23.06.1933, 1 spec.

***Rhagonycha* sp.** (box nr. 7)
[*Rhagonycha* sp.], Chişinău, 16.06.1933, 1 spec.; 9.05.1939, 1 spec.;
Corneşti [Pereval], 1.07.1935, 1 spec.; Dănceni, 18.09.1939, 1 spec.

***Silis nitidula* (Fabricius 1792)** (box nr. 7)
[*Silis nitidula*], Chişinău, 18.04-1.05.1923, 1 spec.

Cantharidae sp. (box nr. 7)

15.05.1938, 2 specs.

Family Carabidae

***Abax parallelepipedus* (Piller & Mitterpacher 1783)** (box nr. 2)
[*Abax ater*], Corneşti [Pereval], 17.07.1933, 1 spec.; Pârjolteni,
24.07.1933, 1 spec.

***Abax paralellus* (Duftschmid 1812)** (box nr. 2)
[*Abax paralellus*], Chişinău, 14.04, 29.08.1923, 2 specs.; 20.04-
3.05.1924, 3 specs.; 22.04.1930, 1 spec.; Chişinău [Durleşti],
4.08.1932, 2 specs.; Goian, 1.05.1925, 1 spec.; Bularda, 27.04.1930,
1 spec.; Izbişte, 27.04.1930, 1 spec.; 22.04.1932, 1 spec.; Corneşti
[Pereval], 17.05.1935, 1 spec.

***Acinopus ammophilus* Dejean 1829** (box nr. 2)
[*Acinopus ammophilus*], Hruşova, 8, 13.06.1928, 2 specs.

***Agonum assimile* (Paykull 1790)** (box nr. 2)
[*Agonum assimile*], Bender, 13.08.1927, 2 specs.; Răciula, 16.10.1927,
2 specs.; Căpriana, 9.08.1930, 3 specs.

***Agonum fuliginosum* (Panzer 1809)** (box nr. 2)

[*Agonum fuliginosum*], Bender, 10.05.1930, 9 specs.

***Agonum gracile* Sturm 1824** (box nr. 2)

[*Agonum atratum*], Bender, 18-31.03.1924, 1 spec.

***Agonum gracilipes* (Duftschmid 1812)** (box nr. 2)

[*Agonum gracilipes*], Chişinău, 12.06.1927, 1 spec.; 19, 29.07.1928, 2 specs.

***Agonum lugens* (Duftschmid 1812)** (box nr. 2)

[*Agonum lugens*], Bender, 18-31.03.1924, 4 specs.; 27.10.1929, 1 spec.; Balabanovca [Ucraina], 26.07.1927, 1 spec.

***Agonum micans* (Nicolai 1822)** (box nr. 2)

[*Agonum (Europhilus) micans*], Bender, 13.08.1927, 2 specs.; 13.09.1931, 1 spec.

***Agonum thoreyi* Dejean 1828** (box nr. 2)

[*Agonum thoreyi* v. *pullus*], Shevchenkovo, Ucraina [Cara-Mahmet], 8.07.1929, 1 spec.

***Agonum viduum* (Panzer 1796)** (box nr. 2)

[*Agonum viduum* v. *modestum*], Chişinău, 20.04-03.05.1923, 1 spec.; 16.06.1933, 1 spec.; Bender, 18-31.03.1924, 1 spec.; Goian, 11.05.1924, 1 spec.; Shevchenkovo, Ucraina [Cara-Mahmet], 8.07.1929, 1 spec.; Reni [Ucraina], 15.07.1931, 1 spec.
[*Agonum (Anchus) obscurum*], Bender, 7.05.1927, 1 spec.; 13.09.1931, 1 spec.

***Agonum viridicupreum* (Goeze 1777)** (box nr. 2)

[*Agonum viridicupreum*], Chişinău, 22.04.1923, 1 spec.; 12.05.1924, 1 spec.; 7.05.1927, 1 spec.; 17, 19, 23, 29.06.1930, 5 specs.; 25.10.1931, 1 spec.; Bender, 7.06.1926, 1 spec.

***Agonum* sp.** (box nr. 2)

[*Agonum* sp.], Corneşti, 25.07.1938, 2 specs.

***Amara aenea* (De Geer 1774)** (box nr. 2)

[*Amara aenea*], Chişinău, 8-20.04.1923, 3 specs.; 17.04.1924, 1 spec.; 24.03.1927, 1 spec., Bender, 18-31.03.1924, 1 spec.; Chişinău [Durleşti], 4.05.1924, 1 spec.

***Amara apricaria* (Paykull 1790)** (box nr. 2)

[*Amara apricaria*], Chişinău, 20.04-4.07.1924, 2 specs.; 16-29.08.1929, 1 spec.; Bender, 7.05, 13.07.1927, 2 specs.

***Amara aulica* (Panzer 1796)** (box nr. 2)

[*Amara aulica*], Chişinău, 8.06.1937, 1 spec.

***Amara communis* (Panzer 1797)** (box nr. 2)

[*Amara communis*(=*convexior*)], Chişinău [Durleşti], 14.05.1924, 1 spec.

***Amara consularis* (Duftschmid 1812)** (box nr. 2)

[*Amara consularis*], Chişinău, 20.06-3.07.1924, 1 spec.; Chişinău [Durleşti], 12.10.1930, 1 spec.

***Amara curta* Dejean 1828** (box nr. 2)

[*Amara curta*], Chişinău, 30.05.1928, 1 spec.

***Amara eurynota* (Panzer 1796)** (box nr. 2)

[*Amara eurynota*], Bender, 18-31.03.1924, 3 specs.; Chişinău, 3-17.04.1924, 2 specs.; Goian, 11.09.1924, 4 specs.; Bucovăţ, 6.06.1935, 1 spec.

***Amara ingenua* (Duftschmid 1812)** (box nr. 2)

[*Amara ingenua*], Chişinău, 30.10.1927, 1 spec.; 30.05.1931, 1 spec.; Dănceni, 4.06.1928, 1 spec.

***Amara lucida* (Duftschmid 1812)** (box nr. 2)

[*Amara lucida*], Chişinău, 6-19.04.1923, 1 spec., [no locality], 20.04.1925, 1 spec.

***Amara sabulosa* (Audinet-Serville 1821)** (box nr. 2)

[*Amara sabulosa*], Chişinău, 1.09.1928, 1 spec.

***Amara similata* (Gyllenhal 1810)** (box nr. 2)

[*Amara similata*], Chişinău, 16-29.08.1923, 2 specs.; 8-21.06.1924, 1 spec.; 19.04.1927, 1 spec.; Chişinău [Durleşti], 6.05.1928, 2 specs.; Bender, 18-31.03.1924, 1 spec.; 7.05.1927, 2 specs.; 10.09.1930, 1 spec.; 5.06.1931, 5 specs.; Goian, 11.05.1924, 1 spec.

***Amara tricuspidata* Dejean 1831** (box nr. 2)

[*Amara tricuspidata*], Chişinău, 25.10.1931, 1 spec.

***Amara* sp.** (box nr. 2)

[*Amara* sp.], Chişinău, 22.05.1908, 1 spec.; 25.10.1931, 1 spec.; Corneşti, 2.07.1936, 1 spec.; Shevchenkovo, Ucraina [Cara-Mahmet], 6.07.1929, 4 specs.; [no locality], 3.08.1929, 2 specs.

***Anchomenus dorsalis* (Pontoppidan 1763)** (box nr. 2)

[*Agonum dorsale*], Chişinău, 17.03, 19.04.1923, 2 specs.; 7.05.1925, 1 spec.; Goian, 11.04.1924, 1 spec.; Bender, 17-30.04.1924, 2 specs.

***Aptinus bombardata* (Illiger 1800)** (box nr. 3)

[*Aptinus bombardata*], Palanca, 28.05.1927, 1 spec.

***Asaphidion flavipes* (Linnaeus 1761)** (box nr. 1)

[*Asaphidion flavipes*], Chişinău, 18-21.09.1922, 2 specs.; 20.04-3.04.1924, 1 spec.; Chişinău [Durleşti], 29.09.1924, 1 spec.; Bender, 13.08.1927, 2 specs.; 7.03.1930, 1 spec.

***Bembidion quadrimaculatum* (Linnaeus 1761)** (box nr. 1)

[*Bembidion 4-guttatum*], Chişinău, 19.06.1930, 1 spec.; Shevchenkovo, Ucraina [Cara-Mahmet], 19.07.1931, 2 specs.

***Brachinus bipustulatus* Quensel in Schonherr 1806** (box nr. 2)

[*Brachinus bipustulatus*], Chişinău, 19, 23.06, 6.09.1930, 5 specs.; 14.05.1931, 1 spec.

***Brachinus crepitans* (Linnaeus 1758)** (box nr. 3)

[*Brachinus crepitans*], Chişinău, 3.06.1922, 1 spec.; 20.04, 23.06.1923, 2 specs.; 11.05.1924, 1 spec.; 21.05.1928, 1 spec.; Chişinău – Hînceşti, 17-31.03.1923, 3 specs.; Chişinău – Goian, 11.05.1924, 2 specs.; Goian, 14.05.1924, 1 spec.; Hruşova, 11.06.1928, 1 spec.

***Brachinus explodens* Duftschmid 1812** (box nr. 2)

[*Brachinus explodens*], Bender, 17-30.04.1924, 5 specs.

[*Brachinus explodens* v. *substriatus*], Chişinău, 1.08.1926, 1 spec.;

Izvoare (Făleşti), 26.06.1927, 1 spec.

[*Brachinus explodens* v. *strepens*], Chişinău – Goian, 11.05.1924, 1 spec.

***Brachinus immaculicornis* Dejean 1826** (box nr. 3)

[*Brachinus immaculicornis*], Chişinău – Goian, 11.09.1924, 4 specs.

[*Brachinus immaculicornis* v. *annulatus*], Hruşova, 18.09.1928, 1 spec.

***Brachinus psophia* Audinet-Serville 1821** (box nr. 3)

[*Brachinus psophia*], Bender – Gîsca, 17-30.04.1924, 1 spec.; Bender,

24.05.1925, 1 spec.; Chişinău, 6.09.1930, 1 spec.

***Broscus cephalotes* (Linnaeus 1758)** (box nr. 1)

[*Broscus cephalotes*], Hruşova, 7.08.1930, 4 specs.; Chişinău, 23.07,

7.08.1930, 2 specs.

***Calathus ambiguus* (Paykull 1790)** (box nr. 2)

[*Calathus ambiguus*], Chişinău, 3.05.1924, 1 spec.; 27.09.1928,

1 spec.; Chişinău [Durleşti], 6.05.1928, 1 spec.; Goian, 5.10.1924,

1 spec.; Bălăbăneşti, 26.07.1927, 1 spec.; Bender, 13.08.1927,

1 spec.; 5.06.1931, 1 spec.; Hruşova, 17.09.1929, 1 spec.

***Calathus fuscipes* (Goeze 1777)** (box nr. 2)

[*Calathus fuscipes*], Suruceni, 10-04-29.05.1923, 1 spec.; Chişinău,

16-29.08.1923, 1 spec.; 22.05.1925, 1 spec.; 30.06.1929, 2 specs.;

Chişinău [Durleşti], 7.06.1929, 1 spec.; 12.10.1930, 1 spec.

[*Calathus fuscipes* v. *latus*], Chişinău [Durleşti], 1.10.1932, 1 spec.

***Calathus mollis* (Marsham 1802)** (box nr. 2)

[*Calathus mollis*], Bender, 5.06.1931, 1 spec.

***Callistus lunatus* (Fabricius 1775)** (box nr. 1)

[*Callistus lunatus*], Bularda, 1.04.1927, 2 specs.; Chişinău, 17.04.1927,

1 spec.

***Calomera littoralis* (Fabricius 1787)** (box nr. 1)

[*Cicindela lunulata* v. *decusai*], Balabanovca [Ucraina], 26.07.1927, 4 specs.; Belen'koe, Ucraina [Akembet], 29.07.1928, 1 spec.

[*Cicindela lunulata* v. *horni*], Balabanovca [Ucraina], 26.07.1927, 1 spec.

[*Cicindela lunulata* v. *nemoralis*], Suruceni, 19.08.1930, 1 spec.; Balabanovca [Ucraina], 25.07.1927, 1 spec.

***Calosoma auropunctatum* (Herbst 1784)** (box nr. 1)

[*Calosoma auropunctatum*], Hrușova, 9.06.1928, 1 spec.; 6.09.1932, 1 spec.; Bușăuca, 24.07.1929, 1 spec.

***Calosoma denticolle* Gebler 1833** (box nr. 1)

[*Calosoma denticolle*], Zaim, 12.04.1905, 1 spec.; Chișinău, 7.07.1911, 1 spec.; 3-16.04.1922, 1 spec.; 5, 9.09.1929, 4 specs.; Chișinău – Hîncești, 22.07.1930, 1 spec.; Căinari, 9.09.1929, 1 spec.; Butovca [Ucraina], 2.06.1930, 1 spec.

***Calosoma inquisitor* (Linnaeus 1758)** (box nr. 1)

[*Calosoma inquisitor*], Chișinău, 30.04-13.05.1923, 1 spec.; 3-19.05.1924, 3 specs.; 30.05.1925, 1 spec.; Chișinău – Hîncești, 30.04-13.05.1923, 2 specs.; 3-16.05.1924, 1 spec.; Chișinău [Durlești], 17.05.1931, 1 spec.

***Calosoma sycophanta* (Linnaeus 1758)** (box nr. 1)

[*Calosoma sycophanta*], Chișinău, 26.05-8.06.1923, 4 specs.

***Carabus besseri* Fischer von Waldheim 1822** (box nr. 1)

[*Carabus besseri*], Bularda, 4, 22, 25.06.1927, 3 specs.; 22.07.1930, 1 spec.; Ivancea, 20.07.1930, 1 spec.; Cornești [Pereval], 20.07.1933, 1 spec.

***Carabus cancellatus* Illiger 1798** (box nr. 1)

[*Carabus cancellatus* v. *tuberculatus*], Chișinău [Durlești], 25.04.1910, 1 spec.; 12.05.1929, 1 spec.; Căpriană, 30.05.1928, 1 spec.; Sculeni, 1.08.1929, 2 specs.

***Carabus clathratus* Linnaeus 1761** (box nr. 1)

[*Carabus clathratus*], Hagimus, 10.09.1939, 1 spec.

***Carabus convexus* Fabricius 1775** (box nr. 1)

[*Carabus convexus*], Chişinău [Durleşti], 19.04.1924, 1 spec.; 12.08.1931, 1 spec.; 1.10.1932, 1 spec.; Chişinău, 9.04.1925, 1 spec.; 3.04.1936, 2 specs.

***Carabus coriaceus* Linnaeus 1758** (box nr. 1)

[*Carabus coriaceus*], Chişinău, 14.04, 21.09.1923, 2 specs.; Chişinău [Durleşti], 3.09.1931, 1 spec.; Sculeni, 18.07.1929, 1 spec.

***Carabus excellens* Fabricius 1798** (box nr. 1)

[*Carabus excellens*], Chişinău [Durleşti], 14.05.1922, 3 specs.; 24.05.1928, 1 spec.; 10.05.1929, 1 spec.; 17.05.1931, 3 specs.; Chişinău, 10.05.1929, 1 spec.; Palanca, 29.05.1927, 1 spec.

***Carabus intricatus* Linnaeus 1761** (box nr. 1)

[*Carabus intricatus*], Lozova, 25.03.1927, 2 specs.

***Carabus scabriusculus* Olivier 1795** (box nr. 1)

[*Carabus scabriusculus*], Hînceşti, 18-31.03.1923, 2 specs.; Chişinău, 5.04, 16.05, 20.10.1924, 4 specs.; Hruşova, 26.06.1928, 1 spec.; Corneşti, 21.07.1936, 1 spec.

***Carabus violaceus* Linnaeus 1758** (box nr. 1)

[*Carabus violaceus*], Bularda, 25.07.1927, 1 spec.; 26.06.1929, 4 specs.

***Cephalota chiloleuca* (Fischer von Waldheim 1820)** (box nr. 1)

[*Cicindela chiloleuca*], Belen'koe, Ucraina [Akembet], 28.07.1927, 6 specs.; Shevchenkovo, Ucraina [Cara-Mahmet], 13, 15.07.1929, 6 specs.; Sergheevca [Ucraina], 19.07.1930, 3 specs.

***Chlaenius decipiens* (L. Dufour 1820)** (box nr. 1)

[*Chlaenius decipiens* v. *laticollis*], Bender – Gîsca, 1-14.05.1924, 1 spec.

***Chlaenius festivus* (Panzer 1796)** (box nr. 1)

[*Chlaenius festivus*], Bender, 11.09.1930, 1 spec.

***Chlaenius nigricornis* Fabricius 1787** (box nr. 1)

[*Chlaenius nigricornis* v. *melanocornis*], Bender, 11.05.1930, 1 spec.; Chişinău, 14.06.1930, 2 specs.

***Chlaenius spoliatus* (P. Rossi 1792)** (box nr. 1)

[*Chlaenius spoliatus*], Cahul, 10.05.1925, 1 spec.; Bender, 24.05.1925, 1 spec.; Chişinău, 23.08.1930, 1 spec.; Bularda, 31.07.1932, 1 spec.; Balabanovca [Ucraina], 26.07.1927, 1 spec.; Shevchenkovo, Ucraina [Cara-Mahmet], 25.07.1929, 1 spec.

***Chlaenius terminatus* Dejean 1826** (box nr. 1)

[*Chlaenius terminatus*], Bender, 24.05.1929, 1 spec.

***Chlaenius tristis* Schaller 1783** (box nr. 1)

[*Chlaenius tristis*], Bender, 1-14.07.1923, 1 spec.; Bularda, 24.07.1929, 1 spec.; Reni [Ucraina], 15.07.1931, 1 spec.

***Chlaenius vestitus* Paykull 1790** (box nr. 1)

[*Chlaenius vestitus*], Chişinău, 20.04-3.05.1924, 1 spec.; Hruşova, 18.09.1928, 4 specs.; 6.07.1930, 1 spec.

***Chlaenius* sp.** (box nr. 1)

[*Chlaenius* sp.], Corneşti [Pereval], 28.07.1933, 1 spec.

***Cicindela campestris* Linnaeus 1758** (box nr. 1)

[*Cicindela campestris*], Chişinău [Durleşti], 12.03, 14.04.1923, 4 specs.; 6.05.1928, 1 spec.

***Cicindela soluta* Dejean in Latreille & Dejean 1822** (box nr. 1)

[*Cicindela soluta*], Chişinău, 16-29.04.1922, 1 spec.; Hînceşti, 6-19.04.1922, 1 spec.; 12.03-30.04.1923, 2 specs.; Bender, 14.05.1928, 1 spec.; Dănceni, 28.06.1928, 1 spec.; 26.04.1930, 1 spec.; Corneşti, 21.07.1936, 1 spec.

[*Cicindela soluta* v. *kraatri*], Chişinău, 20.04-5.05.1924, 1 spec.; Bender, 7.05.1927, 1 spec.; Dănceni, 4.06.1928, 1 spec.

***Clivina fossor* (Linnaeus 1758)** (box nr. 1)

[*Clivina fossor*], Bender – Hagimus, 7.05.1927, 3 specs.; Chişinău, 12.11.1927, 1 spec.; 12.05.1929, 1 spec.; 12.07.1930, 1 spec.; Bularda, 17.05.1929, 1 spec.; Buşăuca, 23.07.1929, 3 specs.; Lebediovka, Ucraina [Bad-Burnas], 4.08.1929, 1 spec.

***Clivina ypsilon* Dejean & Boisduval 1829** (box nr. 1)

[*Clivina ypsilon*], Chişinău, 16.06.1933, 2 specs.; Shevchenkovo, Ucraina [Cara-Mahmet], 6.07.1929, 1 spec.

***Cylindera contorta* (Fischer von Waldheim 1828)** (box nr. 1)

[*Cicindela contorta*], Balabanovca [Ucraina], 26.07.1927, 1 spec.; Volciok [Ucraina], 10.08.1927, 3 specs.; 22.07.1931, 3 specs.; 12.07.1932, 1 spec.; Belen'koe, Ucraina [Akembet], 29.07.1928, 2 specs.; Lebediovka, Ucraina [Bad-Burnas], 11.08.1929, 5 specs.

***Cylindera germanica* (Linnaeus 1758)** (box nr. 1)

[*Cicindela germanica*], Chişinău, 18.07.1928, 1 spec.

[*Cicindela germanica* v. *obscura*], Corneşti [Pereval], 7.07.1939, 1 spec.

***Cymindis axillaris* (Fabricius 1794)** (box nr. 2)

[*Cymindis axillaris*], Hruşova, 16, 26, 29.06.1928, 5 specs.; 20.06.1929, 1 spec.; 17.07.1932, 1 spec.

***Cymindis cingulata* Dejean 1825** (box nr. 2)

[*Cymindis cingulata*], Cojuşna, 9.07.1927, 1 spec.

***Cymindis lineata* (Quensel in Schonherr 1806)** (box nr. 2)

[*Cymindis lineata*], Hruşova, 9.05, 8,10, 13.06.1928, 5 specs.; 20.06.1929, 2 specs.

***Cymindis* sp.** (box nr. 2)

[*Cymindis* sp.], Cricova, 31.05.1936, 4 specs.

***Dixus clypeatus* (P. Rossi 1790)** (box nr. 2)

[*Ditomus clypeatus*], Chişinău, 21.06.1929, 1 spec.

***Dolichus halensis* (Schaller 1783)** (box nr. 2)

[*Calathus halensis*], Chişinău, 30.07.1927, 1 spec.; VII, 13.08.1934, 2 specs.; Corneşti [Pereval], 1.08.1938, 1 spec.

[*Calathus halensis* ab. *triangulatus*], Chişinău, 2.08.1927, 5 specs.; 7.08.1930, 1 spec.; Corneşti [Pereval], 20.07.1933, 1 spec.

- Dromius quadrimaculatus* (Linnaeus 1758)** (box nr. 2)
 [*Dromius 4-maculatus*], Chişinău, 9.06.1927, 1 spec.; Corneşti [Pereval], 15.08.1933, 1 spec.
- Drypta dentata* (P. Rossi 1790)** (box nr. 2)
 [*Drypta dentata*], Onişcani, 21.09.1917, 2 specs.
- Dyschiriodes cylindricus* (Dejean 1825)** (box nr. 2)
 [*Dyschirius cylindricus*], Shevchenkovo, Ucraina [Cara-Mahmet], 19.07.1931, 1 spec.
- Dyschirius numidicus* Putzeys 1846** (box nr. 1)

[*Pachybrachis fimbriolatus*], Chişinău – Hînceşti, 1-14.05.1929, 1 spec.

***Pachybrachis pallidulus* Suffrian 1851** (box nr. 13)

[*Pachybrachis suturalis*], Chişinău, 5.06.1924, 3 specs.; Hagimus, 7.06.1926, 4 specs.

***Pachybrachis tesselatus* (G. A. Olivier 1791)** (box nr. 13)

[*Pachybrachis tesselatus*], Chişinău – Hînceşti, 21.05-3.06.1922, 2 specs.; Chişinău, 30.05.1924, 2 specs.; 21.05-3.06.1929, 2 specs.; Chişinău [Durleşti], 25.06.1928, 1 spec.; Suruceni, 28.05-10.06.1923, 1 spec.; Bender – Gîsca, 4-17.06.1924, 1 spec.;

***Pachybrachis* sp.** (box nr. 13)

[*Pachybrachys* sp.], Corneşti, 14.07.1936, 1 spec.; Chişinău, 8.06.1937, 4 specs.

***Phaedon cochleariae* (Fabricius 1792)** (box nr. 13)

[*Phaedon cochleariae*], Bender, 24.05.1925, 6 specs.

***Phaedon laevigatus* (Duftschmid 1825)** (box nr. 13)

[*Phaedon laevigatus*], Hagimus, 7, 10.05.1927, 2 specs.; Bender, 10.05.1930, 1 spec.; Dănceni, 22.05.1932, 1 spec.

***Phratora vulgatissima* (Linnaeus 1758)** (box nr. 13)

[*Phyllodecta vulgatissima*], Bularda, 8.05.1928, 2 specs.

***Phyllobrotica adusta* (Creutzer 1799)** (box nr. 13)

[*Phyllobrotica adusta*], Chişinău, 3.06.1922, 1 spec.; 20.05-3.06.1923, 2 specs.; 2, 20.05.1924, 2 specs.; Chişinău – Hînceşti, 5-18.06.1922, 1 spec.; Goian, 31.05.1926, 1 spec.

***Phyllotreta armoraciae* (Koch 1803)** (box nr. 13)

[*Phyllotreta armoraciae*], Bender, 5.05.1927, 1 spec.; 10.05.1930, 1 spec.

***Phyllotreta atra* (Fabricius 1775)** (box nr. 13)

[*Phyllotreta atra*], Chişinău – Hînceşti, 5-18.04.1923, 1 spec.; Bender – Gîsca, 18-31.03.1924, 1 spec.

***Phyllotreta cruciferae* (Goeze 1777)** (box nr. 13)

[*Phyllotreta cruciferae*], Chişinău, 9-22.04.1923, 1 spec.; Bender – Gîsca, 18-31.03.1924, 2 specs.

***Phyllotreta diademata* Foudras 1860** (box nr. 14)

[*Phyllotreta diademata*], Bender – Gîsca, 18-31.03.1924, 1 spec.

***Phyllotreta nemorum* (Linnaeus 1758)** (box nr. 14)

[*Phyllotreta nemorum*], Chişinău, 25.05.1927, 1 spec.; Hagimus, 10.05.1930, 1 spec.

***Phyllotreta nigripes* (Fabricius 1775)** (box nr. 13)

[*Phyllotreta nigripes*], Chişinău, 23.09.1917, 1 spec.; 18.04.1923, 1 spec.; 29.03-2.04.1924, 1 spec.

- Phyllotreta nodicornis* (Marsham 1802)** (box nr. 14)
[*Phyllotreta nodicornis*], Hrușova, 26.06.1928, 1 spec.
- Phyllotreta procera* (Redtenbacher 1849)** (box nr. 14)
[*Phyllotreta procera*], Chișinău, 20.10.1936, 1 spec.
- Phyllotreta vittula* (Redtenbacher 1849)** (box nr. 13)
[*Phyllotreta vittula*], Chișinău – Hîncești, 5-18.04.1923, 2 specs.;
Bender – Gîsca, 18-31.03.1924, 2 specs.
- Pilemostoma fastuosum* (Schaller 1783)** (box nr. 14)
[*Pilemostoma fastuosa*], Chișinău, 5.05.1925, 1 spec.; 4.05.1926,
1 spec.; Dănceni, 4.05.1928, 3 specs.; 15.05.1938, 1 spec.; Bularda,
1.05.1938, 1 spec.
- Plagiodera versicolora* (Laicharting 1781)** (box nr. 13)
[*Plagiodera versicolor*], Chișinău, 30.04-17.05.1923, 3 specs.;
17.04.1938, 1 spec.
- Podagrica fuscicornis* (Linnaeus 1766)** (box nr. 13)
[*Podagrica fuscicornis*], Bender, 24.05.1925, 2 specs.; Chișinău,
5.08.1928, 2 specs.
- Podagrica malvae* (Illiger 1807)** (box nr. 13)
[*Podagrica malvae*], Chișinău – Hîncești, 21.04-4.05.1923, 1 spec.;
Bender – Gîsca, 18-31.03.1924, 3 specs.
- Prasocuris phellandrii* (Linnaeus 1758)** (box nr. 13)
[*Prasocuris phellandrii*], Chișinău, 24.04.1931, 1 spec.; 18.05.1936,
1 spec.
- Psylliodes napi* (Fabricius 1792)** (box nr. 14)
[*Psylliodes napi*], Chișinău, 29.03-2.04.1924, 1 spec.; 17.06.1928,
1 spec.; Hagimus, 10.05.1930, 1 spec.
- Pyrrhalta viburni* (Paykull 1799)** (box nr. 13)
[*Galerucella viburni*], Bender, 24.05.1925, 1 spec.; Chișinău,
10.07.1927, 3 specs.

***Sermylassa halensis* (Linnaeus 1767)** (box nr. 13)

[*Sermylassa halensis*], Călăraș, 20.07-2.08.1923, 1 spec.; Cornești [Pereval], 22.07.1938, 1 spec.

***Smaragdina affinis* (Illiger 1794)** (box nr. 12)

[*Smaragdina (Gynandra) affinis*], Chișinău, 8-21.05.1922, 1 spec.; 4, 7.05.1925, 2 specs.; 14-27.04.1929, 1 spec.; Chișinău [Durlești], 10.05.1925, 1 spec.; 14.05.1928, 1 spec.; 26.05.1929, 1 spec.

***Smaragdina aurita* (Linnaeus 1767)** (box nr. 12)

[*Smaragdina (Gynandra) aurita*], Bender, 1.05.1909, 1 spec.; Bularda, 24.05.1927, 1 spec.; Chișinău [Durlești], 24.05.1928, 4 specs.; Căpriana, 30.05.1928, 1 spec.; Dănceni, 06.1928, 1 spec.

***Smaragdina salicina* (Scopoli 1763)** (box nr. 12)

[*Smaragdina (Gynandra) cyanea*], Goian, 21.05-3.06.1922, 1 spec.; Chișinău, 18.04-13.05.1923, 3 specs.; 11.05.1924, 1 spec.; 1.05.1925, 1 spec.; Chișinău [Durlești], 28.04-2.05.1924, 1 spec.

***Timarcha goettingensis* (Linnaeus 1758)** (box nr. 13)

[*Chrysomela goettingensis*], Costuleni, 24.06.1909, 1 spec.; Chișinău [Durlești], 1-14.05.1922, 1 spec.; 4.05.1924, 1 spec.; Goian, 11.05.1924, 1 spec.; Hagimus, 7.05.1927, 1 spec.; Dănceni, 16.05.1937, 1 spec.; Cornești [Pereval], 2.08.1935, 1 spec.; 22.07.1938, 1 spec.; Cornești, 2.07, 6.08.1938, 2 specs.; Bularda, 1.05.1938, 1 spec.

[*Timarcha coriaria*], Dănceni, 24.03, 10.05, 13.10.1935, 4 specs.; 22.03.1936, 3 specs.; 16.05.1937, 2 specs.

***Tituboea macropus* (Illiger 1800)** (box nr. 12)

[*Antipa (Tituboea) macropus*], Goian, 20.06-3.07.1924, 1 spec.; Chișinău [Durlești], 4, 5.07.1925, 2 specs.; Dănceni, 25, 29.06.1928, 4 specs.; 8.07.1939, 2 specs.

Chrysomelidae sp. (box nr. 14)

[Chrysomelidae sp.], Chișinău – Hîncești, 21.05-3.06.1922, 1 spec.; Bender – Gîsca, 18-31.03.1924, 1 spec.; Chișinău, 29.03-11.04.1924, 1 spec.; 19.06.1930, 2 specs.; 8.06.1937, 3 specs.; 17.04, 10.05.1938,

4 specs.; 19.05.1939, 2 specs.; Cricova, 26.04.1936, 2 specs.; Bularda, 2.05.1938, 4 specs.; Cornești, 22.07.1938, 1 spec.

Family Cleridae

***Clerus mutillarius* Fabricius 1775** (box nr. 7)

[*Clerus mutillarius*], Chișinău, 19.04-3.05.1923, 1 spec.; 10.05.1926, 1 spec.; Bender, 20.04.1925, 3 specs.; 10.05.1930, 1 spec.

***Denops albofasciatus* (Charpentier 1825)** (box nr. 7)

[*Denops albofasciatus*], Chișinău, 3.06.1922, 1 spec.; 21.04.1928, 1 spec.

***Opetiopalpus scutellaris* (Panzer 1797)** (box nr. 7)

[*Opetiopalpus scutellaris*], Onișcani, 23.09.1917, 1 spec.; Bender, 6.05.1927, 1 spec.

***Opilo pallidus* (Olivier 1795)** (box nr. 7)

[*Opilo pallidus*], Cornești [Pereval], 19.07.1933, 1 spec.; Bender, 14.07.1934, 1 spec.

***Korynetes caeruleus* (De Geer 1775)** (box nr. 7)

[*Korynetes caeruleus*], Chișinău, 9-22.04.1923, 1 spec.; 24.03-11.04.1924, 13 specs.

***Thanasimus formicarius* (Linnaeus 1758)** (box nr. 7)

[*Thanasimus formicarius*], Izvoare, 29.06.1926, 1 spec.

***Tilloidea unifasciata* (Fabricius 1787)** (box nr. 7)

[*Tilloidea unifasciata*], Chișinău, 23.04.1917, 1 spec.; 22, 30.05.1926, 2 specs.

***Trichodes apiarius* (Linnaeus 1758)** (box nr. 7)

[*Trichodes apiarius*], Vulpești, 23.06.1924, 2 specs.; Chișinău [Durlești], 4.05, 5.07.1925, 2 specs.; Hîrbovăț, 17.07.1928, 1 spec.; 11.09.1929, 1 spec.

Cleridae sp.(box nr. 7)

[Cleridae sp.], Chișinău, 15.04.1930, 1 spec.; Lozova, 14.07.1938, 3 specs.

Family Coccinellidae

***Adalia bipunctata* (Linnaeus 1758)** (box nr. 9)

[*Adalia bipunctata*], Chişinău, 29.03.1923, 3 specs.; Bender, 31.03.1924, 1 spec.

[*Adalia bipunctata 4-maculata*], Chişinău, 5.04.1914, 1 spec.; Onişcani, 21.09.1917, 2 specs.

[*Adalia bipunctata* v. *annulata*], Chişinău, 17.04.1924, 1 spec.; Bender, 13.09.1938, 1 spec.

***Adalia decempunctata* (Linnaeus 1758)** (box nr. 9)

[*Adalia 10-punctata*], Bender, 9.06.1926, 1 spec.

[*Adalia bipunctata* v. *humeralis*], Chişinău, 17.05.1929, 1 spec.

[*Adalia 10-punctata* AB], Chişinău, 27.04.1925, 1 spec.

***Anisosticta novemdecimpunctata* (Linnaeus 1758)** (box nr. 9)

[*Anisosticta 19-punctata*], Chişinău, 25.05.1936, 2 specs.

***Calvia quattuordecimguttata* (Linnaeus, 1758)** (box nr. 9)

[*Calvia 14-guttata*], Palanca, 12.04.1933, 2 specs.; Chişinău, 16.06.1933, 1 spec.; Corneşti, 22.05.1936, 1 spec.

***Chilocorus bipustulatus* (Linnaeus 1758)** (box nr. 9)

[*Chilocorus bipustulatus*], Chişinău, 2.04.1910, 1 spec.; 15.07.1913, 1 spec.; 17.04.1922, 1 spec.; 23.03.1923, 2 specs.; Onişcani, 23.09.1917, 1 spec.

***Coccinella septempunctata* Linnaeus 1758** (box nr. 9)

[*Coccinella 7-punctata*], Chişinău [Durlleşti], 25.03.1923, 1 spec.; Chişinău, 30.04.1923, 1 spec.; 9.05.1924, 1 spec.; Bender, 31.03.1924, 2 specs.; Dănceni, 22.03.1936, 1 spec.

***Coccinella magnifica* Redtenbacher 1843** (box nr. 9)

[*Coccinella distincta*], Chişinău, 20.04.1924, 2 specs.; Bularda, 31.03.1927, 3 specs.

***Coccinella quinquepunctata* Linnaeus 1758** (box nr. 9)

[*Coccinella 5-punctata*], Onişcani, 21.09.1917, 1 spec.

***Coccinella quatuordecimpustulata* (Linnaeus 1758)** (box nr. 9)

[*Coccinella 14-pustulata*], Bender, 18-30.04.1924, 3 specs.; Chişinău, 21.04-5.05.1924, 3 specs.; 22.04.1930, 1 spec.

***Exochomus quadripustulatus* Linnaeus 1758** (box nr. 9)

[*Exochomus 4-pustulatus*], Chişinău, 2.04.1910, 3 specs.; 21.09.1917, 1 spec.; 9.03.1923, 2 specs.; 20.04.1924, 1 spec.; 22.04.1930, 1 spec.
[*Exochomus 4-pustulatus floralis*], Chişinău [Durleşti], 10.06.1936, 1 spec.

***Exochomus nigromaculatus* Goeze 1777** (box nr. 9)

[*Exochomus flavipes*], Hruşova, 26.06.1928, 1 spec.

***Halyzia sedecimguttata* (Linnaeus 1758)** (box nr. 9)

[*Halyzia 16-guttata*], Bender, 1-14.05.1924, 1 spec.; Corneşti [Pereval], 19.07.1933, 1 spec.; Corneşti, 16.07.1936, 1 spec.

***Hippodamia tredecimpunctata* (Linnaeus 1758)** (box nr. 9)

[*Hippodamia 13-punctata*], Chişinău, 29.08.1926, 1 spec.; Lebediovka, Ucraina [Bad-Burnas], 4.08.1929, 1 spec.

***Hippodamia septemmaculata* De Geer 1775** (box nr. 9)

[*Hippodamia 7-maculata*], Chişinău, 22.04.1930, 1 spec.; Corneşti, 14.07.1936, 3 specs.

***Hippodamia variegata* Goeze 1777** (box nr. 9)

[*Adonia variegata*], Chişinău, 9.04, 10.06.1924, 2 specs.; 27.04, 17.05.1925, 2 specs.; 28.04.1929, 1 spec.; Goian, 11.05, 6.10.1924, 2 specs.

***Hyperaspis reppensis* (Herbst 1783)** (box nr. 9)

[*Hyperaspis reppensis*], Chişinău, 9.05.1902, 1 spec.; Bender, 18-31.04.1924, 1 spec.

***Nephus quadrimaculatus* (Herbst 1783)** (box nr. 9)

[*Scymnus 4-maculatus*], Chişinău, 5-18.04.1922, 1 spec.; 13.05.1923, 1 spec.; 10.06.1928, 1 spec.; 18-31.04.1929, 1 spec.; Chişinău [Durleşti], 28.04-11.05.1924, 1 spec.; 5.08.1928, 1 spec.

***Propylea quattuordecimpunctata* (Linnaeus, 1758)** (box nr. 9)

[*Synhaptonia conglobata*], Chişinău, 5.06.1924, 1 spec.

***Propylea quattuordecimpunctata* (Linnaeus 1758)** (box nr. 9)

[*Propylea 14-punctata*], Chişinău, 30.04-13.05.1923, 3 specs.; Bender, 18-31.03.1924, 2 specs.; Chişinău [Durleşti], 9.05.1929, 1 spec.

***Psyllobora vigintiduopunctata* (Linnaeus 1758)** (box nr. 9)

[*Thea 22-punctata*], Bender, 18-31.03.1924, 2 specs.; Goian, 11.05.1924, 3 specs.; Corneşti, 2.07.1938, 1 spec.

***Psyllobora* sp.** (box nr. 9)

[*Thea* sp.], Cricova, 26.04, 16.07.1936, 2 specs.; Chişinău, 11.08.1937, 1 spec.

***Scymnus ferrugatus* (Moll 1785)** (box nr. 9)

[*Scymnus ferrugatus*], Chişinău, 9.05.1908, 1 spec.; 2.05.1927, 1 spec.

***Scymnus rufipes* (Fabricius 1798)** (box nr. 14)

[*Agropus ahrensi*], Goian, 3.06-21.05.1922, 3 specs.; 2.05.1924, 3 specs.; Corneşti, 14.07.1936, 1 spec.

***Scymnus suturalis* Thunberg 1795** (box nr. 9)

[*Scymnus suturalis*], Chişinău, 3.07.1924, 1 spec.

***Tytthaspis sedecimpunctata* (Linnaeus 1758)** (box nr. 9)

[*Tytthaspis 16-punctata*], Chişinău, 25.05.1938, 2 specs.

Family Colydiidae

***Bitoma crenata* (Fabricius 1775)** (box nr. 9)

[*Bitoma crenata*], Bender, 6.05.1926, 2 specs.; 9.05.1927, 1 spec.; Căpriana, 30.05.1928, 1 spec.

***Colydium elongatum* (Fabricius 1787)** (box nr. 9)

[*Colydium elongatum*], Bularda, 18.04.1927, 1 spec.; Lozova, 29.05.1927, 1 spec.

Family Curculionidae

***Acentrus histrio* (Schoenherr 1837)** (box nr. 16)

[*Acentrus histrio*], Chişinău [Durleşti], 28.04-2.05.1924, 1 spec.

***Adosomus roridus* (Pallas 1781)** (box nr. 15)

[*Adosomus roridus*], Chişinău, 7.08.1927, 1 spec.; Bularda, 2.07.1929, 1 spec.; Corneşti [Pereval], 20.07.1933, 1 spec.; Corneşti, 11.06.1937, 2 specs.; 21.07.1938, 6 specs.

***Anthonomus piri* Kollar 1837** (box nr. 16)

[*Anthonomus cinctus*], Chişinău, 6.05.1914, 1 spec.; 5.05.1923, 1 spec.

***Anthonomus pomorum* (Linnaeus 1758)** (box nr. 16)

[*Anthonomus pomorum*], Chişinău, 24.07.1913, 2 specs.; 11.03, 14, 18.04.1922, 4 specs.; 29.03, 14.04.1923, 7 specs.

***Archarius salicivorus* (Paykull 1792)** (box nr. 16)

[*Curculio salicivorus*], Chişinău [Durleşti], 16.08.1936, 1 spec.

***Asproparthenis punctiventris* (Germar 1824)** (box nr. 15)

[*Bothynoderes punctiventris*], Bender, 7.05.1904, 1 spec., Chişinău, 27.04, 21.05.1910, 2 specs.; 25.04.1919, 1 spec.; Chişinău [Durleşti], 25.04.1929, 1 spec.; Răciula, 15.06.1916, 1 spec.

***Attagenus unicolor* (Brahm 1791)** (box nr. 7)

[*Attagenus megatoma* (= *piceus*)], Chişinău, 1, 2, 24.06.1924,
3 specs.; 22.05.1925, 1 spec.; 15.06.1926, 1 spec.; Chişinău [Durleşti],
4.06.1929, 1 spec.

***Dermestes ater* De Geer 1774** (box nr. 7)

[*Dermestes ater*], Chişinău, 2-15.05.1923, 1 spec.

***Dermestes frischi* Kugelann 1792** (box nr. 7)

[*Dermestes frischi*], Chişinău, 6.06.1936, 1 spec.

***Dermestes lanarius* Illiger 1801** (box nr. 7)

[*Dermestes lanarius*], Chişinău, 31.03-29.04.1923, 2 specs.; 9.05,
1.06.1924, 2 specs.

***Dermestes undulatus* Brahm 1790** (box nr. 7)

[*Dermestes undulatus*], Chişinău, 2.04.1910, 1 spec.; 19.04-2.06.1923,
1 spec.; 5.08.1928, 1 spec.; 6.06.1936, 2 specs.

Dermestidae sp. (box nr. 7)

[Dermestidae sp.], Chişinău [Durleşti], 27.10.1928, 1 spec.

***Trogoderma versicolor* (Creutzer 1799)** (box nr. 7)

[*Trogoderma versicolor*], Chişinău, 3.06.1922, 1 spec.; 13.05.1923,
3 specs.; 5.06.1924, 1 spec.; Chişinău [Durleşti], 24.05.1928, 1 spec.

Family Dryophthoridae

***Sitophilus granarius* (Linnaeus 1758)** (box nr. 15)

[*Sitophilus granarius*], Chişinău, 2.05.1908, 1 spec.; 17.05.1927,
1 spec.; 17.06.1928, 1 spec.

***Sphenophorus piceus* (Pallas 1776)** (box nr. 15)

[*Calandra picea*], Chişinău, 12.07.1930, 1 spec.; 25.05.1936, 1 spec.;
Chişinău [Durleşti], 14.05.1939, 1 spec.

***Sphenophorus striatopunctatus* (Goeze 1777)** (box nr. 15)

[*Calandra striatopunctata*], Chişinău, 20.04-3.05.1924, 1 spec.;
11.04.1925, 1 spec.; 12.05.1929, 1 spec.; 25.05.1930, 1 spec.;
Chişinău [Durleşti], 4.05.1924, 1 spec.; Bender, 10.05.1930, 1 spec.

Family Dynastidae

***Oryctes nasicornis* (Linnaeus 1758)** (box nr. 6)

[*Oryctes nasicornis*], Bender, no date, 2 specs.

***Pentodon idiota* (Herbst 1789)** (box nr. 6)

[*Pentodon idiota*], Chişinău, 13.05.1923, 3 specs.; 7.05.1925, 1 spec.

Family Dytiscidae

***Acilius sulcatus* (Linnaeus 1758)** (box nr. 3)

[*Acilus sulcatus*], Bularda, 27.05.2027, 1 spec.

***Agabus guttatus* (Paykull 1798)** (box nr. 3)

[*Agabus guttatus*], Hruşova, 9.05, 23.09.1928, 2 specs.; 7.07.1930,
1 spec.

***Colymbetes fuscus* (Linnaeus 1758)** (box nr. 3)

[*Colymbetes fuscus*], Chişinău, 30.05.1929, 1 spec.; 14.06.1930, 1 spec.

***Copelatus haemorrhoidalis* (Fabricius 1787)** (box nr. 3)

[*Copelatus ruficollis*], Chişinău, 9-22.04.1923, 1 spec.; 14.06,
23.07.1930, 2 specs.

***Cybister lateralimarginalis* (De Geer 1774)** (box nr. 3)

[*Cybister laterimarginalis*], Sergheevca [Ucraina], 14.08.1924, 1 spec.;
27.07.1927, 1 spec.

***Dytiscus dimidiatus* Bergsträsser 1778** (box nr. 3)

[*Dytiscus dimidiatus*], Chişinău, 18.06.1923, 1 spec.; 13.07.1927, 1 spec.; 22.07.1930, 1 spec.; Lebediovka, Ucraina [Bad-Burnas], 22.07.1927, 1 spec.

***Graptodytes bilineatus* (Sturm 1835)** (box nr. 3)

[*Hydroporus bilineatus*], Chişinău, 12.09.1929, 1 spec.

***Hydaticus transversalis* (Pontoppidan 1763)** (box nr. 3)

[*Hydaticus transversalis*], Chişinău, 23.07.1930, 1 spec.

***Hydroglyphus geminus* (Fabricius 1792)** (box nr. 3)

[*Bidessus geminus*], Bularda, 17.04.1927, 1 spec.; Chişinău, 19.06, 11.07.1930, 2 specs.

***Hygrotus impressopunctatus* (Schaller 1783)** (box nr. 3)

[*Coelambus impressopunctatus*], Chişinău, 14.06.1930, 3 specs.; Dist. Kilia, Ucraina [Cara-Mahmed], 6.07.1929, 1 spec.; Reni [Ucraina], 19.07.1931, 1 spec.

***Hygrotus parallelogrammus* (Ahrens 1812)** (box nr. 3)

[*Coelambus parallelogram*], Dist. Kilia, Ucraina [Cara-Mahmed], 6.07.1929, 2 specs.

***Hydroporus angustatus* Sturm 1835** (box nr. 3)

[*Hydroporus angustatus*], Chişinău, 12.09.1929, 1 spec.

***Hydroporus fuscipennis* Schaum 1868** (box nr. 3)

[*Hydroporus fuscipennis*], Chişinău, 19.06.1930, 1 spec.

***Hydroporus obscurus* Sturm 1835** (box nr. 3)

[*Hydroporus obscurus*], Chişinău, 12.09.1929, 1 spec.; 23.07.1930, 2 specs.

***Ilybius subaeneus* Erichson 1837** (box nr. 3)

[*Ilybius subaeneus*], Chişinău, 5.08.1929, 1 spec.; Corneşti [Pereval], 28.08.1933, 1 spec.

***Laccophilus minutus* (Linnaeus 1758)** (box nr. 3)

[*Laccophilus obscurus*], Chişinău, 19.06, 11.07.1930, 9 specs.

***Laccophilus poecilus* Klug 1834** (box nr. 3)

[*Laccophilus variegatus*], Chişinău, 12.07.1930, 1 spec.

***Porhydrus lineatus* (Fabricius 1775)** (box nr. 3)

[*Hydroporus lineatus*], Hîrbovăţ, 11.10.1929, 1 spec.

***Rhantus exsoletus* (Forster 1771)** (box nr. 3)

[*Rhantus exoletus*], Chişinău, 18, 30.07.1932, 2 specs.

***Rhantus suturalis* (MacLeay 1825)** (box nr. 3)

[*Rhantus punctatus*], Chişinău, 18.08.1911, 1 spec.; Bularda, 17.04.1927, 2 specs.; Bender, 5.06.1931, 1 spec.; Orhei, 28.09.1932, 1 spec.

Family Elateridae

***Agriotes gurgistanus* (Faldermann 1835)** (box nr. 8)

[*Agriotes gurgistanus*], Chişinău, 22.08.1926, 1 spec.; Buşăuca, 24.07.1929, 3 specs.

***Agriotes lineatus* (Linnaeus 1767)** (box nr. 8)

[*Agriotes lineatus*], Bender, 6.05.1927, 3 specs.

***Agriotes sputator* (Linnaeus 1758)** (box nr. 8)

[*Agriotes sputator*], Chişinău, 9-22.04.1923, 1 spec.; 1.05.1925, 1 spec.; 15.04.1926, 1 spec.; Bender, 4-17.06.1924, 1 spec.; 24.05.1925, 1 spec.; 6.05.1927, 1 spec.; 10.05.1930, 1 spec.

***Agriotes ustulatus* (Schaller 1783)** (box nr. 8)

[*Agriotes ustulatus*], Răciula, 4.07.1909, 1 spec.; Chişinău, 24.06.1912, 1 spec.; 10.05, 10-24.06.1924, 2 specs.; Vadul-lui-Vodă, 11-24.06.1923, 1 spec.; Hîrbovăţ, 17.06.1928, 2 specs.

***Agriotes* sp.** (box nr. 8)

[*Agriotes* sp.], Corneşti [Pereval], 24.07.1933, 1 spec.; Corneşti, 22.05, 14.07.1936, 2 specs.; 2.07.1938, 1 spec.

***Agrypnus murinus* (Linnaeus 1758)** (box nr. 8)

[*Lacon murinus*], Chişinău, 21.05-5.06.1923, 1 spec.; Bender, 7.05.1927, 2 specs.; Lozova, 20.05.1929, 1 spec.; Dănceni, 20.05.1929, 1 spec.

***Ampedus glycereus* (Herbst 1784)** (box nr. 8)

[*Elater elongatulus*], Chişinău [Durleşti], 28.04-11.05.1924, 2 specs.; 24.05.1928, 1 spec.; 23.06.1933, 1 spec.; Chişinău, 30.05.1926, 1 spec.

***Ampedus pomonae* (Stephens 1830)** (box nr. 8)

[*Elater pomonae*], Bender, 7.06.1926, 8 specs.; 10.05.1930, 1 spec.

***Ampedus pomorum* (Herbst 1784)** (box nr. 8)

[*Elater ferrugatus*], Bularda, 15.09.1927, 1 spec.; Corneşti, 16.06.1937, 1 spec.

***Ampedus sanguineus* (Linnaeus 1758)** (box nr. 8)

[*Elater sanguineus*], Lozova, 26.11.1926, 1 spec.

***Ampedus sanguinolentus* (Schrank 1776)** (box nr. 8)

[*Elater sanguinolentus* a. *immaculatus*], Bender, 7.05.1927, 2 specs.; 10.05.1930, 1 spec.

***Athous haemorrhoidalis* (Fabricius 1801)** (box nr. 8)

[*Athous haemorrhoidalis*], Chişinău [Durleşti], 14.04.1922, 1 spec.; Chişinău, 10.05.1924, 2 specs.; Bender, 7.05.1927, 2 specs.; Lozova, 29.05.1927, 2 specs.; Căpriana, 30.05.1928, 1 spec.

***Athous lomnickii* Reitter 1905** (box nr. 8)

[*Athous lomnickii*], Chişinău, 18.06.1922, 1 spec.; 23.04-28.05.1923, 3 specs.; 4, 8.06.1924, 2 specs.; 7.06.1926, 1 spec.

***Cardiophorus vestigialis* Erichson 1840** (box nr. 8)

[*Cardiophorus erichsoni*], Chişinău, 9.05.1924, 1 spec.; 17.05.1925, 1 spec.; Bender, 7.05.1927, 1 spec.

[*Cardiophorus rufipes*], Chişinău, 15.04.1909, 1 spec.; 11.04.1910, 1 spec.; 24.05.1926, 1 spec.; 7.05.1929, 1 spec.; Hruşova, 16.05.1928, 1 spec.

***Cidnopus aeruginosus* (Olivier 1790)** (box nr. 8)

[*Limonium aeruginosus*], Bender, 7.05.1927, 1 spec.

***Cidnopus pilosus* (Leske 1785)** (box nr. 8)

[*Limonium pilosus*], Chişinău [Durleşti], 14.04.1922, 1 spec.; Suruceni, 19.05, 28.06.1923, 5 specs.; Goian, 11.05.1924, 1 spec.; 30.05.1928, 1 spec.; Dănceni, 25.05.1930, 1 spec.

***Cidnopus* sp.** (box nr. 8)

[*Limonium* sp.], Chişinău [Durleşti], 6.05.1928, 1 spec.; 17.05.1931, 1 spec.; Cricova, 26.04.1936, 2 specs.

***Dicronychus cinereus* (Herbst 1784)** (box nr. 8)

[*Cardiophorus cinereus*], Hruşova, 16.05.1928, 1 spec.; Căpriană, 30.05.1928, 1 spec.

***Dicronychus equiseti* (Herbst 1784)** (box nr. 8)

[*Cardiophorus equiseti luridipes*], Chişinău, 17.04.1909, 1 spec.

***Drasterius bimaculatus* (Rossi 1790)** (box nr. 8)

[*Drasterius bimaculatus*], Chişinău, 22.05.1908, 1 spec.; 18-30.04.1922, 1 spec.; 1-14.05.1923, 1 spec.; 3-16.05.1924, 1 spec.; 5-18.04.1927, 1 spec.; 12.04.1930, 1 spec.; Bender, 10.05.1930, 1 spec.

***Hemicrepidius hirtus* (Herbst 1784)** (box nr. 8)

[*Athous hirtus*], Chişinău, 16.06.1929, 1 spec.

***Limonium minutus* (Linnaeus 1758)** (box nr. 8)

[*Limonium minutus*], Chişinău, 25.04.1910, 1 spec.; 23.04-6.05.1923, 1 spec.; Chişinău [Durleşti], 9.05.1924, 2 specs.

***Melanotus brunnipes* (Germar 1824)** (box nr. 8)

[*Melanotus brunnipes*], Chişinău, 3.06.1922, 1 spec.; 11.05.1923, 1 spec.; 28.05.1925, 1 spec.; 3-19.09.1928, 1 spec.; Chişinău [Durleşti], 28.05.1925, 1 spec.; Bender, 7.06.1927, 2 specs.; Corneşti, 14.08.1937, 1 spec.

***Melanotus punctolineatus* (Pelerin 1829)** (box nr. 8)

[*Melanotus punctolineatus*], Hînceşti, 21.05.1922, 1 spec.; Hruşova, 11, 16.06.1928, 2 specs.

***Melanotus crassicornis* (Erichson 1841)** (box nr. 8)

[*Melanotus crassicornis*], Chişinău, 8-21.05.1922, 1 spec.; 14-27.05.1923, 2 specs.; 2, 4.06.1924 2 specs.; Hînceşti, 21.05.1922, 1 spec.

***Melanotus villosus* (Fourcroy 1785)** (box nr. 8)

[*Melanotus rufipes*], Chişinău [Durleşti], 25.04.1910, 1 spec.; 10.06, 29.07.1928, 2 specs.; Bender, 9.06.1926, 1 spec.; Dănceni, 9.06.1929, 1 spec.

***Melanotus* sp.** (box nr. 8)

[*Melanotus* sp.], Dist. Kilia, Ucraina [Cara-Mahmed], 3, 18.07.1927, 2 specs.; 8.07.1929, 1 spec.; 19.07.1931, 1 spec.; Belen'koe, Ucraina [Achembet], 28.07.1927, 1 spec.; 17.07.1928, 2 specs.; Lebediovka, Ucraina [Bad-Burnas], 3.08.1929, 1 spec.

***Negastrius* sp.** (box nr. 8)

[*Cryptohypnus* sp.], Chişinău, 17.04.1938, 1 spec.

***Nothodes parvulus* (Panzer 1799)** (box nr. 8)

[*Limonius parvulus*], Bularda, 19.05.1927, 2 specs.

***Prokraerus tibialis* (Lacordaire in Boisduval & Lacordaire 1835)**
(box nr. 8)

[*Prokraerus tibialis*], Chişinău, 17.05.1923, 1 spec.; Chişinău [Durleşti], 24.05.1928, 1 spec.

***Prosternon tessellatum* (Linnaeus 1758)** (box nr. 8)

[*Prosternon tessellatus* (= *corymbites*)], Chişinău, 25.04.1910, 1 spec.; 23.04-6.05.1923, 2 specs.; Chişinău [Durleşti], 4.05.1924, 2 specs.; 10.05.1925, 1 spec.; Suruceni, 10.04-28.05.1923, 1 spec.

***Selatosomus aeneus* (Linnaeus 1758)** (box nr. 8)

[*Selatosomus aeneus*], Cricova, 7.05.1939, 1 spec.

***Selatosomus cruciatus* (Linnaeus 1758)** (box nr. 8)

[*Selatosomus cruciatus*], Străşeni, 7.05.1937, 1 spec.

***Selatosomus gravidus* (Germar 1843)** (box nr. 8)

[*Selatosomus latus*], Chişinău, 20.04-4.05.1923, 2 specs.; 20.04, 9.06.1924, 2 specs.; 1.05.1925, 1 spec.; 6.07.1930, 1 spec.

***Synaptus filiformis* (Fabricius 1781)** (box nr. 8)

[*Synaptus filiformis*], Bender, 24.05.1925, 4 specs.; 6.05.1926, 1 spec.; 7.05.1927, 2 specs.

***Elateridae* sp.** (box nr. 8)

[*Elateridae* sp.], Dănceni, 28.06.1928, 1 spec.; Bender, 10.05.1930, 2 specs.; 5.06.1931, 2 specs.; Corneşti [Pereval], 29.07.1935, 1 spec.; Dănceni, 16.05.1937, 1 spec.; Chişinău, 17.04, 10.05.1938, 3 specs.; Corneşti, 16.06.1938, 1 spec.; Bularda, 17.07.1939, 1 spec.

Family Endomychidae

***Endomychus coccineus* (Linnaeus 1758)** (box nr. 9)

[*Endomychus coccineus*], Bularda, 19.04.1927, 1 spec.

***Lycoperdina succincta* (Linnaeus 1767)** (box nr. 9)

[*Lycoperdina succincta*], Chişinău, 14.09.1930, 11 specs.

Family Erirhinidae

***Notaris scirpi* (Fabricius 1793)** (box nr. 16)

[*Notaris scirpi*], Corneşti [Pereval], 15.08.1931, 1 spec.

Family Erotylidae

***Dacne bipustulata* (Thunberg 1781)** (box nr. 16)

[*Dacne bipustulata*], Bender, 7.05.1928, 1 spec.

***Dacne rufifrons* (Fabricius 1775)** (box nr. 16)

[*Dacne rufifrons*], Bender, 6.06.1926, 1 spec.

***Triplax rufipes* (Fabricius 1787)** (box nr. 16)

[*Triplax rufipes*], Chişinău, 2-15.05.1923, 1 spec.

***Triplax russica* (Linnaeus 1758)** (box nr. 16)

[*Triplax russica*], Chişinău, 25.06.1931, 3 specs.

***Triplax* sp.** (box nr. 16)

[*Triplax* sp.], Cornești, 26.07.1936, 1 spec.; Cornești [Pereval], 22.08.1938. 1 spec.

Family Eucnemidae

***Melasis buprestoides* (Linnaeus 1761)** (box nr. 16)

[*Melasis buprestoides*], Chișinău, 26.11.1938, 1 spec.

Family Geotrupidae

***Anoplotrupes stercorosus* (Scriba 1791)** (box nr. 4)

[*Geotrupes stercorosus*], Palanca, 10.10.1927, 3 specs.; Chișinău, 15.04.1929, 1 spec.; Cornești [Pereval], 26.06.1938, 1 spec.; Cornești, 6.07.1938, 1 spec.

***Bolbelasmus unicornis* Schrank 1789** (box nr. 4)

[*Bolbelasmus unicolor*], Chișinău, 11.07.1911, 1 spec.; Dănceni, 31.05.1929, 1 spec.; Bularda, 16.06.1931, 7 specs.

***Geotrupes mutator* (Marsham 1802)** (box nr. 4)

[*Geotrupes mutator*], Chișinău [Durlești], 10.04.1923, 1 spec.; 14.04, 12.05.1928, 2 specs.; Chișinău, 4.04, 10.05, 12.07.1925, 3 specs.; 1.09.1928, 1 spec.; Lozova, 23.05.1927, 1 spec.

***Geotrupes puncticollis* Malinowsky 1811** (box nr. 4)

[*Geotrupes spiniger*], Ialoveni, 16.07.1924, 1 spec.

***Geotrupes stercorarius* (Linnaeus 1758)** (box nr. 4)

[*Geotrupes stercorarius*], Chișinău, 10.10.1923, 1 spec.; 1.05.1925, 1 spec.; 14.05.1926, 1 spec.

***Lethrus cephalotes* (Pallas 1771)** (box nr. 4)

[*Lethrus cephalotes*], Chișinău, 17.05.1923, 1 spec.; 11, 20.04.1924, 2 specs.; Chișinău [Durlești], 10.07.1925, 1 spec.

***Trypocopris vernalis caspius* (Motschulsky 1845)** (box nr. 5)

[*Aphodius caspius*], Chișinău, 17.10.1926, 4 specs.; 20.10.1929, 1 spec.

Family Gyrinidae

***Gyrinus minutus* Fabricius 1798** (box nr. 3)

[*Gyrinus minutus*], Chişinău, 12.05.1924, 1 spec.; no locality and date, 1 spec.

***Gyrinus natator* (Linnaeus 1758)** (box nr. 3)

[*Gyrinus natator*], Chişinău, 2.04.1925, 3 specs.; 20.10.1929, 1 spec.

Family Haliplidae

***Haliplus fulvus* (Fabricius 1801)** (box nr. 3)

[*Haliplus fulvus*], Chişinău, 12.09.1929, 1 spec.

***Haliplus obliquus* (Fabricius 1787)** (box nr. 3)

[*Haliplus amoenus*], Chişinău, 19.06, 11.07.1930, 9 specs.

***Haliplus ruficollis* (De Geer 1774)** (box nr. 3)

[*Haliplus ruficollis*], Chişinău, 17, 19.06, 11, 12.07.1930, 6 specs.

Family Heteroceridae

***Heterocerus fenestratus* (Thunberg 1784)** (box nr. 7)

[*Heterocerus fenestratus*], Bender, 7.06.1926, 1 spec.

***Heterocerus* sp.** (box nr. 7)

[*Heterocerus* sp.], Lebediovka, Ucraina [Bad-Burnas], 4.08.1929, 1 spec.

Family Histeridae

***Atholus corvinus* (Germar 1817)** (box nr. 3)

[*Hister corvinus*], Bender, 18-31.03.1924, 1 spec.

***Atholus duodecimstriatus* (Schränk 1781)** (box nr. 3)

[*Hister 12-striatus*], Chişinău, 21.04-5.05.1924, 1 spec.; Chişinău [Durleşti], 6.05.1928, 1 spec.

***Chalcionellus amoenus* (Erichson 1834)** (box nr. 3)

[*Saprinus amoenus*], Corneşti, 14.07.1936, 1 spec.

[*Saprinus conjugens*], Bender, 6.05.1927, 3 specs.; Chişinău [Durleşti], 6.05.1928, 2 specs.; 9.05.1929, 10 ex; Chişinău, 27.05, 10.06, 1.07.1928, 3 specs.; Dănceni, 4.06.1928, 5 specs.; Cricova, 31.05.1936, 3 specs.; Corneşti, 16.06.1937, 2 specs.

***Eblisia minor* (Rossi 1792)** (box nr. 3)

[*Platysoma frontale*], Hînceşti, 30.04-13.05.1928, 1 spec.; Bularda, 8.05, 29.06.1928, 2 specs.

***Eudiplister planulus* (Menetries 1848)** (box nr. 3)

[*Hister planulus*], Hruşova, 12, 14.06.1928, 2 specs.

[*Hister coquereli*], Chişinău, 13.05.1925, 1 spec.; Hruşova, 12.06.1928, 1 spec.

***Hister bipunctatus* Paykull 1811** (box nr. 3)

[*Hister bipustulatus* (= *firmetarius*)], Chişinău, 25.06.1904, 1 spec.; 24.03.1906, 1 spec.; 4.04.1909, 1 spec.; 2-20.04.1924, 2 specs.; Hînceşti, 12.03-30.04.1923, 2 specs.

***Cercyon* sp.** (box nr. 3)

[*Cercyon* sp.], Chişinău, 23.09.1917, 1 spec.; 2-15.05.1923, 1 spec.

***Enochrus affinis* (Thunberg 1794)** (box nr. 3)

[*Enochrus* (= *Philydrus*) *minutus*], Chişinău, 9-22.04.1923, 1 spec.; 19.06.1930, 3 specs.; Lebediovka, Ucraina [Bad-Burnas], 4.08.1929, 1 spec.

***Enochrus coarctatus* (Gredler 1863)** (box nr. 16)

[*Enochrus* (= *Philydrus*) *coarctatus*], Vadul-lui-Vodă, 4.08.1929, 1 spec.

***Enochrus melanocephalus* (Olivier 1792)** (box nr. 3)

[*Enochrus* (= *Philydrus*) *melanocephalus*], Chişinău, 19.06.1930, 1 spec.

***Enochrus ochropterus* (Marsham 1802)** (box nr. 3)

[*Enochrus* (= *Philydrus*) *frontalis*], Chişinău, 12.05.1924, 1 spec.; 19.06.1930, 1 spec.

***Enochrus testaceus* (Fabricius 1801)** (box nr. 3)

[*Enochrus* (= *Philydrus*) *testaceus*], Chişinău, 9-2.04.1923, 1 spec.; 19.06.1930, 4 specs.; Corneşti, 11.06.1933, 1 spec.; Corneşti [Pereval], 28.07.1933, 1 spec.; Lebediovka, Ucraina [Bad-Burnas], 6.07, 4.08.1929, 2 specs.

***Helophorus aequalis* Thomson 1868** (box nr. 3)

[*Helophorus aquaticus*], Chişinău, 17.04-3.05.1924, 2 specs.; 11.04.1929, 3 specs.

***Helophorus griseus* Herbst 1793** (box nr. 3)

[*Helophorus griseus*], Chişinău, 30.04.1906, 1 spec.; 19.06.1930, 1 spec.; Răciula, 8.06.1908, 1 spec.; Corneşti [Pereval], 28.07.1939, 3 specs.

***Helophorus granularis* (Linnaeus 1760)** (box nr. 3)

[*Helophorus granularis*], Răciula, 7.06.1908, 1 spec.; Chişinău, 19.06.1930, 3 specs.

***Helophorus fuscipes* (Linnaeus 1758)** (box nr. 3)

[*Hydrobius fuscipes*], Chişinău, 9-22.04.1923, 2 specs.; 2.08.1927, 1 spec.; 19.07.1928, 1 spec.; 19.06, 23.07.1930, 2 specs.; Corneşti [Pereval], 28.06, 26.07.1933, 2 specs.; Corneşti, 12.07.1936, 1 spec.

***Hydrophilus piceus* (Linnaeus 1758)** (box nr. 3)

[*Hydrous piceus*], Chişinău, 4.07.1911, 1 spec.; Lebediovka, Ucraina [Bad-Burnas], 11.08.1929, 1 spec.

***Hydrophilus aterrimus* (Eschscholtz 1822)** (box nr. 3)

[*Hydrous aterrimus*], Orhei, 28.09.1932, 1 spec.

***Limnoxenus niger* (Zschach 1788)** (box nr. 3)

[*Limnoxenus niger*], Lebediovka, Ucraina [Bad-Burnas], 4.08.1929, 1 spec.

***Laccobius bipunctatus* (Fabricius 1775)** (box nr. 3)

[*Laccobius alutaceus*], Chişinău, 12.05.1929, 1 spec.; 19.06.1930, 1 spec.; Lebediovka, Ucraina [Bad-Burnas], 4.08.1929, 1 spec.

***Laccobius scutellaris* Motschulsky 1855** (box nr. 16)

[*Laccobius scutellaris*], Cornești [Pereval], 28.07.1933, 1 spec.

***Sphaeridium bipustulatum* Fabricius 1781** (box nr. 3)

[*Sphaeridium bipustulatum*], Răciula, 6.06.1908, 1 spec.; Bender, 18-31.03.1924, 1 spec.; Chișinău, 21.04-5.05.1924, 1 spec.

***Sphaeridium scarabaeoides* (Linnaeus 1758)** (box nr. 3)

[*Sphaeridium scarabaeoides*], Chișinău, 18.04-1.05.1923, 3 specs.; 21.04-5.05.1924, 1 spec.; Chișinău [Durlești], 4.05.1924, 1 spec.; 29.09.1929, 1 spec.

Hydrophilidae sp. (box nr. 16)

[Hydrophilidae sp.], Dănceni, 21.05.1922, 1 spec.; Cornești [Pereval], 28.07.1933, 3 specs.; Cornești, 20.06.1937, 2 specs.

Family Kateretidae

***Kateretes pusillus* (Thunberg 1794)** (box nr. 8)

[*Cateretes bipustulatus*], Răciula, 7.06.1908, 1 spec.; Onișcani, 4.09.1917, 3 specs.; Chișinău, 12.05.1936, 2 specs.

Family Lampyridae

***Lampyris noctiluca* (Linnaeus 1767)** (box nr. 7)

[*Lampyris noctiluca*], Bender, 15.04.1908, 1 spec.; Izvoare, 29.06.1926, 1 spec.; 17.07.1927, 1 spec.; Cricova, 10.04.1938, 1 spec.

Family Latridiidae

***Cartodere nodifer* (Westwood 1839)** (box nr. 9)

[*Lathridius nodifer*], Onișcani, 4.09.1917, 1 spec.

***Cartodere* sp.** (box nr. 9)

[*Lathridius* sp.], Chișinău, 23.04.1923, 4 specs.; 21.04-5.05.1924, 1 spec.; Bender, 3.05.1930, 1 spec.

***Corticaria pubescens* (Gyllenhal 1827)** (box nr. 9)

[*Corticaria pubescens*], Chișinău, 15.07.1920, 1 spec.; 25.04.1928, 1 spec.

Family Leiodidae

***Agathidium laevigatum* Erichson 1845** (box nr. 16)

[*Agathidium laevigatum*], Chişinău, 20.06.1929, 1 spec.

Family Lucanidae

***Dorcus parallelipedus* (Linnaeus 1785)** (box nr. 4)

[*Dorcus parallelopipedus*], Bender, 22, 25.05.1925, 4 specs.; Chişinău [Durleşti], 10.06.1929, 1 spec.

***Lucanus cervus* (Linnaeus 1758)** (box nr. 4)

[*Lucanus cervus*], Chişinău, 28.05-10.06.1923, 1 spec.; 5.06.1924, 1 spec.; 14.06.1925, 1 spec.; Chişinău [Durleşti], 10.07.1932, 2 specs.

***Platycerus caraboides* (Linnaeus 1758)** (box nr. 4)

[*Platycerus caraboides*], Chişinău [Durleşti], 4.05.1924, 6 specs.; 9.05.1929, 1 spec.; 17.05.1931, 2 specs.

Family Lyctidae

***Lyctus linearis* (Goeze 1777)** (box nr. 7)

[*Lyctus linearis*], Chişinău, 15.05.1908, 2 specs.; 2-19.05.1923, 1 spec.

Family Lymexylidae

***Hylecoetus dermestoides* (Linnaeus 1861)** (box nr. 7)

[*Elateroides* (= *Hylecoetus*) *dermestoides*], Chişinău, 12.04.1927, 1 spec.

Family Malachiidae

***Ebaeus pedicularius* (Fabricius 1777)** (box nr. 7)

[*Ebaeus pedicularius*], Izvoare, 25.06.1929, 1 spec.

***Anthocomus equestris* (Fabricius 1781)** (box nr. 7)

[*Anthocomus bipunctatus*], Chişinău, 30, 31.05.1926, 2 specs.; 1.07.1928, 1 spec.; Chişinău, 31.05.1926, 1 spec.; Dănceni, 9.06.1929, 1 spec.

***Axinotarsus marginalis* (Laporte de Castelnau 1840)** (box nr. 7)

[*Anthocomus marginalis*], Bender, 7.06.1926, 1 spec.

***Apalochrus femoralis* (Erichson 1840)** (box nr. 7)

[*Paratinus femoralis*], Bender, 4-17.06.1924, 1 spec.

***Apalochrus fulvicollis* (Gebler 1845)** (box nr. 7)

[*Paratinus fulvicollis*], Sergheevca [Ucraina], 27.07.1927, 1 spec.

***Clanoptilus geniculatus* (Germar 1824)** (box nr. 7)

[*Malachius geniculatus*], Bender, 7.06.1926, 1 spec.

***Cordylepherus viridis* (Fabricius 1787)** (box nr. 7)

[*Malachius viridis*], Chişinău, 8-21.05.1923, 1 spec.; 28.06.1924, 1 spec.

***Malachius aeneus* (Linnaeus 1758)** (box nr. 7)

[*Malachius aeneus*], Chişinău, 9-18.06.1922, 1 spec.; 2.05-3.06.1923, 2 specs.; 20.05.1924, 3 specs.; Bender, 07.06.1926, 1 spec.; Dist. Chilia, Ucraina [Cara-Mahmed], 1.07.1929, 1 spec.

***Malachius bipustulatus* (Linnaeus 1758)** (box nr. 7)

[*Malachius bipustulatus*], Bender, 7, 9.06.1926, 2 specs.; 7.05.1927, 2 specs.

Malachiidae sp. (box nr. 7)

[Melyridae sp.], Chişinău, 9.06.1922, 1 spec.; 30.04-13.05.1923, 3 specs.; 19.05.1924, 1 spec.; 11.07, 22.09.1926, 2 specs.; 2.09.1929, 1 spec.; Bender, 4-17.04.1924, 3 specs.; 3.05.1926, 1 spec.; Suruceni, 4.06.1928, 1 spec.; Chişinău [Durleşti], 16.06.1929, 3 specs.; 23.06.1933, 1 spec.; Corneşti [Pereval], 2.08.1935, 1 spec.; Corneşti, 12, 14.07.1936, 2 specs.

Family Melandryidae

***Melandrya caraboides* (Linnaeus 1760)** (box nr. 10)

[*Helops caraboides*], Chişinău, 8.05.1900, 1 spec.; 11.03-26.04.1923, 1 spec.; 20.04, 11.05.1924, 2 specs.; 3.05.1925, 1 spec.; Bender, 18-31.03.1922, 1 spec.; Dănceni, 31.03-13.04.1923, 1 spec.

Family Meloidae

***Alosimus chalybaeus* (Tauscher 1812)** (box nr. 10)

[*Alosimus chalybaeus*], Suruceni, 28.06.1923, 3 specs.; Bender, 14.07.1923, 1 spec.; Chişinău, 22, 30.05.1924, 2 specs.; 6.06.1926, 1 spec.; Dănceni, 3, 10.06.1929, 2 specs.; 15.05.1938, 1 spec.; Goian, 3.06.1929, 2 specs.

***Alosimus syriacus* (Linnaeus 1758)** (box nr. 10)

[*Alosimus syriacus*], Bender, 14.05.1924, 1 spec.; Chişinău, 14, 19.05.1924, 2 specs.; 14.05.1931, 1 spec.; Dănceni, 15.05.1938, 1 spec.; Chişinău [Durleşti], 21.05.1939, 1 spec.

***Cerocoma muehlfeldi* Gyllenhal 1817** (box nr. 10)

[*Cerocoma muehlfeldi*], Dănceni, 24, 28.06.1928, 2 specs.; 10.06.1929, 1 spec.; 20.06.1930, 1 spec.; Hruşova, 9.05.1929, 1 spec.; Chişinău, 17.07.1932, 1 spec.

***Cerocoma schaefferi* (Linnaeus 1758)** (box nr. 10)

[*Cerocoma schaefferi*], Chişinău [Durleşti], 4.06.1928, 1 spec.; Hruşova, 17.07.1932, 3 specs.; Corneşti [Pereval], 19.07.1933, 1 spec.; Corneşti, 14.06.1937, 1 spec.

***Euzonitis quadrimaculata* (Pallas 1782)** (box nr. 10)

[*Euzonitis bifasciata*], Dănceni, 4.06.1928, 1 spec.; 17.06.1929, 2 specs.; Chişinău [Durleşti], 9.05.1929, 1 spec.; Butovca [Ucraina], 2.06.1930, 1 spec.

[*Euzonitis 4-punctata*], Suruceni, 25.05-10.06.1923, 1 spec.

***Lydus europaeus* Escherich 1896** (box nr. 10)

[*Lydus europaeus*], Dănceni, 24.06.1928, 1 spec.; 3.06.1929, 1 spec.

***Lydus quadrimaculatus* Tauscher 1812** (box nr. 10)

[*Lydus 4-maculatus*], Bender, 1-14.07.1923, 1 spec.; Chişinău, 4.07.1924, 1 spec.; 15.07.1936, 1 spec.; Goian, 20.07-3.08.1924, 1 spec.

***Lytta vesicatoria* (Linnaeus 1758)** (box nr. 10)

[*Lytta vesicatoria*], Chişinău, 28.05.1923, 1 spec.; Dănceni, 9.06.1929, 1 spec.

***Meloe proscarabaeus* Linnaeus 1758** (box nr. 10)

[*Meloe proscarabaeus*], Chişinău, 3.04.1925, 1 spec.; 30.04.1929, 1 spec.

***Meloe cicatricosus* Leach 1815** (box nr. 10)

[*Meloe cicatricosus*], Bularda, 5.05.1928, 1 spec.; 17.05.1929, 1 spec.

***Meloe violaceus* Marsham 1802** (box nr. 10)

[*Meloe violaceus*], Chişinău, 5-18.04.1924, 1 spec.; 30.04.1928, 1 spec.

***Meloe decorus* Brandt & Erichson 1832** (box nr. 10)

[*Meloe decorus*], Chişinău, 29.03-05.04.1923, 1 spec.; 17.04.1924, 2 specs.; 3.03, 4.04.1925, 2 specs.

***Meloe* sp.** (box nr. 10)

***Mylabris pusilla* Olivier 1811** (box nr. 10)

[*Mylabris pusilla*], Hruşova, 7.01, 29.06.1928, 2 specs.; Dist. Chilia, Ucraina [Cara-Mahmed], 13.07.1929, 1 spec.

***Mylabris variabilis* (Pallas 1781)** (box nr. 10)

[*Mylabris variabilis*], Bender, 1-14.07.1923, 1 spec.; Chişinău, 20.06.1924, 2 specs.; 29.06.1928, 1 spec.; Goian, 4.07.1924, 1 spec.; Hruşova, 27.07.1926, 1 spec.

***Sitaris muralis* (Forster 1771)** (box nr. 10)

[*Harpalus* (= *Sitaris*) *muralis*], Chişinău, 22.07-04.08.1923, 1 spec.

***Stenodera caucasica* (Pallas 1781)** (box nr. 10)

[*Stenodera caucasica*], Chişinău, 15-28.05.1923, 1 spec.; 10.05.1928, 1 spec.; Bender, 7.06.1926, 4 specs.; Dănceni, 4.06.1928, 1 spec.

Family Melolonthidae

***Amphimallon solstitiale* (Linnaeus 1758)** (box nr. 6)

[*Amphimallon solstitialis*], Goian, 11-24.06.1923, 5 specs.; Chişinău [Durleşti], 5.08.1926, 1 spec.; 21.05.1938, 1 spec.; Dănceni,

28.06.1928, 1 spec.; Cricova, 10.04.1938, 2 specs.; Butovca [Ucraina], 2.06.1930, 1 spec.

***Anoxia orientalis* (Krynicky 1832)** (box nr. 6)

[*Anoxia orientalis*], Sergheevca [Ucraina], 17, 29.07.1928, 5 specs.

***Anoxia pilosa* (Fabricius 1792)** (box nr. 6)

[*Anoxia pilosa*], Bugaz [Ucraina], 4.07.1926, 1 spec.

***Holochelus aequinoctialis* (Herbst 1790)** (box nr. 6)

[*Miltotrogus aequinoctialis*], Chişinău, 16.06.1910, 1 spec.; 18-30.04.1922, 4 specs.; 6.04-24.05.1923, 4 specs.; 4.04.1925, 1 spec.; Chişinău [Durleşti], 9.05.1929, 1 spec.; Corneşti, 8.06.1927, 1 spec.

***Maladera holosericea* (Scopoli 1772)** (box nr. 6)

[*Maladera holosericea*], Chişinău, 4.06.1924, 1 spec.; 21.05.1928, 1 spec.; 29.05.1930, 1 spec.; Chişinău [Durleşti], 10.05.1928, 1 spec.; Hînceşti, 15.05.1931, 5 specs.

***Melolontha hippocastani* Fabricius 1801** (box nr. 6)

[*Melolontha hippocastani*], Căpriana, 30.05.1928, 2 specs.; Dănceni, 31.05.1929, 2 specs.; 22.05.1932, 2 specs.

***Melolontha melolontha* (Linnaeus 1758)** (box nr. 6)

[*Melolontha melolontha*], Chişinău, 18-31.04.1922, 1 spec.; Bender, 7.05.1927, 1 spec.; 10.05.1930, 1 spec.; Dănceni, 10.05.1935, 1 spec.

***Omaloplia erythroptera* Frivaldszky 1835** (box nr. 6)

[*Homalopia erythroptera*], Suruceni, 10.04-28.05.1923, 1 spec.; 28.05-10.06.1929, 1 spec.; Corneşti, 10.06.1931, 3 specs.

***Omaloplia spireae* (Pallas 1776)** (box nr. 6)

[*Homalopia spireae*], Chişinău, 21.05.1900, 1 spec.; Dănceni, 24, 28.06.1928, 7 specs.

***Polyphylla fullo* (Linnaeus 1758)** (box nr. 6)

[*Polyphylla fullo*], Belen'koe, Ucraina [Achembet], 17.07.1928, 1 ex; Sergheevca [Ucraina], 29.07.1928, 2 specs.

[*Polyphylla fullo* ab. *luctuosa*], Şabo [Ucraina], 5.07.1920, 1 spec.

***Rhizotrogus aestivus* (Olivier 1789)** (box nr. 6)

[*Rhizotrogus aestivus*], Chişinău, 1, 8.05.1923, 4 specs.; 10.05.1924, 1 spec.; 14.04.1928, 1 spec.; Dănceni, 4.06.1928, 1 spec.

Family Monotomidae

***Monotoma picipes* Herbst 1793** (box nr. 9)

[*Monotoma picipes*], Chişinău, 25.04.1908, 1 spec.

Family Mordellidae

***Hoshihananomia perlata* (Sulzer 1776)** (box nr. 9)

[*Mordella perlata*], Bender, 24.05.1925, 1 spec.; 7.06.1926, 3 specs.

***Mordella aculeata* Linnaeus 1758** (box nr. 9)

[*Mordella aculeata*], Răciula, 6.06.1908, 1 spec.; Bender, 24.05.1925, 1 spec.

***Mordellistena pumila* (Gyllenhal 1810)** (box nr. 9)

[*Mordella pumila*], Chişinău [Durleşti], 25.05.1924, 1 spec.; Chişinău, 10.06.1924, 1 spec.; 21.05.1925, 1 spec.; 6.06.1926, 1 spec.; Bender, 14.06.1924, 1 spec.

***Variimorda villosa* (Schrank 1781)** (box nr. 9)

[*Mordella fasciata*], Bender, 14.07.1923, 1 spec.; 14.06.1924, 4 specs.; 4.06.1928, 3 specs.

Family Mycetophagidae

***Mycetophagus piceus* (Fabricius 1777)** (box nr. 9)

[*Mycetophagus piceus*], Bender, 7.06.1926, 2 specs.; 13.07.1927, 1 spec.; 10.05.1930, 1 spec.

***Mycetophagus quadripustulatus* (Linnaeus 1761)** (box nr. 9)

[*Mycetophagus 4-pustulatus*], Chişinău, 17.06.1923, 1 spec.; 20.05.1926, 1 spec.; Bularda, 24.05.1927, 1 spec.; 1.05.1938, 1 spec.

***Mycetophagus* sp.** (box nr. 9)

[*Mycetophagus* sp.], Chişinău, 7.08.1930, 1 spec.; Bender, 5.07.1931, 1 spec.; Corneşti [Pereval], 29.07.1938, 1 spec.

Family Mycteridae

***Mycterus curculioides* (Fabricius 1781)** (box nr. 9)

[*Mycterus curculioides*], Bender, 17.06.1924, 1 spec.; Dănceni, 24.06.1928, 1 spec.; Chişinău [Durleşti], 9.05.1928, 1 spec.

Family Nemonychidae

***Nemonyx lepturoides* (Fabricius 1801)** (box nr. 14)

[*Nemonyx lepturoides*], Corneşti, 16.07.1936, 1 spec.

Family Nitidulidae

***Amphotis marginata* (Fabricius 1781)** (box nr. 8)

[*Amphotis marginata*], Hruşova, 30.06.1928, 1 spec.

***Amphotis* sp.** (box nr. 8)

[*Amphotis* sp.], Bularda, 17.06.1914, 1 spec.; Chişinău, 20.06.1924, 1 spec.; 20.06.1929, 1 spec.; 9.05, 19.06.1930, 2 specs.; 16.06.1933, 1 spec.; Zloţi, 25.06.1927, 1 spec.; Corneşti [Pereval], 19.07.1933, 1 spec.; Dănceni, 15.05.1938, 1 spec.

***Epuraea guttata* (Olivier, 1811)** (box nr. 9)

[*Epuraea 10-guttata*], Chişinău, 13.05.1923, 1 spec.

***Epuraea terminalis* Mannerheim 1843** (box nr. 9)

[*Epuraea terminalis*], Chişinău, 5.05.1924, 6 specs.

***Nitidula carnaria* (Schaller 1783)** (box nr. 9)

[*Nitidula carnaria*], Chişinău, 3-16.04.1924, 1 spec.

***Nitidula rufipes* (Linnaeus 1767)** (box nr. 9)

[*Nitidula rufipes*], Chişinău, 5.05.1924, 5 specs.

***Omosita colon* (Linnaeus 1758)** (box nr. 9)

[*Omosita colon*], Chişinău, 16.05.1924, 1 spec.

***Soronia grisea* (Linnaeus 1758)** (box nr. 9)

[*Soronia grisea*], Chişinău, 30.04-13.05.1923, 6 specs.; 20.04.1924, 1 spec.

Family Noteridae

***Noterus clavicornis* (De Geer 1774)** (box nr. 3)

[*Noterus clavicornis*], Chişinău, 12.07.1924, 3 specs.; Reni [Ucraina], 19.07.1931, 1 spec.

Family Ochodaeidae

***Codocera ferruginea* (Eschscholtz 1818)** (box nr. 4)

[*Codocera ferruginea*], Bender, 4.07.1923, 1 spec.; Chişinău, 6.07, 5, 26.08.1928, 3 specs.; 3.08.1929, 2 specs.; 19.08.1930, 1 spec.

Family Oedemeridae

***Ischnomera caerulea* (Linnaeus 1758)** (box nr. 9)

[*Ischnomera caerulea*], Chişinău, 18.04-1.05.1923, 2 specs.; 16.05.1924, 1 spec.; Chişinău [Durleşti], 4.05.1924, 3 specs.; 23.04.1939, 1 spec.

***Oedemera femorata* (Scopoli 1763)** (box nr. 9)

[*Oedemera flavescens*], Chişinău, 21.05.1923, 3 specs.; 30.05.1924, 1 spec.; 11.07.1926, 1 spec.

***Oedemera lurida* (Marsham 1802)** (box nr. 9)

[*Oedemera lurida*], Chişinău, 5.06.1922, 1 spec.; 2, 17.06, 3.07.1924, 3 specs.; 1.05.1925, 2 specs.

***Oedemera podagrariae* (Linnaeus 1767)** (box nr. 9)

[*Oedemera podagrariae*], Suruceni, 28.05.1923, 2 specs.; 21.06.1928, 2 specs.; Chişinău, 10.06.1923, 1 spec.; 22.06.1924, 1 spec.; Chişinău [Durleşti], 18.06.1928, 2 ex

***Oedemera virescens* (Linnaeus 1767)** (box nr. 9)

[*Oedemera virescens*], Chişinău, 1.05, 3.06.1923, 3 specs.; 23.06.1930, 3 specs.

Family Phalacridae

***Olibrus corticalis* (Panzer 1797)** (box nr. 9)

[*Olibrus corticalis*], Onişcani, 23.09.1917, 3 specs.

***Olibrus bisignatus* (Ménétriés 1849)** (box nr. 9)

[*Olibrus bisignatus*], Onișcani, 23.09.1917, 1 spec.

***Olibrus* sp.** (box nr. 9)

[*Olibrus* sp.], Cornești [Pereval], 28.07.1933, 1 spec.; Chișinău, 10.05.1938, 2 specs.; 24.04.1939, 6 specs.

***Phalacrus corruscus* (Panzer 1797)** (box nr. 9)

[*Phalacrus corruscus*], Chișinău, 18.04.1922, 1 spec.; 27.04.1925, 1 spec.; Chișinău [Durlești], 11.05.1924, 1 spec.; Bender, 31.03.1924, 1 spec.; Goian, 11.05.1924, 1 spec.

Family Pyrochroidae

***Pyrochroa serraticornis* (Scopoli 1763)** (box nr. 9)

[*Pyrochroa serraticornis*], Chișinău [Durlești], 10.05.1925, 1 spec.; Bender, 6, 7.05.1927, 6 specs.

Family Rhynchitidae

***Byctiscus betulae* (Linnaeus 1758)** (box nr. 14)

[*Byctiscus betulae*], Goian, 2.04.1904, 1 spec.; Chișinău, 19.04-09.05.1923, 3 spec.; 9-27.04.1924, 1 spec.; 13.05.1925, 2 specs.; Bender, 7.06.1926, 1 spec.

[*Byctiscus betulae* ab. *violaceus*], Chișinău, 3.06.1922, 1 spec.; 18.04-6.05.1923, 2 specs.; Bender, 6.05.1926, 1 spec.

***Byctiscus populi* (Linnaeus 1758)** (box nr. 14)

[*Byctiscus populi*], Chișinău, 20.04-3.05.1923, 2 specs.; 20.05.1926, 2 specs.; Chișinău

[Durlești], 9.05.1929, 1 spec.; Cornești, 8.06.1937, 3 specs.

***Chonostropheus tristis* (Fabricius 1794)** (box nr. 14)

[*Deporaus tristis*], Chișinău [Durlești], 2-24.05.1922, 1 spec.; 6.05.1928, 1 spec.; 26.05.1929, 1 spec.; Chișinău, 14-27.04.1923, 1 spec.; 4.05, 6.07.1930, 2 specs.

***Deporaus betulae* (Linnaeus 1758)** (box nr. 14)

[*Deporaus betulae*], Chișinău, 19.04-13.05.1923, 2 specs.; Cornești, 27.05.1936, 1 spec.

***Haplorhynchites caeruleus* (De Geer 1775)** (box nr. 14)

[*Rhynchites coeruleus*], Goian, 2.04.1914, 1 spec.; Chişinău, 28.05.1925, 2 specs.; Bender, 9.06.1926, 1 spec.; Zloţi, 25.06.1927, 2 specs.; Chişinău [Durleşti], 24.05.1928, 2 specs.; 9.05.1929, 2 specs.; 8.05.1932, 1 spec.

***Haplorhynchites pubescens* (Fabricius 1775)** (box nr. 14)

[*Rhynchites pubescens*], Chişinău – Hînceşti, 28.04-11.05.1924, 1 spec.; Chişinău [Durleşti], 6, 9, 24.05.1928, 4 specs.; Cricova, 26.04.1936, 1 spec.; Dănceni, 16.05.1937, 1 spec.

***Lasiorrhynchites olivaceus* (Gyllenhal 1833)** (box nr. 14)

[*Lasiorrhynchites olivaceus*], Chişinău [Durleşti], 10.04.1927, 1 spec.

***Mecorhis ungarica* (Herbst 1784)** (box nr. 14)

[*Rhynchites hungaricus*], Bender, 8.06.1926, 3 specs.

***Neocoenorrhinus aeneovirens* (Marshall 1802)** (box nr. 14)

[*Coenorrhinus aeneovirens*], Goian, 11.05.1924, 1 spec.; Chişinău [Durleşti], 10.05.1927, 1 spec.; 9.05.1929, 1 spec.

***Neocoenorrhinus pauxillus* (Germar 1824)** (box nr. 14)

[*Coenorrhinus pauxillus*], Chişinău [Durleşti], 23.04-6.05.1921, 1 spec.; Chişinău, 10.05.1924, 1 spec.; 7.05.1925, 1 spec.; 16-24.03.1928, 1 spec.; Dănceni, 16.05.1937, 1 spec.

***Rhynchites auratus* (Scopoli 1763)** (box nr. 14)

[*Rhynchites auratus*], Chişinău, 6.05.1910, 1 spec.; 11.05-9.07.1924, 3 specs.; 27.04-1.05.1925, 2 specs.; Chişinău [Durleşti], 9.05.1924, 1 spec.; Dănceni, 15.05.1938, 1 spec.

***Rhynchites bacchus* (Linnaeus 1758)** (box nr. 14)

[*Rhynchites bacchus*], Chişinău, 30.05.1922, 1 spec.; 10-23.03, 15-28.10.1923, 2 specs.; 29.04.1924, 1 spec.; 22.05.1926, 1 spec.; Goian, 20.07.1924, 1 spec.; Bender, 20.02.1925, 1 spec.

***Rhynchites giganteus* Krynicki 1832** (box nr. 14)

[*Rhynchites giganteus*], Bender, 1.05.1904, 1 spec.; Chişinău – Hînceşti, 20.06-3.07.1904, 1 spec.; Chişinău, 27.04-1.05.1925, 2 specs.; 5.08.1928, 1 spec.; Dănceni, 9.06.1929, 1 spec.

Family Rutelidae

***Anisoplia agricola* (Poda 1761)** (box nr. 6)

[*Anisoplia agricola*], Suruceni, 15-28.05.1923, 2 specs.; Dănceni, 4.06.1928, 3 specs.; 9.06.1929, 1 spec.

[*Anisoplia cyathigera*], Bender, 1.06.1908, 1 spec.; Suruceni, 10-28.05.1923, 1 spec.; Dănceni, 4.06.1928, 1 spec.

***Anisoplia aprica* Erichson 1847** (box nr. 6)

[*Anisoplia aprica*], Suruceni, 10.06.1923, 1 spec.; Dănceni, 4.06.1928, 3 specs.; 4.06.1929, 1 spec.

***Anisoplia austriaca* (Herbst 1783)** (box nr. 6)

[*Anisoplia austriaca*], Bender, 14.07.1923, 2 specs.; 1-14.06.1924, 1 spec.; Chişinău, 15.06.1924, 1 spec.

***Anisoplia lata* Erichson 1847** (box nr. 6)

[*Anisoplia lata*], Chişinău, 28.05-10.06.1920, 1 spec.; 15.06.1924, 1 spec.; 30.05.1925, 1 spec.; 26.06.1932, 1 spec.; 18.04.1937, 1 spec.; Dist. Chilia, Ucraina [Cara-Mahmed], 7.07.1929, 1 spec.

***Anomala errans* (Fabricius 1775)** (box nr. 6)

[*Anomala errans* (= *praticola*)], Bugaz [Ucraina], 4.07.1926, 1 spec.; Belgorod [Ucraina], 11.07.1938, 1 spec.

***Blitopertha lineolata* (Fischer von Waldheim 1824)** (box nr. 6)

[*Blitopertha lineolata*], Chişinău, 4-17.05.1923, 1 spec.; 20.05.1924, 1 spec.; 28.05.1925, 1 spec.; 24.05, 6.06.1926, 2 specs.; 17.05.1927, 1 spec.; Suruceni, 15-28.05.1923, 1 spec.

***Chaetopteropia segetum* (Herbst 1783)** (box nr. 6)

[*Anisoplia segetum*], Suruceni, 15-28.05.1923, 7 specs.; Chişinău, 28, 30.05.1925, 2 specs.; Dănceni, 24.06.1928, 2 specs.; Chişinău [Durleşti], 17.06.1929, 1 spec.

***Hoplia praticola* Duftschmid 1805** (box nr. 6)

[*Hoplia praticola*], Chişinău [Durleşti], 23.04-6.05.1923, 4 specs.; 4.05.1924, 3 specs.; 6.05.1928, 1 spec.; 1.06.1930, 1 spec.; Chişinău,

4.05.1924, 1 spec.; Dănceni, 10.05.1939, 2 specs.; Strășeni, 7.05.1931, 2 specs.

***Hoplia* sp.** (box nr. 6)

[*Hoplia* sp.], Chișinău, 23.04-6.06.1923, 2 specs.; Chișinău [Durlești], 4.05.1924, 3 specs.; 3.05.1936, 1 spec.; Căpriana, 30.05.1938, 1 spec.

***Phyllopertha horticola* (Linnaeus 1758)** (box nr. 6)

[*Phyllopertha horticola*], Suruceni, 10.06.1923, 5 specs.; Cornești, 8.06.1937, 2 specs.; Dănceni, 15.05.1938, 1 spec.

Family Scarabaeidae

***Caccobius schreberi* (Linnaeus 1758)** (box nr. 6)

[*Caccobius schreberi*], Chișinău, 23.04-6.05.1923, 2 specs.; 21.04-5-05.1924, 3 specs.

***Cheironitis ungaricus* (Herbst 1789)** (box nr. 6)

[*Cheironitis hungaricus*], Jevreni, 23.08.1938, 2 specs.

***Copris lunaris* (Linnaeus 1758)** (box nr. 6)

[*Caccobius lunaris*], Chișinău, 11.05.1904, 1 spec.; 28.04.1923, 2 specs.; 10.05.1924, 3 specs.

***Euoniticellus fulvus* (Goeze 1777)** (box nr. 6)

[*Oniticellus fulvus*], Chișinău, 4, 5.05.1924, 5 specs.; Chișinău [Durlești], 9.05.1928, 1 spec.; Dănceni, 14.06.1928, 1 spec.

***Euoniticellus pallipes* (Fabricius 1798)** (box nr. 6)

[*Oniticellus pallipes*], Volcioc [Ucraina], 22.08.1931, 1 spec.

***Euonthophagus amyntas* (Olivier 1789)** (box nr. 5)

[*Onthophagus amyntas*], Chișinău, 12.08.1906, 1 spec.; 20.04-5.05.1924, 5 specs.; 21.04-5.05.1925, 1 spec.; Bender, 7.05.1927, 1 spec.; Chișinău [Durlești], 9.05.1929, 1 spec.; Dănceni, 10.06.1929, 1 spec.

***Gymnopleurus geoffroyi* (Fuessly 1775)** (box nr. 5)

[*Gymnopleurus cantharus*], Sculeni, 20.04.1925, 1 spec.; Bender, 7.05.1927, 1 spec.; Hrușova, 5.05, 8.06.1928, 2 specs.

***Gymnopleurus mopsus* (Pallas 1781)** (box nr. 5)

[*Gymnopleurus mopsus*], Vadul-lui-Vodă, 25.05.1906, 1 spec.; 6.07.1923, 1 spec.; Hîncești, 3.06-21.05.1922, 1 spec.; 15-28.05.1923, 2 specs.; Baccealia, 27.06.1927, 1 spec.; Dănceni, 15.05.1938, 1 spec.

***Onitis damoetas* Steven 1806** (box nr. 6)

[*Onitis damoetas*], Dist. Chilia, Ucraina [Cara-Mahmed], 19.04.1928, 1 spec.; 22.04.1930, 4 specs.

***Onthophagus coenobita* (Herbst 1783)** (box nr. 5)

[*Onthophagus coenobita*], Chișinău, 7-20.04.1923, 1 spec.; 29.03-5.05.1924, 2 specs.; 4.04.1925, 1 spec.; 22.05.1928, 1 spec.; Chișinău [Durlești], 4.05.1924, 2 specs.

***Onthophagus fracticornis* (Preyssler 1790)** (box nr. 5)

[*Onthophagus fracticornis*], Onișcani, 21.09.1917, 1 spec.; Chișinău [Durlești], 1-14.04.1923, 1 spec.; 30.10.1924, 2 specs.; Chișinău, 20.04.1924, 1 spec.; 14.10.1926, 1 spec.

***Onthophagus furcatus* (Fabricius 1781)** (box nr. 5)

[*Onthophagus furcatus*], Chișinău, 20.04.1924, 4 specs.; Chișinău [Durlești], 6.05.1928, 2 specs.; Dănceni, 4.06.1928, 2 specs.

***Onthophagus gibbulus* (Pallas 1781)** (box nr. 5)

[*Onthophagus gibbulus* (= *austriacus*)], Bender, 7.05.1927, 4 specs.; Dist. Chilia, Ucraina [Cara-Mahmed], 25.07.1929, 1 spec.; 22.04.1930, 2 specs.

***Onthophagus kindermanni* Harold 1877** (box nr. 6)

[*Onthophagus kindermanni*], Dănceni, 20.04.1928, 1 spec.; Cricova, 26.04.1930, 1 spec.; Dist. Chilia, Ucraina [Cara-Mahmed], 22.04.1930, 1 spec.

***Onthophagus lemur* (Fabricius 1781)** (box nr. 6)

[*Onthophagus lemur*], Chișinău [Durlești], 4.05-21.05.1924, 3 specs.; Dănceni, 20.04, 14.06.1928, 2 specs.

***Onthophagus lucidus* (Sturm 1800)** (box nr. 5)

[*Onthophagus lucidus*], Băcioi, 6.05.1900, 1 spec.; Chişinău, 9-22.04.1922, 1 spec.; 20.04-20.06.1924, 6 specs.; 9.04.1925, 1 spec.; Chişinău [Durleşti], 6.05.1928, 1 spec.; 6.07.1930, 1 spec.; Dănceni, 15.05.1938, 1 spec.

***Onthophagus nuchicornis* (Linnaeus 1758)** (box nr. 6)

[*Onthophagus nuchicornis*], Volcioc [Ucraina], 22.07.1931, 11 spec.

***Onthophagus ovatus* (Linnaeus 1767)** (box nr. 6)

[*Onthophagus ovatus*], Chişinău, 3.04.1906, 1 spec.; 9.04-19.06.1923, 3 specs.; 8.06.1928, 1 spec.; Chişinău [Durleşti], 5.04-4.05.1924, 2 specs.; 29.07.1928, 1 spec.; Răciula, 6.06.1908, 1 spec.; Hînceşti, 3.04-21.05.1923, 1 spec.; Goian, 4.05.1924, 1 spec.; Bender, 31.05.1926, 1 spec.; Dănceni, 13.08.1927, 1 spec.; 20.04.1938, 2 specs., Hruşova, 20.04.1938, 1 spec.; Corneşti [Pereval], 27.10.1928, 1 spec.; 26.07.1933, 1 spec.

***Onthophagus ponticus* Harold 1883** (box nr. 6)

[*Onthophagus ponticus*], Dist. Chilia, Ucraina [Cara-Mahmed], 19.04.1928, 1 spec.

***Onthophagus taurus* (Schreber 1759)** (box nr. 5)

[*Onthophagus taurus*], Chişinău, 26.09, 14.10.1926, 2 specs.; Hagimus, 13.08.1927, 6 specs.

***Onthophagus vacca* (Linnaeus 1767)** (box nr. 5)

[*Onthophagus vacca*], Chişinău, 9-22.04.1923, 1 spec.; 20.04-5.05.1924, 9 specs.; 9.04.1925, 4 specs.; Chişinău [Durleşti], 4.05.1924, 1 spec.

***Onthophagus verticicornis* (Laicharting 1781)** (box nr. 5)

[*Onthophagus verticicornis*], Chişinău, 23.04-6.05.1923, 2 specs.; Suruceni, 28.05-10.06.1923, 1 spec.; Chişinău [Durleşti], 4.05.1924, 4 specs.

***Onthophagus vitulus* (Fabricius 1776)** (box nr. 5)

[*Onthophagus vitulus* (= *camelus*)], Chişinău, 20.04.1924, 2 specs.; 11.04.1925, 2 specs.; 12.05.1929, 1 spec.; Chişinău [Durleşti], 9.05.1924, 1 spec.; 6.05.1928, 4 specs.; Cricova, 10.04.1938, 1 spec.

***Onthophagus* sp.** (box nr. 5)

[*Onthophagus* sp.], Chişinău, 23.04-6.05.1923, 5 specs.; Chişinău [Durleşti], 4.05.1924, 2 specs.

***Scarabaeus sacer* Linnaeus 1758** (box nr. 5)

[*Scarabaeus sacer*], Chişinău, 12.05.1914, 1 spec.; Sergheevca [Ucraina], 15, 20.08.1930, 2 specs.

***Sisyphus schaefferi* (Linnaeus 1758)** (box nr. 5)

[*Sisyphus schaefferi*], Vadul-lui-Vodă, 24.05.1906, 1 spec.; Bender, 31.05.1912, 1 spec.; 23.05.1925, 3 specs.; 7.05.1927, 2 specs.; Hînceşti, 3.04-21.05.1922, 1 spec.; Hruşova, 8.06.1926, 1 spec.; 20.08.1931, 1 spec.

Family Scirtidae

***Cyphon variabilis* (Thunberg 1787)** (box nr. 16)

[*Cyphon variabilis*], Onişcani, 21, 23.09.1917, 2 specs.; Bender, 18-31.03.1924, 2 specs.

Family Scaptiidae

***Anaspis fasciata* (Forster 1771)** (box nr. 9)

[*Anaspis geoffroyi*], Bender, 6.07.1927, 1 spec.

***Anaspis flava* (Linnaeus 1758)** (box nr. 9)

[*Anaspis flava*], Chişinău, 4.06.1924, 1 spec.; 4.07.1925, 1 spec.; Bender, 5.08.1927, 1 spec.

***Anaspis frontalis* (Linnaeus 1758)** (box nr. 9)

[*Anaspis frontalis*], Dănceni, 13.05.1923, 1 spec.; Bender, 24.05.1925, 1 spec.; 7.06.1926, 1 spec.; Goian, 30.05.1928, 1 spec.

***Anaspis* sp.** (box nr. 9)

[*Anaspis* sp.], Chişinău [Durleşti], 4.07.1925, 1 spec.; 5.08.1926, 2 specs.; Bender, 6.05.1926, 1 spec.; Chişinău, 7.06, 1, 29.07.1928, 3 specs.; Bender, 10.05.1930, 1 spec.; Lozova, 14.07.1938, 6 specs.

Family Scydmaenidae

***Scydmaenus tarsatus* Muller & Kunze 1822** (box nr. 16)

[*Scydmaenus tarsatus*], Chişinău, 14-23.04.1923, 1 spec.

Family Silphidae

***Aclypea undata* (Müller 1776)** (box nr. 4)

[*Aclypea (Blitophaga) undata*], Bender, 31.03.1924, 1 spec.; Chişinău, 16, 17.04.1924, 2 specs.; Corneşti, 14.06.1937, 1 spec.; Dănceni, 3.04.1938, 1 spec.

***Dendroxena quadrimaculata* (Scopoli 1772)** (box nr. 4)

[*Xylodrepa 4-punctata*], Bucovăţ, 6.06.1935, 1 spec.; Corneşti, 21.05.1936, 1 spec.; Bularda, 1.05.1938, 1 spec.

***Nicrophorus germanicus* (Linnaeus 1758)** (box nr. 4)

[*Nicrophorus germanicus*], Chişinău, 22.06, 27.07.1927, 6 specs.

***Nicrophorus humator* (Gleditsch 1767)** (box nr. 4)

[*Nicrophorus humator*], Chişinău, 22.07.1923, 1 spec.; Bularda, 26.04.1930, 1 spec.; Hruşova, 5.07.1930, 1 spec.

***Nicrophorus interruptus* Stephens 1830** (box nr. 4)

[*Nicrophorus fossor*], Chişinău, 22.07.1923, 2 specs.; Bularda, 7, 30.06.1928, 2 specs.

***Nicrophorus investigator* Zetterstedt 1824** (box nr. 4)

[*Nicrophorus investigator*], Chişinău, 22.07.1923, 1 spec.; 12.05.1929, 1 spec.; Bularda, 30.06.1925, 1 spec.; 1.07.1928, 1 ex; Corneşti, 12.07.1936, 1 spec.; Dist. Chilia, Ucraina [Cara-Mahmed], 13.07.1929, 1 spec.

***Nicrophorus vespillo* (Linnaeus 1758)** (box nr. 4)

[*Nicrophorus vespillo*], Bularda, 7.06.1928, 4 specs.; Vadul-lui-Vodă, 30.06.1928, 1 spec.

***Necrodes littoralis* (Linnaeus 1758)** (box nr. 4)

[*Necrodes littoralis*], Bularda, 7.04.1930, 1 spec.

***Oiceoptoma thoracicum* (Linnaeus 1758)** (box nr. 4)

[*Oiceoptoma thoracica*], Chişinău, 3.08.1923, 1 spec.; Bularda, 19.04.1927, 2 specs.

***Phosphuga atrata* (Linnaeus 1758)** (box nr. 4)

[*Phosphuga atrata*], Chişinău, 10.05.1924, 1 spec.

***Silpha carinata* Herbst 1783** (box nr. 4)

[*Silpha carinata*], Chişinău, 8.06.1924, 1 spec.; 10.05.1925, 1 spec.; Bender, 24.05.1925, 1 spec.

***Silpha obscura* Linnaeus 1758** (box nr. 4)

[*Silpha obscura*], Chişinău, 14.04.1922, 1 spec.; 20, 26.04, 22.07.1923, 3 specs.; 5.07.1924, 1 spec.; 27.04.1925, 1 spec.

***Thanatophilus rugosus* (Linnaeus 1758)** (box nr. 4)

[*Thanatophilus rugosus*], Chişinău, 28.03-16.04, 20.06.1924, 4 specs.; Bularda, 31.03.1927, 2 specs.

***Thanatophilus sinuatus* (Fabricius 1775)** (box nr. 4)

[*Thanatophilus sinuatus*], Chişinău, 20.06.1924, 1 spec.; Bularda, 31.03.1927, 1 spec.

Silphidae sp. (box nr. 4)

[Silphidae sp.], Chişinău, 27.04.1923, 1 spec.; Lozova, 24.03.1936, 1 spec.

Family Silvanidae

***Silvanus unidentatus* (Olivier 1790)** (box nr. 9)

[*Silvanus unidentatus*], Chişinău, 7.03.1927, 4 specs.

***Uleiota planata* (Linnaeus 1761)** (box nr. 9)

[*Uleiota planatus*], Bularda, 18.04.1927, 2 specs.; 1.05.1938, 1 spec.

Family Staphylinidae

***Achenium depressum* (Gravenhorst 1802)** (box nr. 4)

[*Achenium depressum*], Chişinău, 11.07.1930, 1 spec.; 26.04.1931, 1 spec.; Corneşti, 20.06.1937, 1 spec.

***Aleochara tristis* Gravenhorst 1806** (box nr. 4)

[*Aleochara tristis*], Chişinău, 6.05.1923, 1 spec.; 17.06.1928, 1 spec.

***Astrapaeus ulmi* (Rossi 1790)** (box nr. 4)

[*Astrapaeus ulmi*], Chişinău, 6.05.1923, 1 spec.; 28.04.1927, 1 spec.; 17.06.1928, 1 spec.; 6.07.1934, 1 spec.

***Bledius tricornis* (Herbst 1784)** (box nr. 4)

[*Bledius tricornis*], Chişinău, 26.04.1931, 1 spec.; Lebediovka, Ucraina [Bad-Burnas], 21.08.1929, 1 spec.

***Bledius furcatus* (Olivier 1811)** (box nr. 4)

[*Bledius furcatus*], Lebediovka, Ucraina [Bad-Burnas], 4.08.1929, 1 spec.

***Claviger longicornis* Müller 1818** (box nr. 16)

[*Claviger longicolor*], Chişinău, 24.03.1936, 4 specs.

***Creophilus maxillosus* (Linnaeus 1758)** (box nr. 4)

[*Creophilus maxillosus*], Chişinău, 22.07.1923, 3 specs.; 30.10.1927, 1 spec.; 5.06.1929, 1 spec.; 20.06.1937, 1 spec.

***Dinarda dentata* (Gravenhorst 1806)** (box nr. 4)

[*Dinarda dentata*], Chişinău, 24.03.1936, 4 specs.

***Drusilla canaliculata* (Fabricius 1787)** (box nr. 4)

[*Drusilla canaliculata*], Chişinău, 10.06.1928, 1 spec.

***Gyrophaena nana* (Paykull 1800)** (box nr. 4)

[*Gyrophaena nana*], Dănceni, 23.06.1928, 2 specs.

***Lathrobium elongatum* (Linnaeus 1767)** (box nr. 4)

[*Lanthrobium elongatum*], Bender, 13.08.1927, 1 spec.

***Notothecta flavipes* (Gravenhorst 1806)** (box nr. 4)

[*Notothecta flavipes*], Chişinău, 24.03.1936, 3 specs.

***Ocypus tenebricosus* (Gravenhorst 1846)** (box nr. 4)

[*Ocypus (Staphylinus) tenebricosus*], Onişcani, 24.09.1917, 1 spec.;
Chişinău, 30.04.1923, 1 spec.; 4, 10.04.1926, 2 specs.

***Ontholestes murinus* (Linnaeus 1758)** (box nr. 4)

[*Ontholestes murinus*], Chişinău, 11.04.1924, 1 spec.

***Oxyporus rufus* (Linnaeus 1758)** (box nr. 4)

[*Oxyporus rufus*], Chişinău, 25.05.1923, 2 specs.; Dănceni, 4.06.1928,
1 spec.

***Oxytelus piceus* (Linnaeus 1767)** (box nr. 4)

[*Oxytelus piceus*], Chişinău [Durleşti], 14.04.1923, 2 specs.; Chişinău,
9.04.1925, 1 spec.

***Paederus riparius* (Linnaeus 1758)** (box nr. 4)

[*Paederus riparius*], Onişcani, 23.09.1917, 2 specs.; Chişinău,
27.04.1923, 9 specs.; 7.05.1925, 1 spec.; Lebediovka, Ucraina [Bad-
Burnas], 4.08.1929, 1 spec.

***Pella humeralis* (Gravenhorst 1802)** (box nr. 4)

[*Myrmedonia humeralis*], Bender, 31.03.1924, 3 specs.

***Philonthus carbonarius* (Gravenhorst 1802)** (box nr. 4)

[*Philonthus varius*], Chişinău, 9.04.1925, 1 spec.; Bender, 31.03.1924,
1 spec.

***Philonthus cognatus* Stephens 1832** (box nr. 4)

[*Philonthus fuscipennis*], Bender, 31.03.1924, 1 spec.

***Philonthus ebeninus* (Gravenhorst 1802)** (box nr. 4)

[*Philonthus ebeninus*], Bender, 31.03.1924, 1 spec.; Chişinău,
7.04.1925, 1 spec.; 17.06.1928, 1 spec.; Chişinău [Durleşti],
10.04.1927, 1 spec.

- Philonthus intermedius* (Lacordaire 1835)** (box nr. 4)
[*Philonthus intermedius*], Bender, 31.03.1924, 2 specs.; Chişinău
[Durleşti], 30.10.1924, 2 specs.
- Philonthus micans* (Gravenhorst 1802)** (box nr. 4)
[*Philonthus micans*], Bender, 31.03.1924, 2 specs.
- Philonthus politus* (Linnaeus 1758)** (box nr. 4)
[*Philonthus politus*], Chişinău, 22.07.1923, 5 specs.
- Philonthus punctus* (Gravenhorst 1802)** (box nr. 4)
[*Philonthus punctus*], Chişinău, 19.07.1928, 1 spec.
- Philonthus salinus* Kiesenwetter 1844** (box nr. 4)
[*Philonthus salinus*], Chişinău, 12.05.1929, 1 spec.; Dist. Chilia,
Ucraina [Cara-Mahmed], 6.06.1929, 1 spec.
- Philonthus varians* (Paykull 1789)** (box nr. 4)
[*Philonthus varians*], Chişinău, 27.04.1923, 1 spec.
[*Philonthus varians* ab. *unicolor*], Chişinău, 27.04.1923, 1 spec.
- Platystethus cornutus* (Gravenhorst 1802)** (box nr. 4)
[*Platystethus cornutus*], Chişinău, 18, 22.04.1923, 4 specs.;
11.04.1924, 3 specs.
- Platystethus spinosus* Erichson 1840** (box nr. 4)
[*Platystethus spinosus*], Bender, 10.05.1930, 1 spec.
- Quedius fulgidus* (Fabricius 1793)** (box nr. 4)
[*Quedius fulgidus*], Chişinău, 7, 17.06.1923, 3 specs.; 9.04.1925,
1 spec.
- Reichenbachia juncorum* Leach 1817** (box nr. 16)
[*Reichenbachia juncorum*], Chişinău, 18-31.04.1922, 1 spec.; Bender,
31.03.1924, 1 spec.
- Rugilus orbiculatus* (Paykull 1789)** (box nr. 4)
[*Rugilus (Stilicus) orbiculatus*], Chişinău [Durleşti], 6.07.1930, 1 spec.

***Scaphidium quadrimaculatum* Olivier 1790** (box nr. 16)

[*Scaphidium 4-maculatum*], Chişinău, 30.03-14.04.1924, 1 spec.; Bularda, 9.06.1927, 2 specs.; 4, 8.05.1928, 5 specs.

***Staphylinus caesareus* Cederhjelm 1798** (box nr. 4)

[*Staphylinus caesareus*], Chişinău, 27.04.1923, 1 spec.; 5.04, 10.05.1924, 2 specs.; 7.05.1925, 1 spec.

***Staphylinus erythropterus* Linnaeus 1758** (box nr. 4)

[*Staphylinus erythropterus*], Bender, 7.05.1927, 1 spec.; Chişinău [Durleşti], 3.05.1936, 3 specs.; Corneşti, 25.07.1938, 1 spec.

***Stenus ater* Mannerheim 1830** (box nr. 4)

[*Stenus ater*], Onişcani, 19.09.1917, 1 spec.

***Stenus clavicornis* (Scopoli 1763)** (box nr. 4)

[*Stenus clavicornis*], Chişinău, 8.06.1923, 1 spec.; Bender, 14.05.1930, 1 spec.

***Tachinus corticinus* Gravenhorst 1802** (box nr. 4)

[*Tachinus collaris*], Chişinău, 4.04.1925, 1 spec.

***Tachyporus hypnorum* (Fabricius 1775)** (box nr. 4)

[*Tachyporus hypnorum*], Chişinău, 18-31.03.1924, 1 spec.

***Tetartopeus quadratus* (Paykull 1789)** (box nr. 4)

[*Lanthrobium quadratum*], Chişinău, 22.04.1923, 1 spec.; Bender, 31.03.1924, 1 spec.

***Thyasophila angulata* (Erichson 1837)** (box nr. 4)

[*Thyasophila angulata*], Chişinău, 24.03.1936, 4 specs.

***Xantholinus linearis* (Olivier 1795)** (box nr. 4)

[*Xantholinus linearis*], Bender, 7.05.1927, 2 specs.

Staphylinidae sp. (box nr. 4)

[Staphylinidae sp.], Onişcani, 4.09.1917, 1 spec.; Chişinău, 21-24, 26, 28.04, 15.05.1923, 7 specs.; 11.04.1924, 8 specs.; 22.05.1926, 1 spec.; 18.04.1930, 1 spec.; 25.10.1931, 1 spec.; 22.08.1936,

[*Orgyia antiqua*], Chişinău, 9, 10.07.1923, 3 spec.; Chişinău [Durleşti], 1.10.1932, 1 spec.

***Orgyia recens* (Hübner 1819)** (box nr. 21)

[*Orgyia gonostigma*], Hagimus, 28, 29.05, 1, 2.06.1927, 5 specs.

***Paracolax tristalis* (Fabricius 1794)** (box nr. 44)

[*Herminia derivalis*], Chişinău, 18.06.1924, 1 spec.; 19.06.1926, 1 spec.; Zloţi, 25.06.1927, 2 specs.; Corneşti [Pereval], 2.07.1936, 1 spec.

***Parascotia fuliginaria* (Linnaeus 1761)** (box nr. 40)

[*Parascotia fuliginaria*], Chişinău, 7.07.1931, 1 spec.; 16.06.1935, 1 spec.; 4.09.1937, 1 spec.; Corneşti [Pereval], 31.07, 6.08.1933, 2 specs.

***Pechipogo strigilata* (Linnaeus 1758)** (box nr. 44)

[*Pechipogo barbalis*], Chişinău [Durleşti], 10.05.1925, 3 specs.; 17.05.1931, 1 spec.; Corneşti [Pereval], 21.05.1936, 1 spec.

***Penthophera morio* (Linnaeus 1767)** (box nr. 21)

[*Hypogymna morio*], Suruceni, 10.06.1923, 1 spec.; Dănceni, VI.1930, 1 spec.; 22, 23.05.1932, 2 specs.

***Phragmatobia fuliginosa* (Linnaeus 1758)** (box nr. 17)

[*Phragmatobia fuliginosa*], Chişinău, 26.08.1932, 1 spec.; 5.08.1933, 1 spec.; 29.06.1934, 1 spec.; 24.04.1939, 1 spec.; Corneşti [Pereval], 30.07.1938, 1 spec.

***Phytometra viridaria* (Clerck 1759)** (box nr. 40)

[*Prothymnia viridaria*], Dănceni, 10.05.1935, 1 spec.

***Polypogon tentacularia* (Linnaeus 1758)** (box nr. 44)

[*Herminia tentacularia*], Chişinău, 4.06.1922, 1 spec.; 3.06.1923, 1 spec.; Corneşti [Pereval], 22.07.1925, 1 spec.; 4.08.1935, 1 spec.; 13.07.1936, 1 spec.

***Rivula sericealis* (Scopoli 1763)** (box nr. 40)

[*Rivula sericealis*], Chişinău, 4.08.1916, 1 spec.; 02.09.1932, 3 specs.; Chişinău [Dureşti], 18.08.1932, 4 specs.; Corneşti [Pereval], 25.08.1933, 1 spec.; Străşeni, 30.07.1933, 1 spec.

***Schranksia costaestrigalis* (Stephens 1834)** (box nr. 44)

[*Hypenodes costaestrigalis*], Bularda, 20.09.1935, 2 specs.

***Scoliopteryx libatrix* (Linnaeus 1758)** (box nr. 42)

[*Scoliopteryx libatrix*], Chişinău, 16.08.1922, 1 spec.; 12.05, 20.10.1923, 2 specs.; 16.04.1924, 1 spec.; 16.08.1932, 1 spec.

***Simplicia rectalis* (Eversmann 1842)** (box nr. 42)

[*Simplicia rectalis*], Chişinău, 15.05-19.06.1924, 4 specs.; 4.07.1934, 1 spec.; 10.06.1935, 2 specs.

***Spilosoma lubricipeda* (Linnaeus 1758)** (box nr. 17)

[*Spilosoma menthastri*], Hînceşti, year 1926, 1 spec.; Chişinău, 26.07.1930, 3 specs.; Corneşti [Pereval], 12.08.1933, 1 spec.; 23.07.1935, 1 spec.; 22.06.1937, 1 spec.; Cricova, 30.05.1936, 1 spec.

***Trisateles emortualis* (Denis & Schiffermüller 1775)** (box nr. 42)

[*Standeussia emortualis*], Bularda, 3.06.1934, 1 spec.

***Zanclognatha lunalis* (Scopoli 1763)** (box nr. 44)

[*Zanclognatha tarsiplumalis*], Chişinău, 29.06.1922, 1 spec.; 19, 25.06.1924, 2 specs.; Chişinău [Durleşti], 1.06.1923, 1 spec.; 10.07.1932, 1 spec.; Bender, 18.07.1923, 1 spec.; Corneşti [Pereval], 17.07.1933, 1 spec.

Family Euteliidae

***Eutelia adulatrix* (Hübner 1813)** (box nr. 31)

[*Eutelia adulatrix*], Chişinău, 29.08.1933, 1 spec.; Dănceni, 16.04.1935, 1 spec.

Family Geometridae

***Abraxas grossulariata* (Linnaeus 1758)** (box nr. 53)

[*Abraxas grossulariata*], Chişinău, 10.06-23.06.1924, 1 spec.; 15.06.1934, 1 spec.; Cricova, 23.06.1935, 3 specs.; Corneşti, 7.07.1935, 1 spec.; Corneşti [Pereval], 20.06.1937, 1 spec.

***Abraxas sylvata* (Scopoli 1763)** (box nr. 54)

[*Abraxas sylvata*], Corneşti, 10.07.1938, 1 spec.

***Agriopis aurantiaria* (Hübner 1799)** (box nr. 57)

[*Erannis aurantiaria*], Chişinău, 4.11.1931, 1 spec.; 3.11.1934, 1 spec.; 23.10.1935, 1 spec.; 25.10.1936, 3 specs.; 2.11.1938, 1 spec.; Chişinău [Durleşti], 26.10.1937, 2 specs.

***Agriopis bajaria* (Denis & Schiffermüller 1775)** (box nr. 56)

[*Erannis bajaria*], Chişinău, 2.11.1927, 1 spec.; 6.11.1930, 1 spec.; 11.11.1937, 1 spec.; 2.09, 30.10.1938, 2 specs.

***Agriopis leucophaearia* (Denis & Schiffermüller 1775)** (box nr. 56)

[*Erannis leucophaeria*], Chişinău, 8.03.1936, 1 spec.; 11.03.1939, 1 spec.; Cricova, 20.03.1938, 1 spec.

***Agriopis marginaria* (Fabricius 1776)** (box nr. 56)

[*Erannis marginaria*], Dănceni, 9.03.1930, 1 spec.; 24.03.1935, 1 spec.; Chişinău [Durleşti], 16.03.1930, 2 specs.; 24.03.1937, 3 specs.; Chişinău, 31.10.1934, 1 spec.; 14.03.1937, 1 spec.; 16.03.1938, 2 specs.; Corneşti [Pereval], 9.02.1937, 1 spec.

***Alcis repandata* (Linnaeus 1758)** (box nr. 59)

[*Boarmia repandata*], Corneşti [Pereval], 29.06.1936, 2 specs.

***Alsophila aceraria* (Denis & Schiffermüller 1775)** (box nr. 60)

[*Alsophila 4-punctata*], Chişinău, 15.11.1927, 1 spec.; Chişinău [Durleşti], 2, 16.11.1930, 2 specs.; Tuzara, 23.11.1935, 1 spec.; Dănceni, 30.10.1937, 1 spec.

***Alsophila aescularia* (Denis & Schiffermüller 1775)** (box nr. 60)

[*Alsophila aescularia*], Chişinău, 9.03.1930, 1 spec.; 22.03.1931, 2 specs.; 5.03.1930, 1 spec.; Dănceni, 24.03.1935, 1 spec.; Chişinău [Durleşti], 16.03.1930, 2 specs.

***Angerona prunaria* (Linnaeus 1758)** (box nr. 55)

[*Angerona prunaria*], Bender, 24.05.1925, 1 spec.; Bularda, 21.06.1929, 1 spec.; 3.06.1931, 1 spec.; Corneşti [Pereval], 9, 13.06.1937, 2 specs.

***Aplocera plagiata* (Linnaeus 1758)** (box nr. 49)

[*Anaitis plagiata*], Chişinău, 11.09.1922, 1 spec.; 9.06.1934, 1 spec.; 21.08.1935, 1 spec.; Suruceni, 28.05.1923, 2 specs.; Bender – Gîsca, 15.07.1923, 1 spec.; Bender, 17.04.1923, 1 spec.

***Arichanna melanaria* (Linnaeus 1758)** (box nr. 53)

[*Arichanna melanaria*], Corneşti [Pereval], 25, 26, 28.07.1933, 6 specs.

***Ascotis selenaria* (Denis & Schiffermüller 1775)** (box nr. 59)

[*Boarmia selenaria*], Chişinău, 11.07.1922, 1 spec.; 20.07.1924, 1 spec.; 4.08.1925, 1 spec.; 15.07.1926, 1 spec.; 21.07.1932, 1 spec.; Bender, 10.05.1930, 1 spec.; Corneşti [Pereval], 9.07.1933, 2 specs.; 22.07.1935, 1 spec.; 24, 28.07.1936, 2 specs.

***Asthena albulata* (Hufnagel 1767)** (box nr. 52)

[*Asthena albulata*], Chişinău [Durleşti], 4.05.1930, 3 specs.; 8.07.1931, 1 spec.; 8.05.1932, 2 specs.; Ivancea, 20.07.1930, 1 spec.; Tudora, 6.06.1935, 1 spec.; Bularda, 2.05.1938, 1 spec.

***Biston betularia* (Linnaeus 1758)** (box nr. 59)

[*Biston betularius*], Chişinău, 15.07.1922, 2 specs.; Corneşti [Pereval], 3.08.1935, 1 spec.; 29.07.1936, 1 spec.

***Biston strataria* (Hufnagel 1767)** (box nr. 59)

[*Biston strataris*], Chişinău, 9, 13.04.1932, 2 specs.; 21.03.1934, 1 spec.; 10.04.1935, 1 spec.

***Boudinotiana notha* (Hübner 1803)** (box nr. 45)

[*Brephos notha*], Hagimus, 7.04.1931, 1 spec.

***Cabera exanthemata* (Scopoli 1763)** (box nr. 54)

[*Cabera exanthemata*], Bender, 24.05.1925, 2 specs.; Hagimus, 10.05.1930, 3 specs.; 10.05.1934, 2 specs.; Chişinău, 6.05.1934, 1 spec.; Cricova, 17.08.1935, 1 spec.

***Cabera pusaria* (Linnaeus 1758)** (box nr. 54)

[*Cabera pusaria*], Bularda, 14.05.1930, 2 specs.; Corneşti [Pereval], 17, 18.07.1933, 2 specs.; Corneşti, 30.06.1935, 1 spec.; Sagaidac, 21.05.1936, 1 spec.

***Camptogramma bilineata* (Linnaeus 1758)** (box nr. 52)

[*Cidaria bilineata*], Hîrbovăţ, 2 18, 19.07.192, 3 specs.; Chişinău, 26.08.1923, 1 spec.; 22.05-4.06.1924, 1 spec.; 23.05-5.06.1925, 1 spec.; 27.05-9.06.1926, 1 spec.

***Cataclysmes riguata* (Hübner 1813)** (box nr. 52)

[*Cataclysmes riguata*], Dănceni, 22.05.1932, 2 specs.; 16.05.1937, 2 specs.; Cricova, 9.05, 30.09.1934, 2 specs.; Chişinău, 5, 9.05.1937, 4 specs.

***Catarhoe cuculata* (Hufnagel 1767)** (box nr. 51)

[*Cidaria cuculata*], Corneşti, 21, 22.07.1935, 3 specs.; 19.06.1937, 1 spec.

***Catarhoe rubidata* (Denis & Schiffermüller 1775) (box nr. 52)**

[*Cidaria rubidata*], Chişinău, 16-29.06.1924, 1 spec.; 17.05.1925, 1 spec.; 26.06.1937, 1 spec.; Bularda, 26.05.1931, 1 spec.; 16.05.1934, 1 spec.; Corneşti [Pereval], 21.07.1933, 1 spec.; Bender – Gîsca, 11.08.1935, 1 spec.; Corneşti, 19.06.1937, 1 spec.

***Chlorissa viridata* (Linnaeus 1758) (box nr. 45)**

[*Chlorissa viridata*], Chişinău, 23.07.1922, 1 spec.; 22.05.1923, 1 spec.; 22.07.1924, 1 spec.; 15.05.1938, 1 spec.; Bender – Gîsca, 19.07.1923, 1 spec.; Dănceni, 22.05.1932, 4 specs.; Corneşti [Pereval], 18.07.1933, 1 spec.; Cricova, 29.05.1936, 1 spec.; Corneşti, 15, 21.06.1937, 2 specs.

***Cidaria fulvata* (Forster 1771) (box nr. 50)**

[*Cidaria (Larientia) fulvata*], Corneşti, 13.06.1937, 1 spec.; Corneşti [Pereval], 19.06.1937, 1 spec.

***Chiasmia aestimaria* (Hübner 1809) (box nr. 56)**

[*Semiothisa aestimaria*], Sergheevka [Ucraina], 27, 28.08.1930, 2 spec.; Lebediovka, Ucraina [Bad-Burnas], 5-28.07.1937, 1 spec.

***Chiasmia clathrata* (Linnaeus 1758) (box nr. 60)**

[*Semiothisa clathrata*], Goian, 3.06.1922, 2 specs.; Chişinău, 16.05.1924, 1 spec.; 3.08.1934, 1 spec.; Dănceni, 30.07.1934, 1 spec.; 10.05.1935, 2 specs.; Corneşti [Pereval], 3.08.1935, 1 spec.

***Chloroclysta siterata* (Hufnagel 1767) (box nr. 50)**

[*Cidaria siterata*], Chişinău, 16.10.1926, 1 spec.; 29.10.1927, 1 spec.; 30.07.1935, 1 spec.

***Cleora cinctaria* (Denis & Schiffermüller 1775) (box nr. 58)**

[*Boarmia cinctaria*], Chişinău, 16, 18, 19.04.1924, 5 specs.; 21.05.1935, 1 spec.; Cricova, 23.04.1935, 10 specs.; 26.04.1936, 2 specs.; Bularda, 2.05.1938, 1 spec.

***Cleorodes lichenaria* (Hufnagel 1767) (box nr. 58)**

[*Boarmia lichenaria*], Ivancea, 25.06.1931, 1 spec.; 20, 27.07.1936, 2 specs.; Corneşti [Pereval], 25.07.1933, 1 spec.; 13.07.1936, 1 spec.

***Colostygia pectinataria* (Knoch 1781)** (box nr. 51)

[*Cidaria viridaria*], Strășeni, 30.08.1933, 1 spec.; Cricova, 26.05.1935, 4 specs.; Sagaidac, 21.05.1936, 1 spec.

***Colotois pennaria* (Linnaeus 1761)** (box nr. 55)

[*Colotois pennaria*], Bender, 14.10.1923, 1 spec.; Chișinău, 6.09.1930, 1 spec.; 19.10.1935, 1 spec.; 17.10.1936, 1 spec.; 2.11.1938, 1 spec.; Bularda, 21.09.1935, 1 spec.

***Cosmorhoe ocellata* (Linnaeus 1758)** (box nr. 50)

[*Cidaria quadrifasciaria*], Chişinău, 22.07.1935, 1 spec.

***Xanthorhoe spadicearia* (Denis & Schiffermüller 1775)** (box nr. 50)

[*Cidaria spadicearia*], Bușăuca, 31.07.1929, 1 spec.; Bularda, 27.04.1934, 1 spec.; Cornești, 2.08.1937, 1 spec.

Geometridae sp. (box nr. 60)

[*Incerta*], Bravicea, 25.08.1934, 1 spec.; Cornești [Pereval], 22.07.1936, 1 spec.; Chișinău, 2.08.1937, 1 spec.

Family Hepialidae

***Pharmacis lupulina* (Linnaeus 1758)** (box nr. 22)

[*Hepialus lupulinus*], Dănceni, 5-7.09.1937, 3 specs.

***Triodia sylvina* (Linnaeus 1761)** (box nr. 22)

[*Hepialus sylvinus*], Chișinău, 29.09.1922, 2 specs.; 3.09.1931, 1 spec.; 3, 12.09.1932, 2 specs.; 22, 24, 26.08.1934, 4 specs.; Cornești [Pereval], 20.08.1933, 1 spec.; Brăviceni, 26.08.1934, 1 spec.

Family HesperIIDae

***Carcharodus alceae* (Esper 1780)** (box nr. 14)

[*Carcharodus alceae*], Chișinău, 11.05.1922, 2 specs.; 11.07.1926, 1 spec.; Chișinău [Durlești], 3.05.1936, 2 specs.; Goian, 11.05.1924, 1 spec.; Bender, 10.08.1935, 1 spec.

***Carcharodus floccifera* (Zeller 1847)** (box nr. 14)

[*Carcharodus altheae*], Bender, 7.08.1935, 1 spec.

***Carcharodus palaemon* (Pallas 1771)** (box nr. 15)

[*Pamphila palaemon*], 1 spec. – label absent.

***Erynnis tages* (Linnaeus 1758)** (box nr. 15)

[*Thanaos tages*], Chișinău, 11.07.1922, 1 spec.; 22.04-5.05.1923, 1 spec.; 28.04-11.05.1924, 2 specs.; Bender, 14.07.1923, 1 spec.; Dănceni, 22.05.1932, 1 spec.

***Heteropterus morpheus* (Pallas 1771)** (box nr. 15)

[*Heteropterus morpheus*], 1 spec. – label absent.

***Ochlodes sylvanus* (Esper 1777)** (box nr. 15)

[*Auciades sylvanus*], Chişinău, 30.06.1922, 1 spec.; 26.06.1934, 1 spec.; Chişinău [Durleşti], 12.07.1931, 1 spec.; 10.07.1932, 2 specs. Suruceni, 10.06.1923, 1 spec.; Zloţi, 25.06.1927, 1 spec.; Corneşti [Pereval], 6.07.1933, 1 spec.; 21.06.1936, 1 spec.; 15.06.1937, 1 spec.

***Pyrgus alveus* (Hübner 1803)** (box nr. 15)

[*Hesperia alveus*], Chişinău, 28.04-11.05.1924, 2 specs.; 24.05.1926, 1 spec.; 11.08.1932, 1 spec.; Goian, 21.05.1921, 2 specs.

***Pyrgus carthami* (Hübner 1813)** (box nr. 14)

[*Hesperia carthami*], Chişinău, 9.09.1924, 1 spec.; 11.08.1932, 2 specs., Dănceni, 4.06.1928, 1 spec.; 16.05.1937, 1 spec.

***Pyrgus malvae* (Linnaeus 1758)** (box nr. 15)

[*Hesperia malvae*], Chişinău, 11.05, 16.07.1922, 2 specs.; 18.07.1926, 2 specs.; Chişinău [Durleşti], 14.05.1922, 1 spec.; 12.04.1935, 1 spec.

***Pyrgus sidae* (Esper 1784)** (box nr. 15)

[*Hesperia sidae*], Chişinău, 30.06.1924, 1 spec.

***Thymelicus acteon* (Rottemburg 1775)** (box nr. 15)

[*Adopaea acteon*], Bularda, 19, 20.07.1939, 4 specs.

***Thymelicus lineola* (Ochsenheimer 1808)** (box nr. 15)

[*Adopaea lineola*], Chişinău, 20.06.1936, 2 specs.; Corneşti [Pereval], 16.06.1937, 3 specs.; Dănceni, 29.06.1938, 2 specs.

***Thymelicus sylvestris* (Poda 1761)** (box nr. 15)

[*Adopaea thaumas*], Zloţi, 25.06.1927, 4 specs.

Family Lasiocampidae

***Eriogaster lanestris* (Linnaeus 1758)** (box nr. 21)

[*Eriogaster lanestris*], Sipoteni, 18.12.1931, 1 spec.

***Gastropacha quercifolia* (Linnaeus 1758)** (box nr. 21)

[*Gastropacha quercifolia*], Chişinău, 23.07.1930, 1 spec.; 16.07.1932, 1 spec.

***Lasiocampa quercus* (Linnaeus 1758)** (box nr. 21)

[*Lasiocampa quercus*], Bender – Gîsca, 20.07.1932, 1 spec.

***Macrothylacia rubi* (Linnaeus 1758)** (box nr. 21)

[*Macrothylacia rubi*], Dănceni, 22.05.1932, 1 spec.

***Malacosoma neustria* (Linnaeus 1758)** (box nr. 21)

[*Malacosoma neustria*], Chişinău, 26, 30.06.1917, 2 specs.;
19.06.1935, 1 spec.; Corneşti [Pereval], 20.07.1933, 1 spec.

***Odonestis pruni* (Linnaeus 1758)** (box nr. 21)

[*Odonestis pruni*], Chişinău, 1.09.1931, 1 spec.

***Poecilocampa populi* (Linnaeus 1758)** (box nr. 21)

[*Poecilocampa populi*], Chişinău [Durleşti], 19.05, 4.11.1931, 2 specs.

***Phyllodesma tremulifolia* (Hübner 1810)** (box nr. 21)

[*Epicnaptea tremulifolia*], Chişinău [Durleşti], 21.05.1931, 1 spec.

Family Lycaenidae

***Aricia agestis* (Denis & Schiffermüller 1775)** (box nr. 13)

[*Lycaena astrarche*], Chişinău [Durleşti], 12.07.1921, 1 spec.; Chişinău,
30.05, 2, 25.07.1926, 5 specs.; 23.05.1937, 1 spec.; 7.07.1938, 3
specs.; Ivancea, 27.07.1926, 1 spec.; Cricova, 1.08.1937, 1 spec.;
Dănceni, 29.05.1938, 1 spec.

***Callophrys rubi* (Linnaeus 1758)** (box nr. 10)

[*Callophrys rubi*], Pîrjolteni, 25.07.1933, 1 spec.; Străşeni, 7.05.1937,
2 specs.; Dănceni, 9.05.1937, 1 spec.

***Celastrina argiolus* (Linnaeus 1758)** (box nr. 14)

[*Cyaniris argiolus*], Chişinău [Durleşti], 21.04-4.05.1924, 1 spec.;
10.04.1927, 1 spec.; 29.06.1930, 1 spec.; Suruceni, 9.09.1926,
1 spec.; Zloţi, 25.06.1927, 4 specs.; 1 spec. – label absent.

***Cupido alcetas* (Hoffmannsegg 1804)** (box nr. 12)

[*Lycaena alcetas*], Chişinău [Durleşti], 5.08.1922, 1 spec.; 25.06.1924,
1 spec.; Chişinău, 6-19.05.1924, 1 spec.; Lozova, 29.05.1927,
4 specs.; Ivancea, 27.07.1930, 3 specs.

***Cupido argiades* (Pallas 1771)** (box nr. 11)

[*Lycaena argiades*], Chişinău, 12-25.05.1924, 2 specs.; 11.07.1926, 1 spec.; 22.06.1927, 1 spec.; Chişinău [Durleşti], 24.05.1928, 1 spec.; 12.07.1931, 1 spec.; 4.08.1932, 1 spec.; Bender, 9.05.1927, 1 spec.; Zloţi, 25.06.1927, 1 spec.; Străşeni, 16.08.1931, 1 spec.; Bularda, 22.08.1936, 1 spec.; Corneşti [Pereval], 16, 19.06.1937, 2 specs.

***Cupido minimus* (Fuessly 1775)** (box nr. 14)

[*Lycaena minima*], Bularda, 11, 22.05.1927, 2 specs.; 9.06.1934, 1 spec.; 20.08.1936, 1 spec.; Chişinău, 2.07.1927, 1 spec.; Corneşti [Pereval], 9.08.1936, 1 spec.; 16, 22.06, 19.07.1937, 5 specs.; Lozova, 14.07.1938, 1 spec.

***Cyaniris semiargus* (Rottemburg 1775)** (box nr. 14)

[*Lycaena semiargus*], Bender, 7.05.1927, 1 spec.; Dănceni, 4.06.1928, 1 spec.; 29.05.1938, 1 spec.; 18.05.1939, 1 spec.; Chişinău [Durleşti], 22.06.1933, 1 spec.

***Favonius quercus* (Linnaeus 1758)** (box nr. 11)

[*Zephyrus quercus*], Chişinău [Durleşti], 5.08.1922, 1 spec.; 8.07.1931, 1 spec.; Călăraşi, 2.08.1923, 1 spec.; Corneşti [Pereval], 24.07.1933, 1 spec.; 4, 21.07, 28.08.1935, 4 specs.; Străşeni, 16.08.1931, 1 spec.; Cricova, 20.06.1934, 1 spec.

***Glaucopsyche alexis* (Poda 1761)** (box nr. 14)

[*Lycaena syllarus*], Goian, 3.06.1922, 2 specs.; Chişinău, 17, 19, 27.05.1923, 3 specs.; 6-19.05.1924, 1 spec.; 6.06.1926, 1 spec.; 22.06, 2.07.1927, 2 specs.; Corneşti [Pereval], 17.07.1933, 2 specs.; Dănceni, 12.06.1938, 1 spec.; 18.05.1939, 1 spec.

***Lampides boeticus* (Linnaeus 1767)** (box nr. 11)

[*Lampides boeticus*], Chişinău [Durleşti], 29.09.1929, 1 spec.

***Lycaena dispar* (Haworth 1802)** (box nr. 11)

[*Chrysophanus dispar rutilus*], Bender, 30.05-29.06.1924, 4 specs.; 24.05.1925, 2 specs.; Sculeni, 25.05.1925, 1 spec. Chişinău, 25.09.1925, 1 spec.; 12.08.1926, 1 spec.; Bularda, 27.05.1937, 1 spec.; Lozova, 18-28.07.1938, 1 spec.

***Lycaena hippothoe* (Linnaeus 1761)** (box nr. 11)

[*Chrysophanus hippothoe*], Valea Putnei [Romania], 25.07.1939, 1 spec.

***Lycaena phlaeas* (Linnaeus 1761)** (box nr. 11)

[*Chrysophanus phlaeas*], Chişinău, 2.05.1926, 1 spec.; Corneşti [Pereval], 7.07, 11.09.1935, 2 specs.; 18, 21, 22.07.1938, 3 specs.

***Lycaena thersamon* (Esper 1784)** (box nr. 11)

[*Chrysophanus thersamon*], Chişinău, 16, 18.05.1922, 4 specs.; 17.05, 8.07.1923, 2 specs.; 18.05.1925, 1 spec.; 22.05, 11.07.1926, 2 specs.; 21.05.1928, 1 spec.; 6.09.1931, 1 spec.; Chişinău [Durleşti], 10.07.1932, 3 specs.; Bender, 26.06-9.07.1924, 1 spec.

***Lycaena tityrus* (Poda 1761)** (box nr. 11)

[*Chrysophanus dorilis*], Corneşti [Pereval], 7.08, 15.09.1935, 2 specs.; 22.07.1938, 1 spec.; Bularda, 19.07.1939, 1 spec.; 1 spec. – label absent.

***Lycaena virgaureae* (Linnaeus 1758)** (box nr. 11)

[*Chrysophanus virgaureae*], 1 spec. – label absent.

***Phengaris alcon* (Denis & Schiffermüller 1775)** (box nr. 13)

[*Lycaena alcon*], Corneşti [Pereval], 15, 20, 23.06.1937, 5 specs.

***Phengaris arion* (Linnaeus 1758)** (box nr. 14)

[*Lycaena arion*], Chişinău, 11.07.1923, 1 spec.; Corneşti [Pereval], 6.08.1935, 1 spec.; 11, 25.07.1936, 2 specs.; 19.06.1937, 1 spec.

***Plebejus argus* (Linnaeus 1758)** (box nr. 12)

[*Lycaena argus*], Chişinău, 31.05, 20.07.1922, 3 specs.; 20.05.1923, 1 spec.; 6-19.05.1924, 1 spec.; 30.05, 6, 11, 17.06, 11, 25, 28.07, 15, 26.08.1926, 11 spec.; 30.05, 3.07.1927, 6 specs.

***Plebejus argyrognomon* (Bergsträsser 1779)** (box nr. 12)

[*Lycaena argyrognomon*], Chişinău, 11.07.1926, 1 spec.; Dănceni, 18.05.1939, 3 specs.;

[*Lycaena ismenias*], Chişinău, 30.05, 11, 13.07.1926, 8 specs.; 30.05.1927, 1 spec.; 22.08.1938, 1 spec.; Cricova, VI.1938, 2 specs.; Corneşti [Pereval], 15.06.1937, 1 spec.

***Polyommatus bellargus* (Rottemburg 1775)** (box nr. 13)

[*Lycaena bellargus*], Goian, 21.09.1924, 3 specs.; Bender, 6.06.1926, 2 specs.; 10.06, 8.08.1935, 2 specs.; 19.09.1936, 1 spec.; Chişinău, 25.07.1926, 1 spec.; 3.06.1937, 1 spec.; Chişinău [Petricani], 17.09.1937, 1 spec.; Zloţi, 25.06.1927, 1 spec.; Sergheevka [Ucraina], 17.08.1930, 1 spec.

***Polyommatus coridon* (Poda 1761)** (box nr. 14)

[*Lycaena coridon*], Călăraşi, 20.07-2.08.1923, 3 specs.; Corneşti [Pereval], 3, 5.08.1935, 4 specs.; 31.07.1936, 1 spec.; 15.08.1937, 1 spec.; Corneşti, 3.07.1938, 1 spec.

***Polyommatus daphnis* (Denis & Schiffermüller 1775)** (box nr. 13)

[*Lycaena meleager*], Călăraşi, 20.07.1923, 1 spec.; Chişinău, 16.08.1926, 1 spec.; Corneşti [Pereval], 18.07.1936, 1 spec.; 19, 22.07.1938, 2 specs.; Corneşti, 19, 21.07, 5.08.1938, 3 specs.

***Polyommatus icarus* (Rottemburg 1775)** (box nr. 13)

[*Lycaena icarus*], Goian, 3.06.2022, 3 specs.; Călăraşi, 20.07.1923, 1 spec.; 23.05.1924, 1 spec.; Chişinău, 18.06.1922, 1 spec.; 7.07.1924, 1 spec.; 12.07.1925, 1 spec.; 30.05, 11, 18, 25.07, 12, 15.08.1926, 6 specs.; 17.05, 5.06.1927, 2 specs.; 7.08.1938, 1 spec.; Chişinău [Durleşti], 24.05.1928, 1 spec.; Străşeni, 30.08.1933, 1 spec.; Tuzara, 6.06.1935, 1 spec.; Corneşti [Pereval], 10.08, 2.09.1935, 2 specs.; 10.07.1938, 1 spec.; Cricova, 19.05, 1.08.1937, 2 specs.; Dănceni, 29.05, 12.06.1938, 2 specs.

***Pseudophilotes baton* (Bergsträsser 1779)** (box nr. 12)

[*Lycaena baton*], Dănceni, 4.06.1928, 1 spec.; 06.1929, 1 spec.; 22.05.1932, 1 spec.; 16.05.1937, 1 spec.; 15, 29.05.1938, 3 specs.; Chişinău [Durleşti], 29.06, 6.07.1930, 3 specs.; 10.07.1932, 2 specs.

***Pseudophilotes bavius* (Eversmann 1832)** (box nr. 12)

[*Lycaena bavius*], Bender, 10.05.1930, 1 spec.

***Satyrium acaciae* (Fabricius 1787)** (box nr. 10)

[*Thecla acaciae*], Chişinău, 18, 30.06.1922, 2 specs.; 4-17.06.1924, 1 spec.; Corneşti [Pereval], 21.06.1936, 2 specs.; Dănceni, 18.05.1939, 1 spec.

***Satyrium ilicis* (Esper 1779)** (box nr. 10)

[*Thecla ilicis*], Suruceni, 10.06.1923, 1 spec.; Chişinău, 15.06.1930, 1 spec.; Chişinău [Durleşti], 2.06.1931, 1 spec.; 7.06.1934, 1 spec.; Corneşti [Pereval], 11.06.1937, 1 spec.

***Satyrium pruni* (Linnaeus 1758)** (box nr. 10)

[*Thecla pruni*], Bender, 24.05.1925, 1 spec.; Chişinău [Durleşti], 24.05.1935, 1 spec.; Tuzara, 06.06.1935, 1 spec.; Dănceni, 29.06.1938, 2 specs.

***Satyrium spini* (Denis & Schiffermüller 1775)** (box nr. 10)

[*Thecla spini*], Suruceni, 11.06.1923, 1 spec.; Chişinău, 25.05-4.06.1924, 2 specs.; 17.06.1926, 1 spec.; Calfa, 17.07.1935, 1 spec.

***Satyrium w-album* (Knoch 1782)** (box nr. 10)

[*Argynnis euphrosyne*], Chișinău, 17-30.05.1924, 1 spec.; Chișinău [Durlești], 10.05.1925, 1 spec.; Lozova, 29.05.1927, 3 specs., Bularda, 26.04.1934, 1 spec.

***Boloria selene* (Denis & Schiffermüller 1775)** (box nr. 7)

[*Argynnis selene*], Lozova, 29.05.1927, 7 specs.; Cornești [Pereval], 20.07.1938, 2 specs.

***Coenonympha arcania* (Linnaeus 1761)** (box nr. 10)

[*Coenonympha arcania*], Suruceni, 9.06.1923, 1 spec.; Chișinău, 16-3.06.1924, 1 spec.; Chișinău [Durlești], 10.07.1932, 4 specs.; Hirbovăț, 13.06.1927, 1 spec.

***Coenonympha glycerion* (Borkhausen 1788)** (box nr. 9)

[*Coenonympha iphis*], Goian, 8, 9, 11.06.1922, 3 specs.; Chișinău, 22.05.1923, 1 spec.; Suruceni, 28.05.1923, 1 spec.; Călărași, 2.08.1923, 1 spec.; Bender, 8.06.1926, 1 spec.; Cornești [Pereval], 9.08.1935, 1 spec.; Cornești [Pereval], 11.09.1935, 1 spec.; 29.06.1936, 1 spec.; Cricova, 1.08.1937, 1 spec.

***Coenonympha leander* (Esper 1784)** (box nr. 10)

[*Coenonympha leander*], Goian, 11.06.1922, 1 spec.

***Coenonympha pamphilus* (Linnaeus 1758)** (box nr. 10)

[*Coenonympha pamphilus*], Chișinău, 23.07.1922, 2 specs.; 30.05, 12.08.1926, 2 specs.; 3.06.1937, 3 specs.; Bender, 8.06.1926, 1 spec.; Dănceni, 15.05.1938, 1 spec.

***Coenonympha tullia* (Müller 1764)** (box nr. 10)

[*Coenonympha tiphon*], Valea Putnei [Romania], 14.07.1939, 1 spec.

***Erebia tullia ligea* (Linnaeus 1758)** (box nr. 8)

[*Erebia ligea*], 1 spec. – label absent.

***Erebia medusa* (Denis & Schiffermüller 1775)** (box nr. 8)

[*Erebia medusa*], Chişinău, 30.06.1925, 1 spec.; Valea Putnei [Romania], 25.07.1939, 1 spec.

***Euphydryas maturna* (Linnaeus 1758)** (box nr. 6)

[*Melitaea maturna*], Bularda, 20.06.1930, 1 spec.; Tuzara, 6.06.1935, 4 specs.; Corneşti [Pereval], 21.06.1936, 1 spec.; 8, 9.06.1937, 4 specs.

***Hipparchia hermione* (Linnaeus 1764)** (box nr. 8)

[*Satyrus hermione*], Chişinău, 12.08.1922, 1 spec.

***Hipparchia semele* (Linnaeus 1758)** (box nr. 8)

[*Satyrus hermione*], 1 spec. – label absent.

***Issoria lathonia* (Linnaeus 1758)** (box nr. 7)

[*Argynnis lathonia*], Suruceni, 10.06.1923, 1 spec.; Chişinău, 19.05-1.06.1924, 2 specs.; Corneşti [Pereval], 21.06.1936, 1 spec.

***Lasiommata maera* (Linnaeus 1758)** (box nr. 9)

[*Pararge maera*], Chişinău, 28-15.05.1923, 1 spec.; [no date], 1 spec.; Suruceni, 25-12.05.1924, 1 spec.; Corneşti, [no date], 1 spec.

***Maniola jurtina* (Linnaeus 1758)** (box nr. 9)

[*Epinephele jurtina*], Chişinău, 28.06.1922, 1 spec.; 5.08.1923, 1 spec.; 12-25.06.1924, 1 spec.; Chişinău [Durleşti], 3.07.1927, 1 spec.; 10.07.1932, 1 spec.; Călăraşi, 20.07-2.08.1923, 2 specs.; Bender, 3-16.06.1924, 1 spec.; Cricova, 23.06.1935, 2 specs.; Corneşti, 17.07.1938, 1 spec.

***Melanargia galathea* (Linnaeus 1758)** (box nr. 8)

[*Melanargia galathea*], Vadul-lui-Vodă, 11-24.06.1923, 1 spec.; Chişinău, 8.07.1923, 1 spec.; Chişinău [Durleşti], 29.06.1930, 2 specs.; Bender, 13.06.1927, 1 spec.; Corneşti [Pereval], 6.08.1935, 1 spec.; 15.08.1937, 1 spec.

***Melanargia russiae* (Esper 1783)** (box nr. 8)

[*Melanargia japigia*], Cricova, 20.06.1924, 1 spec.

***Melitaea athalia* (Rottemburg 1775)** (box nr. 7)

[*Melitaea athalia*], Zloți, 25.06.1927, 3 specs.; Cornești [Pereval], 20.07.1930, 1 spec.; 16.07.1933, 1 spec.; 21.07.1935, 1 spec.

***Melitaea aurelia* Nickerl 1850** (box nr. 7)

[*Melitaea aurelia*], Zloți, 25.06.1927, 2 specs.

***Melitaea cinxia* (Linnaeus 1758)** (box nr. 6)

[*Melitaea cinxia*], Suruceni, 28.05.1923, 5 specs.; 9.06.1929, 2 specs.; Dănceni, 4.06.1928, 1 spec.; 15, 22.05, 23.06.1938, 3 specs.

***Melitaea diamina* (Lang 1789)** (box nr. 7)

[*Melitaea dictynna*], Cornești [Pereval], 16, 18, 20.07.1933, 3 specs.; 30.06.1935, 4 specs.; 14.07.1936, 1 spec.; 15, 17.06.1937, 2 specs.; 26.06.1938, 1 spec.

***Melitaea didyma* (Esper 1778)** (box nr. 6)

[*Melitaea didyma*], Hîncești, 06.07-23.06.1924, 1 spec.; Cornești [Pereval], 3, 27.08.1935, 4 specs.; 18, 19.07.1938, 2 specs.; Bender, 16.08.1936, 3 specs.; Dănceni, 5.09.1937, 1 spec.

***Melitaea phoebe* (Denis & Schiffermüller 1775)** (box nr. 6)

[*Melitaea phoebe*], Chișinău, 16-29.05.1924, 2 specs.; 5.06.1932, 1 spec.; Bender, 1-14.07.1924, 1 spec.; 7.08.1935, 2 specs.; Cricova, 1.08.1937, 6 specs.

***Minois dryas* (Scopoli 1763)** (box nr. 8)

[*Satyrus dryas*], Chișinău [Durlești], 5.08.1922, 1 spec.; 10.08.1924, 1 spec.; Călărași, 2.08.1923, 1 spec.; Dănceni, 17.07.1932, 1 spec.; 30.07.1934, 1 spec.

***Neptis sappho* (Pallas 1771)** (box nr. 5)

[*Neptis aceris*], Chișinău, 21.07.1922, 1 spec.; Chișinău [Durlești], 5.07.1925, 1 spec.; 6.07.1930, 1 spec.; Lozova, 29.05.1927, 1 spec.; Ivanca, 20.07.1930, 1 spec.; Cornești [Pereval], 27.07.1935, 1 spec.

***Nymphalis polychloros* (Linnaeus 1758)** (box nr. 5)

[*Vanessa polychloros*], Chișinău, 7.06.1923, 2 specs.

***Nymphalis vaualbum* (Denis & Schiffermüller 1775)** (box nr. 6)
[*Nymphalis L-album*], Cornești [Pereval], 26.06.1938, 2 specs.

***Pararge aegeria* (Linnaeus 1758)** (box nr. 9)
[*Pararge aegeria* f. *egerides*], Chișinău, 23.07.1922, 1 spec.; 4.07.1924, 1 spec.; Chișinău [Durlești], 3.05.1938, 1 spec.; Bularda, 25.07.1922, 1 spec.; Strășeni, 3.07.1927, 2 specs.; Cojușna, 3.07.1927, 1 spec.; Cornești [Pereval], 13.07.1933, 1 spec.; 1.05.1938, 1 spec.

***Polygonia c-album* (Linnaeus 1758)** (box nr. 6)
[*Polygonia c-album*], Chișinău, 17.06.1922, 1 spec.; 22.05-4.06.1924, 1 spec.; Chișinău [Durlești], 5.08.1926, 1 spec.; 29.06.1930, 1 spec.

***Vanessa atalanta* (Linnaeus 1758)** (box nr. 5)
[*Pyrameis atalanta*], Chișinău, 23.12.1922, 2 specs.

***Vanessa cardui* (Linnaeus 1758)** (box nr. 5)
[*Pyrameis cardui*], Chișinău, 29.06.1922, 1 spec.; 12.05.1923, 1 spec.; Cornești [Pereval], 16.07.1923, 1 spec.

Family Papilionidae

***Iphiclides podalirius* (Linnaeus 1758)** (box nr. 1)
[*Papilio podalirius*], Chișinău, 16.07.1922, 2 specs.; 14.05.1923, 1 spec.; 10.07.1936, 1 spec.

***Papilio machaon* Linnaeus 1758** (box nr. 1)
[*Papilio machaon*], Bender, 4, 8, 18.07.1923, 3 specs.; Chișinău, 15.05.1938, 1 spec.

***Parnassius mnemosyne* (Linnaeus 1758)** (box nr. 1)
[*Parnassius mnemosyne*], Suruceni, 28.05.1923, 3 specs.; Dănceni, 15, 29.05.1938, 2 specs.

***Zerynthia polyxena* (Denis & Schiffermüller 1775)** (box nr. 1)
[*Thais polyxena*], Bender, 25.05.1924, 1 spec.; 21.04.1925, 2 specs.

Family Pieridae

***Anthocharis cardamines* (Linnaeus 1758)** (box nr. 2)

[*Euchloe cardamines*], Chişinău, 21.04-4.05.1924, 2 specs.; Chişinău [Durleşti], 10.05.1939, 2 specs.; Bender, 21.04.1925, 1 spec.; 7.05.1927, 1 spec.; Tuzara, 6.06.1935, 1 spec.; Dănceni, 18.05.1939, 1 spec.

***Aporia crataegi* (Linnaeus 1758)** (box nr. 1)

[*Aporia crataegi*], Chişinău, 25.05.1923, 2 specs.

***Colias chrysotheme* (Esper 1781)** (box nr. 4)

[*Colias chrysotheme*], Chişinău [Petricani], 27.07.1925, 3 specs.; 29.08.1937, 11 spec.; 26.04.1938, 1 spec.; Chişinău, 27.08, 3, 17.09.1937, 4 specs.; 29.04.1938, 1 spec.; Corneşti [Pereval], 27.07.1936, 1 spec.

***Colias croceus* (Fourcroy 1785)** (box nr. 3)

[*Colias croceus* (*edusa*)], Chişinău, 16, 23.07.1922, 4 specs.; 25.09.1925, 1 spec.; 25.06.1926, 1 spec.; 28.07.1933, 1 spec.; 17.09.1937, 1 spec.; 11.10.1938, 2 specs.; Chişinău [Petricani], 29.08.1937, 1 spec.; Bender, 14.10.1923, 1 spec.; Suruceni, 10.07.1925, 2 specs., Corneşti [Pereval], 14.09.1925, 2 specs.; 10.07.1938, 2 specs.; Cricova, 19.09.1937, 1 spec.; Corneşti, 18.07.1938, 1 spec.; Dănceni, 16.10.1938, 1 spec.; Sergheevka [Ucraina], 13.08.1930, 1 spec. Family Psychidae

***Canephora hirsuta* (Poda 1761)** (box nr. 20)

[*Canephora unicolor*], Dănceni, 22, 23.06.1932, 2 specs.; Cricova, 10.06.1935, 1 spec.; Cornești [Pereval], 21.06.1937, 1 spec.

***Epichnopteryx plumella* (Denis & Schiffermüller 1775)** (box nr. 20)

[*Epichnopteryx pulla*], Chișinău, 12.05.1936, 1 spec.; 5.05.1937, 1 spec.

***Sterrhopteryx fusca* (Haworth 1809)** (box nr. 20)

[*Sterrhopteryx hirsutella*], Cornești, 12, 13.06.1937, 2 specs.; Cornești [Pereval], 15.06.1937, 1 spec.

***Rebelia* sp.** (box nr. 20)

[*Rebelia* sp.], Chișinău, 12, 16.05.1923, 2 specs.; 31.08.1933, 1 spec.; Cornești [Pereval], 31.08.1933, 1 spec.

***Psychidae* sp.** (box nr. 20)

[*Psychidae* sp.], Chișinău, 17-30.06.1923, 1 spec.; 22.07.1930, 1 spec.; Cornești [Pereval], 9.07.1933, 1 spec.

Family Riodinidae

***Hamearis lucina* (Linnaeus 1758)** (box nr. 10)

[*Nemeobius lucina*], Chișinău [Durlești], 14.05.1922, 1 spec.; Chișinău, 11.07.1922, 2 specs.; 8.07.1923, 1 spec.; Călărași, 20.07-2.08.1923, 1 spec.

Family Saturniidae

***Aglia tau* (Linnaeus 1758)** (box nr. 20)

[*Aglia tau*], Bularda, 27.04.1930, 1 spec.

***Saturnia pyri* (Denis & Schiffermüller 1775)** (box nr. 20)

[*Saturnia pyri*], Chișinău, IV.1925, 1 spec.; 1927, 1 spec.

***Saturnia spini* (Denis & Schiffermüller 1775)** (box nr. 20)

[*Saturnia spini*], Bularda, 1, 2.05.1932, 2 specs.; Chișinău, 20.04.1934, 1 spec.; 25.04.1936, 1 spec.

Family Sessiidae

***Chamaesphacia annellata* (Zeller 1847)** (box nr. 22)

[*Sesia (Chamaesphacia) annellata*], Chişinău, 17-30.06.1922, 1 spec.; 12.07.1925, 1 spec.; Chişinău [Durleşti], 5.07.1925, 1 spec.; Dănceni, 10.07.1925, 1 spec.

***Chamaesphacia empiformis* (Esper 1783)** (box nr. 22)

[*Sesia (Chamaesphacia) empiformis*], Chişinău, 21, 22.05.1925, 2 specs.; Bender, 24.05.1925, 1 spec.; Suruceni, 10.07.1925, 1 spec.; Hagimus, 7, 8.06.1926, 2 specs.

***Chamaesphacia masariformis* (Ochsenheimer 1808)** (box nr. 22)

[*Sesia (Chamaesphacia) masariformis*], Chişinău, 5.08.1923, 1 spec.; 17.06.1926, 1 spec.

***Chamaesphacia palustris* Kautz 1927** (box nr. 22)

[*Sesia palustris*], Bender, 7.06.1926, 1 spec.

***Paranthrene tabaniformis* (Rottemburg 1775)** (box nr. 22)

[*Sciapteron tabaniforma*], Chişinău, 10.06.1925, 1 spec.

***Sesia apiformis* (Clerck 1759)** (box nr. 22)

[*Trochilium apiforma*], Bender – Gîsca, 24.05.1925, 1 spec.

***Synanthedon myopaeformis* (Borkhausen 1789)** (box nr. 22)

[*Sesia (Chamaesphacia) myopaeformis*], Chişinău, 08.07.1923, 3 specs.; 24.06-7.07.1924, 1 spec.; 12, 13.07.1925, 2 specs.

***Synanthedon stomoxiformis* (Hübner 1790)** (box nr. 22)

[*Sesia stomoxiformis*], Chişinău, 22.05-4.06.1924, 1 spec.

***Synanthedon tipuliformis* (Clerck 1759)** (box nr. 22)

[*Sesia (Chamaesphacia) tipuliformis*], Chişinău, 8.07.1923, 1 spec.

***Synanthedon vespiformis* (Linnaeus 1761)** (box nr. 22)

[*Sesia (Chamaesphacia) vespiformis*], Zloţi, 25, 26.06.1927, 2 specs.; Chişinău [Durleşti], 1-5.06.1930, 5 specs.; Corneşti [Pereval], 20.07.1933, 1 spec.

Sessiidae sp. (box nr. 22)

[Sessiidae sp.], Bender, 24.05.1925, 1 spec.; Chişinău, 6.06.1925, 1 spec.; 30.07.1932, 1 spec.; 10.06.1937, 1 spec.; Corneşti [Pereval], 18.07.1933, 1 spec.

Family Sphingidae

Acherontia atropos (Linnaeus 1758) (box nr. 18)

[*Acherontia atropos*], label absent, 2 specs.

Agrilus convolvuli (Linnaeus 1758) (box nr. 18)

[*Herse convolvuli*], Chişinău, 11.07.1922, 1 spec.; 1.05.1924, 1 spec.

Deilephila elpenor (Linnaeus 1758) (box nr. 19)

[*Pergesa elpenor*], Bender, 2-15.06.1924, 1 spec.; Chişinău, 4.05.1927, 2 specs.; 4.05.1934, 1 spec.; Bender – Gîsca, 7.05.1927, 1 spec.

Deilephila porcellus (Linnaeus 1758) (box nr. 19)

[*Pergesa porcellus*], Dănceni, 21.05.1929, 1 spec.

Hemaris tityus (Linnaeus 1758) (box nr. 19)

[*Haemorrhagia (Hemaris) tityus (fuciformis)*], Goian, 28.04-11.05.1924-1929, 6 specs.; label absent, 2 specs.

Hyles euphorbiae (Linnaeus 1758) (box nr. 19)

[*Celerio euphorbiae*], Chişinău, 7.08.1922, 1 spec.; III.1925, 1 spec.; 1.08.1926, 1 spec.; 27.07.1935, 1 spec.

Hyles gallii (Rottemburg 1775) (box nr. 19)

[*Celerio gallii*], Chişinău, 4, 7.05.1925, 2 specs.; 4.07.1927, 1 spec.; 4.05, 1.08.1934, 2 specs.

Hyles livornica (Esper 1780) (box nr. 19)

[*Celerio lineata*], Chişinău, 16.07.1932, 1 spec.; 4.06.1934, 1 spec.; 3.08.1937, 1 spec.

Macroglossum stellatarum (Linnaeus 1758) (box nr. 19)

[*Macroglossum stellatarum*], Chişinău, 12.07.1922, 1 spec.; 3.16.05.1924, 1 spec.; 12.09.1925, 1 spec.

***Marumba quercus* (Denis & Schiffermüller 1775)** (box nr. 18)

[*Marumba quercus*], Chişinău, 13.07.1922, 1 spec.; 21.08, 19.09.1924, 2 specs.; 28.06.1926, 1 spec.; 3.05.1934, 1 spec.; Chişinău [Durlleşti], 20.06.1930, 1 spec.; Hagimus, 7.05.1927, 1 spec.; Corneşti [Pereval], 20.05.1937, 1 spec.; label absent, 1 spec.

***Mimas tiliae* (Linnaeus 1758)** (box nr. 18)

[*Mimas tiliae*], Chişinău, 4.05.1934, 1 spec.; 14.05.1935, 1 spec.; 1.03.1936, 1 spec.; 4.03.1937, 1 spec.; Bender – Gîsca, 24.03.1936, 1 spec.; Bender, 3.05.1937, 1 spec.

***Smerinthus ocellata* (Linnaeus 1758)** (box nr. 18)

[*Smerinthus ocellatus*], Chişinău, 26.05.1938, 1 spec.

***Sphinx ligustri* Linnaeus 1758** (box nr. 18)

[*Sphinx ligustri*], Chişinău, 23.06, 7.08.1923, 2 specs.; 6.08.1937, 1 spec.

Family Zygaenidae

***Jordanita globulariae* (Hübner 1793)** (box nr. 16)

[*Procris globulariae*], Corneşti [Pereval], 15, 16, 21, 22.06.1937, 4 specs.

***Jordanita graeca* (Jordan 1907)** (box nr. 16)

[*Procris graeca*], Corneşti [Pereval], 23.06.1937, 1 spec.

***Jordanita tenuicornis* (Zeller 1847)** (box nr. 16)

[*Procris tenuicornis*], Călăraşi, 2.08.1923, 1 spec.; Corneşti [Pereval], 28.07, 13.08.1933, 2 specs.

***Rhagades pruni* (Denis & Schiffermüller 1775)** (box nr. 16)

[*Procris pruni*], Chişinău [Durlleşti], 30.05.1923, 1 spec.; Suruceni, 10.06.1923, 1 spec.; Zloţi, 25.07.1927, 1 spec.; Corneşti [Pereval], 29.06.1936, 2 specs.; 22, 23.06, 16.07.1937, 4 specs.

***Zygaena carniolica* (Scopoli 1763)** (box nr. 16)

[*Zygaena carnicola*], Corneşti, 3, 8.08.1935, 2 specs.; 19.07.1936, 2 specs.; 27.07.1938, 5 specs.; Mereni, 16.07.1936, 2 specs.; Rădeni, 19.07.1936, 1 spec.

***Zygaena cynarae* (Esper 1789)** (box nr. 16)

[*Zygaena cynarae*], Bularda, 16.03.1924, 6 specs.

***Zygaena ephialtes* (Linnaeus 1767)** (box nr. 16)

[*Zygaena ephialtes*], Chişinău, 5-18.07.1924, 1 spec.; Chişinău [Durleşti], 6.07.1930, 1 spec.; Pîrjolteni, 24.07.1933, 1 spec.; Corneşti [Pereval], 26.07.1933, 1 spec.; Rădeni, 27.07.1935, 1 spec.; Mereni, 16.07.1936, 1 spec.; Corneşti, 21.07.1938, 1 spec.

***Zygaena filipendulae* (Linnaeus 1758)** (box nr. 16)

[*Zygaena filipendulae*], Băcioi, 25.06.1927, 1 spec.; Corneşti [Pereval], 27.07.1933, 1 spec.; Pîrjolteni, 25.07.1933, 1 spec.; Cricova, 4.07.1935, 1 spec.; Rădeni, 6.07.1935, 1 spec.; Corneşti [Pereval], 20.07.1936, 1 spec.; 25.07.1937, 1 spec.

***Zygaena lonicerae* (Scheven 1777)** (box nr. 16)

[*Zygaena lonicerae*], Chişinău, 8.07.1923, 1 spec.; Corneşti [Pereval], 17.07.1923, 1 spec.; 16.07.1936, 1 spec.; Rădeni, 20, 23.06.1937, 2 specs.

***Zygaena loti* (Denis & Schiffermüller 1775)** (box nr. 16)

[*Zygaena achilleae*], Suruceni, 10.07.1925, 1 spec.; Corneşti [Pereval], 27.07.1933, 1 spec.; 18, 19, 22, 23.06.1937, 4 specs.

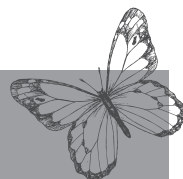

***Zygaena osterodensis* Reiss 1921** (box nr. 16)

[*Zygaena scabiosae*], Corneşti [Pereval], 17, 18, 24.07.1933, 4 specs.; Dănceni, 17.06.1935, 1 spec.; Rădeni, 29, 30.06.1936, 2 specs.

***Zygaena purpuralis* (Brünnich 1763)** (box nr. 16)

[*Zygaena purpuralis*], Suruceni, 10-13.06.1923, 4 specs.

LIST

of the scientific papers, published on the materials of entomological collection „N. Zubowsky”

Miller E., Zubowsky N. Materials on the entomological fauna of Bessarabia. IV. Curculionidae. In:

Proceedings of the Bessarabian Society of Naturalists and amateurs of Natural History. Vol.

I, part 2. Chişinău: Printing house F. P. Kashevsky, 1907, p. 135-145 [In German].

Miller E., Zubowsky N. Materials on the entomological fauna of Bessarabia. Butterflies

(Macrolepidoptera). In: Proceedings of the Bessarabian Society of Naturalists and amateurs

of Natural History. Vol. I, part 3. Chişinău: Printing house F. P. Kashevsky, 1908, p. 410-425 [In German].

Miller E., Zubowsky N. Materials on the entomological fauna of Bessarabia. Coleoptera In:

Proceedings of the Bessarabian Society of Naturalists and amateurs of Natural History. Vol. II, part 1. Chişinău: Typography of the Bessarabian Gubernial government, 1910, p. 31-33 [In German].

Miller E., Zubowsky N. Materials on the entomological fauna of Bessarabia. Butterflies

(Macrolepidoptera). Addition I. In: Proceedings of the Bessarabian Society of Naturalists and amateurs of Natural History. Vol. II, part 2. Chişinău: Typography of the Bessarabian Gubernial government, 1912, p. 93-96 [In German].

Miller E., Zubowsky N. Materials on the entomological fauna of Bessarabia. Butterflies

(Macrolepidoptera). Addition II. In: Proceedings of the Bessarabian Society of Naturalists and amateurs of Natural History. Vol. IV. Chişinău: Typography of the Bessarabian Gubernial government, 1913, p. 261-262 [In Russian].

Miller E., Zubowsky N. Materials on the entomological fauna of Bessarabia. In: Proceedings of the

Bessarabian Society of Naturalists and amateurs of Natural History. Vol. VI. Chişinău: Typography of the Bessarabian Gubernial government, 1917, p.119-150 [In Russian].

Miller E., Zubovschi N., Ruscinschi A. Materials on the entomological fauna of Bessarabia.

Macrolepidoptera. Addition III. In: Bulletin du Musee Regional de Bessarabie. Vol. 2 and 3.

Chişinău: Tipografia Eparhială „Cartea Românească”, 1929, p. 97-130 [In German].

Miller E., Zubowsky N., Ruschtschinsky A. Materialien zur kenntnis der entomologischen fauna

Bessarabiens. Macrolepidoptera. Addition IV. In: Bulletin du Musee Regional de Bessarabie.

Vol. 4. Chişinău: Tipografia Eparhială „Cartea Românească”, 1932, p. 25-38 [In German].

Jazentkowsky E. Materials on the entomological fauna of Bessarabia. Coleoptera. VII.

Staphylinidae. In: Proceedings of the Bessarabian Society of Naturalists and amateurs of Natural History. Vol. II, part 2. Chişinău: Typography of the Bessarabian Gubernial government, 1912, p. 149-164 [In Russian].

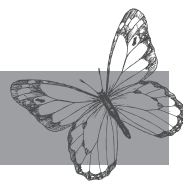

Ruscinski A. Beitrag zur Curculionidenfauna von Bessarabien. In: Bulletin du Musee Regional de

Bessarabie. Vol. 8. Chişinău: Typography „Tiparul Moldovenesc”, 1937, p. 33-35 [In German].

Zubowski N., Ruscinski A. Materialien zur Kenntnis der entomologischen Fauna Bessarabiens.

Macrolepidoptera. Nachtrag V. In: Bulletin du Musee Regional de Bessarabie. Vol. 8. Chişinău: Typography „Tiparul Moldovenesc”, 1937, p. 23-32 [In German].
